

RESOLUTION RE E-MAIL RESTRICTION

WHEREAS faculty has always had the right to freely communicate with one another as well as with members of management and staff;

WHEREAS the unilateral imposition of restricting e-mail communications is antithetical to the basic principles of shared governance;

WHEREAS one of our Academic Senate's goals has been to increase levels of effective communication; and

WHEREAS because of the alleged abuse of the e-mail system by a few, the whole group should not be restricted;

THEREFORE, BE IT RESOLVED that the Oxnard College Academic Senate supports the restoration of e-mail rights to **ALL USERS** as existed prior to the restriction imposed in approximately mid-October, 2008.
