

Looking for an exciting Summer Research Experience in Science, Engineering or the Social Sciences?

Apply to the ***Internships in Nanosystems Science, Engineering and Technology (INSET)*** Program!
Summer Undergraduate Research Experience for Community College Students

Hosted by the California NanoSystems Institute (CNSI) at the University of California Santa Barbara.

This internship program brings science, engineering and social science community college undergraduates to the UC Santa Barbara campus for a summer research experience.

As an INSET Intern you will:

Gain first-hand experience in scientific investigation in a dynamic, collaborative research environment. Be matched individually with UCSB faculty and graduate student lab mentors who will provide training and support.

Attend weekly meetings, special seminars, and have the opportunity to develop their presentation skills throughout the summer.

- Intern stipend of \$3,000 total for 8 weeks at 35 hrs/week.
- Free housing and travel costs to and from the UCSB campus will be provided.
- Program dates are June 20 - August 12, 2011

Application Deadline: Monday, February 28, 2011
