

Institutional Student Learning Outcomes

November, 2010

1. **Subject Knowledge**
To develop understanding of the discipline's basic content, principles, methodologies, and perspectives.
2. **Communication**
To enhance the ability to communicate clearly and effectively.
3. **Critical Thinking and Analytic Reasoning**
To enhance critical thinking skills and reasoning that will encourage continuous inquiry, problem solving, and learning.
4. **Quantitative Reasoning**
To apply quantitative and symbolic reasoning to obtain objective solutions to problems and equations.
5. **Creative Expression**
To encourage expression of originality, imagination and innovation.
6. **Information Retrieval and Technological Competency**
To demonstrate the ability to find, organize, understand, critically examine and use information from various sources, using a variety of technologies.
7. **Global Perspectives and/or Multicultural Awareness**
To enhance global awareness, to develop the ability to look at issues from multiple perspectives and to provide the skills for participating in global and local societies.
8. **Community Involvement, Leadership and Social Responsibility**
To help students understand the complexities of ethical judgment, leadership, social and/or civil responsibility as applied to social and ethical issues.
9. **Lifelong Learning and Life Skills**
To enhance a student's self-management and interpersonal skills, and provide a student with skills for a career, transfer, lifelong learning, health and/or self-improvement.
10. **Interdisciplinary Studies**
To learn to apply more than one discipline's approach to a topic, problem or method.
