

ENERGY AUDITING

Proficiency Award
(AWARDED BY THE DEPARTMENT)

The Energy Auditing Program is an award to recognize proficiency in energy auditing concepts and practices. The program prepares students to become environmental control technology/HVACR technicians to maintain and repair heating, cooling, and refrigeration equipment in residential, commercial, and industrial buildings. Technicians can specialize in either installation or maintenance and repair. *For more information contact: Alan Ainsworth (805) 678-5042 aainsworth@vccd.edu*
