OXNARD COLLEGE MISSION STATEMENT

Oxnard College promotes high quality teaching and learning that meet the needs of a diverse student population. As a multicultural, comprehensive institution of higher learning, Oxnard College works to empower and inspire students to succeed in their personal and educational goals and aspirations.

As a unique and accessible community resource, our mission is to provide and promote student learning:

- Transfer, occupational, and general education, second language acquisition, and basic skills development;
- Student services and programs;
- Educational partnerships and economic development; and opportunities for lifelong learning.

Oxnard College intends to lead its community to fulfill its highest potential.

TECHNOLOGY COMMITTEE

Authority
The Technology Committee derives its authority from the Oxnard College Participatory Governance/Standing, Advisory and Ad-Hoc Committees Manual in 2010 by the Academic and Classified Senates, Associated Student Government, and OC Management.

Purpose
The Technology Committee exists to meet the instructional, communication, computing, and research needs of the students, faculty, and staff of the College. The mission of the committee is to focus on the technology environment at the College and to take a proactive leadership role on technology issues.

Membership
Members are to be appointed/selected annually. The Technology Committee membership is as follows:
Co-Chairs, Voting Members, Constituency and/or Division/Department Representatives, and Ex-Officio Members.

The Technology Committee is open to all constituents and/or division/departments of the College. The voting, however, is limited to the representatives listed above. Membership is for one year.

Goals
- To provide a collaborative venue for shared leadership determining the technology needs of the College to sustain teaching and information management.
- To plan for the incorporation of various technologies in the teaching and learning activities at the College.
- To advise the College and individuals about technological matters pertaining to teaching and learning and information management.
- To help in establishing policies and procedures that can sustain and manage the existing technology and information management infrastructure.
- To author, revise, and oversee the College’s Technology Master Plan.

DISCUSSION/DECISIONS

I. Called to Order  I  The meeting was called to order at 2:05 p.m.

II. Approval of Minutes  I,AT  The Committee reviewed the meeting minutes of October 20, 2011. B. King-Rushing made a motion to approve the minutes, D. Goicoechea seconded, and the motion carried unanimously.

III. Public Comment  I  No Comment

IV. Goal Implementation Planning  I,AT  The Committee reviewed the goals on the agenda and discussed how to begin the planning process.

The following items were discussed some decisions made:

- **Purpose:** change word “on” to “in” to read - ….proactive leadership role in technology issues;

- **Goals:** first bullet point – removed “shared leadership”;

- **Goals:** third bullet point – make standing agenda item.

A few questions arose regarding bullet point #4 and J. al-Amin stated that both he and R. Shaw attend the ATAC meeting, so if there are issues at the District level they can then take that to ATAC. He added that we do have venues in ways of which to measure; through feedback and district-wide committees.
V. Open Discussion

I. B. King Rushing had the following issues to discuss:

- New item code for the minutes; institutional effectiveness need which is a communication item to share with another committees and will be a direct way for committees to communicate with each other.

- Science department is frustrated with the large number of password access codes that are required for one to use the copiers. J. al-Amin responded that the copier codes were done by Canon by "org code" so we can track it by Dept. K. Merrill asked about people who do things for different departments and how they would break it up on a percentage level? J. al-Amin responded that the Publications center can break out the code and added that we should be using Publications anyway because it's more cost efficient.

- Visual accessibility of our website – having a +/- button where you can zoom in or out of the screen. Our website needs to be more accessible to the visually impaired. R. Shaw responded that we've used "zoom text" for a number of years. B. King-Rushing responded that his student was not comfortable using zoom text and wanted an alternate option. J. Erskine mentioned Windows 7 Magnifier that a couple students have used upstairs in the LRC.

VI. Informational Item: Accreditation

J. al-Amin stated that there is no update yet and that we are waiting for the follow-up visit report from the team.

VII. Adjournment

The meeting adjourned at 3:00p.m.
