

Oxnard College Child Development Health Clearance for Teachers and Students

Per California Senate Bill 792

1. Proof of two measles, mumps, rubella vaccines or a blood test for measles immunity.
  - a. If not immune, must receive 1 MMR vaccine
2. Proof of one Tdap (tetanus, diphtheria, acellular pertussis) in the last 10 years. Pertussis is whooping cough.
3. A flu vaccine for the current year.
4. Tuberculosis clearance within the last year (PPD, Quantiferon, or chest x-ray)

A medical waiver can be given for the vaccinations, but not by the Oxnard College Student Health Center. The student or employee needs the waiver from their primary care provider.
