Subject: BUSINESS TOOLS

In order to improve operational effectiveness and facilitate the consistent application of procedures, VCCCD Business and Administrative Services has launched BusinessTools, a central website for forms, procedures and documents to be

used district-wide. To access BusinessTools, click on the green BusinessTools icon  found in the icon bar in the upper right-hand corner of MyVCCCD. Many forms may now be completed electronically. This initial release includes commonly used forms and procedures for the following areas:

- accounting
- accounts payable
- contracts, grants and special funding
- information technology
- payroll
- police services (parking)
- purchasing
- risk management

We will be adding content on a regular basis until we have included all forms and procedures. We want to know if this website assists in the clarification and consistent application of procedures and, as such, meets your needs in this area. In order to achieve continuous quality improvement, the site will be expanded over the next year to include additional procedures and forms as well as enhancements based on user suggestions. Please send us your suggestions for the next group of forms and procedures to be included as well as any suggested enhancements to the website by clicking the "suggestions/feedback" link within the portal site.
