D. Eberhardt asked about signage for skateboarding and bicycles. M. Bush said a verbiage recommendation will be asked from this committee and will then go to Senate.

M. Bush stated that the biology faculty inquired about the DH lab and the fact that there is a shortage of labs. He said that we are looking into classrooms that can be converted into labs. It will be a long range plan but we need to start the planning now.

District is currently doing a cost estimate regarding the District’s possible relocation to Oxnard College. The County has been given notice and will be moving out in May. E. Rivera asked about the rent we received from the County and M. Bush responded that these monies were never part of the general fund and was used for special projects.

Lt. Romero provided a Campus Police update:

- Spring break last week was quiet.
- Parking Lot A – STAFF spots were repainted.
- Had blue phone activation two weeks ago; was not campus related but it was good to know that they do work.
- Full house this past weekend with soccer, community market and the OCTV event and campus ran out of parking.

- Hit and run two weeks prior but was caught on video and will have IT assist in zooming in to get the license plate number.
