Turnitin setup – students

(These instructions as well as an instructional video are also available online at https://turnitin.com/static/training/student_creating_new_user_profile.php.)

First, you must create an account at http://www.turnitin.com.

Then click on “Create Account” near the top of the window.

Under Create a New Account, click on “student.”

Enter the requested information:

- Class ID is the seven-digit code for your course; your instructor will provide that for you.
- Class Enrollment Password is the password for that course; your instructor will also have that for you.
- Enter your name and email address.
- Create a password and confirm it for accuracy. It must be 6-12 characters in length and have at least one letter and one number in it.
- Create a “secret question” and answer in case you lose your password.
- Agree to the User Agreement by clicking “I am at least 13 years of age” and then “I agree – create profile.”

That’s it—you can now go in to your class area to submit a paper.
