

BUSINESS

Associate in Arts Degree

This program is designed for students interested in transferring to a four-year college or university to complete a bachelor's degree in Business, Business Administration, Management, Economics, Accounting, and other Business related majors such as Marketing. The courses in the Associate Degree listed below are the most commonly required lower-division courses in these majors at both CSU and UC campuses as well as independent colleges and universities. Business-related majors are popular at all university campuses and impacted at many, making admission into these programs competitive. At some universities, admission preference may be given to students who have completed all lower-division major requirements prior to transfer. Requirements vary by campus and are subject to change. Students are advised to refer to the official articulation agreements on assist.org for the most current requirements of their intended transfer institution and should work with a counselor to create a transfer plan. For more information, contact: Robert Cabral, rcabral@vccd.edu (805) 678-5051.

AIR CONDITIONING AND REFRIGERATION

Associate in Science Degree Certificate of Achievement

The Air Conditioning and Refrigeration (HVAC/R) Program provides occupational training to prepare students for jobs in the HVAC/R industry, including the green economy sector (energy auditing). The program also provides valuable skill enhancement training to existing HVAC/R technicians who desire to expand and update their knowledge and skills to advance in the industry. Students in the program learn the theoretical, technical, and problem-solving skills essential for employment and advancement in the HVAC/R industry. Students completing the program can seek employment as HVAC/R technicians, sales and consulting specialists, equipment and system installers, operations and maintenance technicians, building engineers, controls technicians, and energy auditing specialists. As a CTE program with an industry advisory council that meets annually and communicates regularly, we have developed an educational partnership with the area HVAC/R industry and we are meeting a defined need to provide qualified HVAC/R technicians and energy auditors to HVAC/R businesses that service corporations and homes in Ventura County and beyond. *For more information, contact: Alan Ainsworth, aainsworth@vcccd.edu (805) 678-5042.*

ART – TWO-DIMENSIONAL STUDIO

Associate in Arts Degree

The Art and Art History program encourages all students to discover and explore the visual arts. Studio Art courses provide training in art practice, including drawing, life drawing, painting, color and design, three dimensional art, digital photography, and digital arts. Art History courses introduce students to the study of art and explore the history of visual art traditions throughout the world, from antiquity to the present. The program is supported by the McNish Gallery of Art, which brings contemporary art to campus and provides students an opportunity to gain hands-on experience in gallery work. Many courses in the Art and Art History program are transferable and satisfy general education requirements. Degree programs include an AA degree in Art - Two-Dimensional Studio and AA-T degrees (Associate in Arts for Transfer) in Studio Arts and in Art History. The Art and Art History program emphasizes creative and critical thinking, skills that are useful in all walks of life! For more information on Studio Arts, contact: Christine Morla, cmorla@vcccd.edu (805) 678-5046.

ART HISTORY

Associate in Arts for Transfer

Because art is among the most complex and dynamic forms of human creative expression, it is also a uniquely rich artifact for the understanding of human history. In Art History, we explore art with the tools of an historian, combining close visual study of artworks with historical investigation and analysis. Art History students gain an understanding of the development of art in cultures around the world and throughout time, as well as an appreciation for the deep relationship between art and broader social and cultural concerns. Through the study of Art History, students build skills in visual analysis and interpretation, critical thinking, research and writing. Students majoring in Art History may explore art and visual culture from around the world, learn fundamental art techniques, and gain experience in museum and gallery work. Core courses in the major cover the history of Western art and provide instruction in the fundamentals of drawing. Electives offer students the opportunity to explore non-Western art, to go deeper in their study of a selected period of art, or develop their hands-on understanding of the materials and techniques of art making. For more information on Art History, contact: Rainer Mack, rmack@vcccd.edu (805) 678-5181.

AUTOMATION AND CONTROL SYSTEMS

Associate in Science Degree
Certificate of Achievement

The Automation and Control Systems program provides training in foundation level skills necessary for employment in the expanding field of automation and control systems. Training includes electrical power and controls, instrumentation, programmable logic controllers (PLCs), building automation, and networking. Graduates can seek employment and excellent wage opportunities as building automation technicians and control systems technicians with manufacturers, vendors, service companies, as well as large facilities such as government and education facilities, hospitals, and office buildings. *For more information, contact: Alan Ainsworth, aainsworth@vcccd.edu (805) 678-5042.*

AUTOMOTIVE BODY AND FENDER REPAIR

Associate in Science Degree
Certificate of Achievement

The Automotive Body, Painting, and Fender Repair program at Oxnard College prepares students to enter the industry as entry-level technicians and provides continuous skills improvement training for employed technicians in the field. Students can complete a Certificate of Achievement and an Associate of Science Degree if the necessary general education requirements are completed. The program emphasizes hands-on training in body, fender, collision repair, painting, and automotive graphics so that students have the skills necessary to gain employment in the industry. *For more information, contact: Jose Ortega, jortega@vcccd.edu (805) 678-5047.*

AUTOMOTIVE TECHNOLOGY

Associate in Science Degree Certificate of Achievement

The Automotive Technology program at Oxnard College is designed to prepare students as entry-level technicians for the automotive field. The program also provides improvement training for working automotive technicians dealing with rapidly changing technologies and updated certification exams. Students can complete a Proficiency Award (Entry Level Alignment Specialist, Entry Level Brake and Electrical Specialist), an Associate of Science Degree or Certificate of Achievement. Courses include a full range of curriculum for this career: fundamentals and foundations of automotive, automotive electrical, engine performance, brake systems, steering and suspension, heating and air conditioning systems, transmissions, and automotive business management. In addition, students can enter a pathway to becoming a State of California, Bureau of Automotive Repair licensed vehicle Emissions Inspector. The courses are designed to give a student knowledge and hands-on training needed to achieve ASE (Automotive Service Excellence) certification. All courses are taught by ASE certified instructors and the program is certified by NATEF (National Automotive Technicians Educational Foundation). *For more information, contact: Richard Williams, rwilliams@vcccd.edu (805) 678-5890.*

BIOLOGY

Associate in Science Degree

Biology is the study of living organisms from those composed of one cell to those made of trillions of cells and everything in between, including bacteria, mushrooms, humans, other animals, and plants. Biology majors also receive a strong foundation in other science fields, as these are relevant to living organisms. For example, all living things are made of molecules. So to understand how these molecules will interact in living organisms, biology majors will receive a foundation in chemistry. Students in the biology program at Oxnard College will learn about the diversity of living organisms and will become skilled in laboratory techniques. Various career options in biology will also be explored. Biology majors have the choice between two degree options. The Associate in Arts in Biology (A.A.) is recommended for those looking to transfer to a University of California school or planning on a career in the medical or dental field. The Associate in Science in Biology for Transfer (AS-T) is recommended for those students planning to transfer to a California State University school as it provides certain guarantees upon transfer. See a counselor for more information. For students interested in the wonder of the living world, the Oxnard College Biology program is the place to be. **UC Limitation on Transfer of Biology Courses:** *The UC will give credit for only one Biology series: R101 and R101L, or R120 and R120L. No credit will be given for R101 and R101L if taken after R120 and R120L. CHEMISTRY

Associate in Arts Degree

Chemistry is the science that deals with the composition, structure, and properties of matter and with the changes matter undergoes. There are many different employment opportunities open to chemists. A chemist can work in a laboratory or research environment asking questions and testing hypotheses with experiments. Another possibility for a chemist is to work on a computer developing theories or models or to predict reactions. Some chemists do field work, others contribute advice on chemistry for projects. Some chemists write. Some chemists teach, while others use chemistry to enter the medical field. **UC Limitation on Transfer of Chemistry Courses:** The UC will not give credit for CHEM R104 or CHEM R110 if taken after CHEM R120. No credit will be given for CHEM R112 if taken after CHEM R130. For more information, contact: Yong Ma, yma@vcccd.edu, (805) 678-5053 or Anna Toy-Palmer, atoypalmer@vcccd.edu, (805) 678-5205.

CHEMISTRY

Associate in Science Degree in Chemistry

Chemistry is the science that deals with the composition, structure, and properties of matter and with the changes matter undergoes. There are many different employment opportunities open to chemists. A chemist can work in a laboratory or research environment asking questions and testing hypotheses with experiments. Another possibility for a chemist is to work on a computer developing theories or models or to predict reactions. Some chemists do field work, others contribute advice on chemistry for projects. Some chemists write. Some chemists teach, while others use chemistry to enter the medical field. **UC Limitation on Transfer of Chemistry Courses:** The UC will not give credit for CHEM R104 or CHEM R110 if taken after CHEM R120. No credit will be given for CHEM R112 if taken after CHEM R130. For more information, contact: Yong Ma, yma@vcccd.edu, (805) 678-5053 or Anna Toy-Palmer, atoypalmer@vcccd.edu, (805) 678-5205.

CHILD AND ADOLESCENT DEVELOPMENT

Associate in Arts for Transfer

The Associate in Arts in Child and Adolescent Development is a 60-unit degree program that provides a solid lower-division preparation for students planning to transfer to a CSU for a Bachelor's degree in Child and Adolescent Development, Child Development, Child, Adolescent & Family Studies, Human Development or other related majors. In this major, students will explore theories and concepts about bio-physical, socio-emotional, and cognitive developmental milestones from conception through adolescence; individual and cultural differences; and common variations in development. In this broad, interdisciplinary curriculum, students will develop critical thinking, writing, and oral presentation skills in preparation to be professionals working with children and families. Students completing this degree will possess a working knowledge of human development from childhood through adolescence and will understand the importance of the family and cultural connection to the developing child. Students completing a four-year Bachelor's degree in Child and Adolescent Development or Child Development will have a foundation for a wide range of careers in developmentally related public organizations, teaching institutions, service agencies, and mental and physical health facilities, child advocacy, and youth programs, and will be prepared for advanced degrees and professional programs in the fields of clinical social work, clinical psychology, school psychology, school counseling, K-12 teaching, college teaching, public policy, and developmental research.

CHILD DEVELOPMENT/EARLY CHILDHOOD EDUCATION SITE SUPERVISOR

Proficiency Award
(Awarded by the Department)

This proficiency award is designed for students who have completed the AS-T transfer degree in Early Childhood Education and who desire to apply for a Site Supervisor permit. The Site Supervisor permit authorizes the holder to supervise a child care and development program operating at a single site, provide service in the care, development, and instruction of children in a child care and development program, and serve as a coordinator of curriculum and staff development. **The earned AS-T in Early Childhood Education will serve as a prerequisite for this proficiency award.** For more information, contact: Patricia Mendez, pmendez@vcccd.edu (805) 678-5054.

REQUIRED COURSES:

		UNITS
ECE R115	Management for Child Development Programs: Administration and Supervision <i>*Prerequisites: ECE R103</i>	3.0
ECE R116	Management and Administration of Programs for Young Children <i>*Prerequisites: ECE R115</i>	3.0
ECE R117	Adult Supervision/Mentor Teacher <i>*Prerequisites: ECE R112</i>	2.0

COASTAL ENVIRONMENTAL STUDIES

Associate in Arts in Coastal Environmental Studies

The Environmental Studies Program offers two degrees: The Associate in Arts (A.A.) and the Associate in Science (A.S.) in Coastal Environmental Studies. The courses in this major will prepare students for university transfer in a variety of multidisciplinary fields that will contribute to the sustainable use of our coastal habitats. The A.A. degree is awarded upon satisfactory completion of a minimum of 60 semester units of which 31 semester units are required for the major. The A.S. degree is awarded upon satisfactory completion of a minimum of 60 semester units of which 33 semester units are required for the major. *For more information, contact: Shannon Newby, snewby@vcccd.edu, (805) 678-5050 or Thomas O'Neil, toneil@vcccd.edu, (805) 678-1916.*

COMMUNITY MENTAL HEALTH SERVICE

Proficiency Award

(Awarded by the Department)

This Proficiency Award provides students with entry-level skills in the field of Mental Health. Students who successfully complete the requirements for this nine-unit Proficiency Award will acquire a basic understanding and appreciation of mental health services, policy, roles in counseling and interviewing, basic case management and case evaluation. This award will also serve the needs of incumbent workers seeking to advance in their existent position within the field of mental health. In addition, the required courses connected to this proficiency award will serve as a career pathway for high school students who possess an early interest in an occupation within the mental health field. COMPUTER NETWORKING/ INFORMATION TECHNOLOGY

Associate in Science Degree Certificate of Achievement

The Computer Networking/IT program prepares students for excellent career opportunities that are in demand such as a PC technician, IT support technician, IT help desk, computer network engineer, network administrator, virtualization specialist, cloud-based solution advisor and implementer, and sales. The program offers an Associate in Science Degree or Certificate of Achievement in Computer Networking/IT as well as certification preparation in Cisco, CompTIA, and Microsoft. Oxnard College is an approved PearsonVUE Testing Center location and our relationship with Cisco and CompTIA provides students with significant discounts on certification exams. The field of Computer Networking/IT evolves at a fast pace and the program frequently updates course content to keep up with the changes in the industry. The program is a Cisco Networking Academy, CompTIA Academy Partner Program, and a provider of Microsoft training and our relationship with these leaders in the industry keeps our curriculum and training current. The IT program at CSU Channel Islands will accept units from the Computer Networking/IT program at Oxnard College for students who desire to transfer to the University to complete a Bachelor's Degree. *For more information, contact: Alex Lynch, alynch@vcccd.edu (805) 678-5061.*

DENTAL ASSISTING

Associate in Science Degree Certificate of Achievement

The Dental Assisting Program introduces students to the high demand field of professional dental assisting. Dental assistants are a significant and valuable member of the dental health care team. Students are trained to perform a wide variety of duties including working chairside as patients are examined and treated, sterilizing instruments, and applying anti-cavity agents to teeth. Dental assisting students are also taught to perform laboratory duties such as taking and pouring impressions and making temporary crowns. Additionally, the Dental Assisting Program offers curriculum on executing office duties such as scheduling and confirming patients, filing patient treatment records, billing, and ordering dental supplies. The Dental Assisting Program at Oxnard College includes patient care practice in a fully-equipped, on-site facility. For more information, contact: Dental Assisting Program, (805) 678-5823.

DENTAL HYGIENE

Associate in Science Degree

The Dental Hygiene Program prepares students for the practice of dental hygiene. A Registered Dental Hygienist (RDH) is a licensed professional who is part of the dental care team, performing such services as oral examination, oral prophylaxis (scaling, root planing, soft tissue curettage and polishing the teeth), exposing and processing dental x-rays, administering local anesthesia and nitrous oxide sedation for pain control, applying preventive substances such as topical fluorides and dental sealants, along with instructing patients in oral disease control and nutrition. This Dental Hygiene, Associate of Science Degree Program offers academic and clinical skills curriculum within an on-campus clinic. The student is prepared for the National Board written examination and the State practical examination for licensure as a Registered Dental Hygienist. *For more information, contact: Dental Hygiene Program, (805) 678-5823. Upon completion of the prerequisites, students must apply for admission to the Dental Hygiene Program. All science prerequisites must have been completed no more than 5 years prior to application to the Dental Hygiene Program and must have been completed with a 3.0 GPA. Contact the program coordinator at 678-5823 for details on the selection process.*

CHILD DEVELOPMENT/EARLY CHILDHOOD EDUCATION SITE SUPERVISOR

Proficiency Award
(Awarded by the Department)

This proficiency award is designed for students who have completed the AS-T transfer degree in Early Childhood Education and who desire to apply for a Site Supervisor permit. The Site Supervisor permit authorizes the holder to supervise a child care and development program operating at a single site, provide service in the care, development, and instruction of children in a child care and development program, and serve as a coordinator of curriculum and staff development. **The earned AS-T in Early Childhood Education will serve as a prerequisite for this proficiency award.** For more information, contact: Patricia Mendez, pmendez@vcccd.edu (805) 678-5054.

EARLY CHILDHOOD EDUCATION

Associate in Science for Transfer

The Early Childhood Education program offers classes that combine lecture and lab activities. These courses prepare students who are interested in working with young children including those seeking certification to work in a day care facility. Students learn to plan nurturing educational environments and activities that enhance children’s emotional, cognitive and physical development. A four stage matrix guides career preparation in accordance with California State licensing standards. At Oxnard College, students may complete a certificate program that prepares them for employment as an Assistant Teacher in a public day care facility and complete additional courses in child development and general education to qualify as a Teacher. An Associate of Science degree with a major in Early Childhood Education is available that prepares them for other career options. Areas of specialization include Diversity, Infant/ Toddlers and Special Needs. Stipends for study may be available through grants and programs such as the First Five Initiative. *For more information, contact: Patricia Mendez, pmendez@vcccd.edu (805) 678-5054.*

ECONOMICS

Associate in Arts Degree

Economics is one of the most useful and relevant areas of study. Economics will teach you analytical reasoning, critical thinking and good communication skills at the micro and macro level, such as you will need to succeed in an increasingly globally competitive environment. The global application of economic decision-making and interests that is currently shaping the rise, fall and survival of nations is also making it imperative for those hoping to succeed in this emerging global environment to develop sound understanding of economic processes and interactions. CSUCI, CSUN, CSULB, CSULA, UCSB and UCLA, and almost every CSU and UC have Economics majors to which you will be able to transfer. With training in Economics you will have a wide range of career and educational options. You will acquire specific job-related skills and also have access to many other areas of further university education besides Economics. As an Economics major you will not only be prepared for a wide variety of career opportunities and well-paying jobs in finance, investment, banking, government, business, international agencies and non-profit corporations, you will also acquire the decision-making skills that you will need to become a successful entrepreneur and your own boss. At the same time, you will continue to have the option to join the general pool of labor such as you could with a General Liberal Studies major, or any other social science or humanities degree. A point to note is that according to the Bureau of Labor Statistics (BLS), Economics majors have some of the lowest unemployment rates, a fact that held true through the harsh job conditions of the Great Recession of 2007-2009. *For more information, contact: Ishita Edwards, iedwards@vcccd.edu (805) 678-5060.*

ELEMENTARY TEACHER EDUCATION

Associate in Arts for Transfer

This program is designed for students who wish to earn a multiple subject teaching credential authorizing them to teach in a self-contained classroom, typically in elementary schools in grades K-5. Students will study a broad range of subjects to prepare them for teaching including English, mathematics, science, social science, visual and performing arts, and human development. The AA-T provides a strong academic foundation in the field and preparation for upper division baccalaureate study. Upon successful completion of the program, students will be prepared to transfer to a California State University (CSU) and major in Liberal Studies. Then, after completion of the bachelor's degree, students will apply to a teacher credentialing program and complete their multiple subject teaching credential. In this AA-T, competencies will be assessed through projects, examinations, laboratory experiments, and presentations. The coursework in the AA-T will satisfy most of the lower-division requirements at many institutions within the California State University system. The Associate in Arts in Elementary Teacher Education for Transfer (Elementary Teacher Education AA-T) is intended for students who plan to complete a bachelor's degree in a "similar" major at a CSU campus. For a current list of what majors (and what options or areas of emphasis within that major) have been designated as "similar" to this degree at each CSU campus, please refer to adegreewithaguarantee.com and seek guidance from an Oxnard College counselor. Students completing this degree are guaranteed admission to the CSU system, but not to a particular campus or major. See page 65 for more information. **For more information, contact: Liberal Studies Division Office, (805) 678-5804.**

ENGLISH

Associate in Arts for Transfer

The English program offers a wide variety of courses in reading, writing, and literature, leading to the degree of Associate in Arts for Transfer. Students can take the full range of literature survey courses required to transfer as an English major at our local public universities: CSUCI, UCSB, CSUN, UCLA. Students who want to study great literature, but who aren't English majors, have the option of parallel non-majors sections of the English and American literature survey courses as well as other literature courses. There are regularly scheduled courses in creative writing. The English program offers multiple sections of transfer-level writing courses to give students the writing skills to succeed in college, to write in the workplace, and to meet university transfer requirements. Classes are offered in traditional classroom formats as well as partially online or fully online formats. A degree in English prepares students for a variety of career opportunities in which the ability to read insightfully, think critically, and write clearly are necessary skills. **UC Limitation on Transfer of English Courses:** *The UC limits credit for some English courses. See the UC Transfer Course Agreement pg. 77 or assist.org for current limitations. For more information, contact: Elissa Caruth, ecaruth@vcccd.edu (805) 678-5105.*

FILM, TELEVISION, AND ELECTRONIC MEDIA

Associate in Science Degree

The Film, Television, and Electronic Media program offers comprehensive hands-on training in video and television studio production. Students may earn a two-year Associate in Science for Transfer Degree, an Associate in Science Degree, or a Certificate of Achievement. Located in modern facilities, the courses have professional audio and camera equipment packages for student use, as well as a three-camera television studio, and a MAC computer lab. Private editing suites are also available for audio and video post-production editing. The courses include experiences in directing, sound, writing, digital production, digital editing, and digital audio post-production. In the first semester students often take a basic studio production course, an audio course, and a history of film course. In the following semesters, students can take studio production, motion picture production, and screenwriting. All students are required to produce various digital video short films throughout their study. *For more information, contact: Liberal Studies Division Office, (805) 678-5804. ****TV became FTVE 2013-2014.***

FIRE TECHNOLOGY

Associate in Science Degree Certificate of Achievement

The Oxnard College Fire Technology Program educates career, volunteer, and industrial fire protection and emergency services students throughout our communities to deal effectively with the social, economic, and technical aspects of fire and emergency response. The Program will enhance their professionalism and capabilities to protect California from the devastation of fire, environmental, natural, and man-made emergencies by providing state of the art education, training, resources, certification and leadership. Students will be prepared to enter the field of fire technology as a firefighter. Firefighters are required to carry out emergency duties such as fire suppression, rescue, medical services, hazardous materials mitigation, and other duties as assigned. Non-emergency duties include fire prevention, public education, training, station and equipment maintenance, and other related tasks. The Fire Technology Department will provide students with foundational course requirements for certificate programs, two-year degrees and transfers to four-year schools. The Department also maintains a Fire Academy Program, allowing students to earn eligibility for a California State Fire Marshal Firefighter I Certificate, a condition of employment for many fire agencies. *For more information, contact: Gail Warner, gwarner@vcccd.edu 805-678-5026.*

FIREFIGHTER I ACADEMY

Certificate of Achievement

This program includes the Oxnard College Regional Fire Academy (OCRFA) – FT R170, and its two prerequisite courses, EMT R169 – Emergency Medical Technician and FT R151 – Fire Protection Organizations. The OCRFA provides the skills and knowledge needed for the entry level firefighter, career or volunteer, to perform duties safely, effectively, and competently. The seven overarching themes of the California State Fire Fighter I curriculum are: general knowledge germane to the profession, fire department communications, fireground operations, rescue operations, preparedness and maintenance, wildland suppression activities, and hazardous materials/WMD. All exams require an 80% passing grade for all academic and manipulative tests per State Fire Marshal requirements. Students are expected to obtain all required uniforms and safety equipment. State certification costs are the responsibility of the student. Field trips are required. Admission to the OCRFA is open to all eligible students and very competitive. A point rating system is used during the cadet selection process. Explanations regarding this process can be accessed from the “Apply to the Academy” link found on the Oxnard College Fire Academy home page. Prerequisites to apply consist of a valid NREMT or California EMT Certification, successful completion of FT R151 – Introduction to Fire Protection Organizations, a Medical Clearance, and a Lung Function (Spirometry) Test. Academy applications are comprehensive and will only be accepted if complete. *For more information, contact: Gail Warner, gwarner@vcccd.edu 805-678-5026.*

GEOGRAPHY

Associate in Arts for Transfer

Geography is an integrative discipline that brings together the physical and human dimensions of the world in the study of people, places and environment. As a spatial study, its subject matter is Earth's surface and the processes that shape it, the relationships between people and environments, and the connections between people and places. That knowledge, in turn, provides a basis for humans to cooperate in the best interests of our planet. Geography provides students with skills for the workplace and skills for civic decision-making. Events around the world affect jobs and business at home. By learning geography, thoroughly, students come to understand the connections and relationships among themselves and people, places, and environments across the world. Geography is concerned with understanding the spatial dimension of human experience (space and place). *For more information, contact: Jim Danza, jdanza@vcccd.edu 805-678-5209.*

GLOBAL STUDIES

Associate in Arts for Transfer

The Global Village has arrived! Global Studies is an exciting and dynamic interdisciplinary program that allows students to identify and understand the global and transnational forces that affect the everyday lives of people across the world. The Global Studies program combines courses from the Arts and Sciences, Anthropology, Economics, Geography, History, Philosophy, Political Science and Sociology to examine contemporary issues in an increasingly globalized world. Through the development of critical thinking skills and the analysis of local and global processes, students are given the tools to both understand the global village and to shape it as they become the next generation of leaders in business, government, non-governmental and international organizations. Areas of inquiry include the tension between local and global cultures, conflict and security, philosophy, technology and new media, political and nongovernmental movements, economics, development and the environment. *For more information, contact: Gloria Guevara, gquevara@vcccd.edu 805-678-5095 or Arion Melidonis, amelidonis@vcccd.edu 805-678-5044.*

HISTORY

Associate in Arts for Transfer

History is one of the most popular, useful, and flexible subjects to study and major in. The popularity of History comes from the fact that human beings love stories about dynamic people and exciting events from the past. By studying the brilliance and blunders of past generations, students gain useful knowledge about how the world works and the critical thinking skills universities and employers value. History is also a very flexible major; the AA-T in History is a pathway to a state university for students interested in majoring in History and those unsure of what they want to major in (e.g. law, business, government, etc.). It is also a fun “second major” for students interested in becoming more well-rounded, knowledgeable, and wise. *For more information, contact: Kevin Hughes, khughes@vcccd.edu, 805-678-5079 or Joshua Lieser, jlieser@vcccd.edu, 805-678-5078.*

PHILOSOPHY

Associate in Arts Degree

The goal of the philosophy program is to introduce students to a broad range of philosophical issues and perspectives. Methods used to achieve this end include: critical reasoning and analysis; constructive dialogue; and written expression of ideas. Philosophical topics and questions studied concern better understanding ourselves and others; exploring different theories about the nature of being and reality; applying reasoning to matters of value, at both a personal and a societal level; and addressing the issue of meaning and purpose in life. The subject taught primarily contributes to an individual student's general liberal arts education. Transfer-level curriculum is emphasized, as are interdisciplinary studies with other subject areas, and notably the natural and social sciences. Students who take philosophy courses in the program can expect to become better thinkers and learners; more capable employees; wiser consumers; and better citizens in their own communities as well as the global community. *For more information, contact: Chris Horrock, chorrock@vcccd.edu (805) 678-5092.*

SPANISH

Associate in Arts for Transfer

Oxnard College offers a full two-year sequence of courses in Spanish which consists of four semesters of college-level language learning. Students can also take courses in literature and Spanish-language cinema. There are courses for beginners and courses for native and heritage Spanish speakers. Classes are offered in traditional classroom formats as well as in partially or fully online formats. Native speakers and heritage speakers of Spanish are strongly encouraged to take the voluntary Spanish assessment test and see a counselor for guidance on the level to begin their Spanish studies. Students planning to transfer to a CSU or UC campus to complete a Bachelor's degree in Spanish are advised to refer to the official articulation agreements on assist.org for the most current requirements of their intended transfer institution and should work with a counselor to create a transfer plan. *For more information, contact: Milena Hurtado, mhurtado@vcccd.edu, (805) 678-5221 or Cecilia Milán, cmilan@vcccd.edu, (805) 678-5101.*

PHYSICS

Associate in Science Degree

Physics is the science of matter and its motion – the science that deals with concepts such as force, energy, mass and charge. As an experimental science, the goal in understanding physics is to understand the natural world. In one form or another, physics is one of the oldest academic disciplines; through its modern subfield of astronomy, it may be the oldest of all. Advances in physics often translate to the technological sector, and sometimes influence the other sciences, as well as mathematics and philosophy. The physics program at Oxnard College offers the Associate in Science (A.S.) degree and the Associate in Science for Transfer (AS-T). The courses in this program may prepare students for technician-level jobs or university transfer to Bachelor of Arts or Bachelor of Science degree programs in physics. **UC Limitation on Transfer of Physics Courses:** The UC will give credit for only one Physics series: R101/L and R102/L or R121 and R122 or R131, R132, and R133. For more information, contact: Justin Miller, jwmiller@vcccd.edu (805) 678-5094.

SPANISH

Associate in Arts for Transfer

Oxnard College offers a full two-year sequence of courses in Spanish which consists of four semesters of college-level language learning. Students can also take courses in literature and Spanish-language cinema. There are courses for beginners and courses for native and heritage Spanish speakers. Classes are offered in traditional classroom formats as well as in partially or fully online formats. Native speakers and heritage speakers of Spanish are strongly encouraged to take the voluntary Spanish assessment test and see a counselor for guidance on the level to begin their Spanish studies. Students planning to transfer to a CSU or UC campus to complete a Bachelor's degree in Spanish are advised to refer to the official articulation agreements on assist.org for the most current requirements of their intended transfer institution and should work with a counselor to create a transfer plan. *For more information, contact: Milena Hurtado, mhurtado@vcccd.edu, (805) 678-5221 or Cecilia Milán, cmilan@vcccd.edu, (805) 678-5101.*
