PBC Minutes (04/16/2014)
V. Budget Update

M. Bush provided an update on the budget and discussed the Preliminary Revenue and Costs*, Districtwide Services budget report*, FY15 Tentative Budget Allocation*, Productivity Factor from PPRD report*, and FY15FTES* documents. Regarding the Preliminary Revenue and Costs document, he said the budget is good and very exciting in categorical areas with more student success and student equity money. He spoke about Districtwide Services and said as district services grow, there is less money that goes to the colleges and went through some of the notable increases and spoke about contingency being most controversial. Regarding the FY15 Tentative Budget Allocation, he reviewed the sheet and said last year Informational Technology staff were at the district and now, they’re coming back to the college. He reviewed the Productivity Factor from PPRD report for all three colleges. He called attention to the FY15 FTES report and talked about non-credit classes. The allocation model document is a comparison document between the three colleges and our percentage of funding for the colleges and what percentage of the district we are, which is 19% of the district but we get 22% since we met our goals and as a smaller school we do need a little more money to fund the school. Linda said that she feels we will achieve a higher %. Mike said we should eventually get up to 12,000 students within a few years once Condor Hall is complete. L. Kamaila talked about Senate Bill 850 which will allow community colleges to offer bachelor’s degrees only in very limited areas and only one program in the district specifically in CTE programs. She said the Board wants to hear back from faculty at the next meeting. The tuition for this would be closer to CSU tuitions, however, community colleges don’t do student loans.

VI. Informational Item: Accreditation

The committee discussed the PBC committee appraisal. They reviewed the survey results and L. Kamaila read through some of the comments. The committee also discussed Resource Requests and the approval process and talked about monies and how it’s spent (i.e. categorical, etc.). C. Horrock asked about a list of where/how the money was spent. They talked about who chooses to fund what and discussed the process.

VII. Adjournment
