**General Information**

**Nature of the College**

Oxnard College is a locally controlled, tuition-free, public comprehensive two year college, part of the California state system of higher education. As such, and in keeping with the policies of both the Ventura County Community College District Board of Trustees and the State Legislature, the college exists to serve members of the community who are high school graduates or who are over the age of 18 and capable of profiting from instruction.

**Philosophy of the College**

Wise I may not call them; for that is a great name that belongs to God alone — lovers of wisdom or philosophers is their modest and befitting title.

— Socrates

Oxnard College is dedicated to the philosophy of providing quality education that will fill the many needs of the post-high school population of the Ventura County Community College District. We recognize that the process of education is unending and that the search for better education and better instruction is continuous.

Oxnard College has many functions: transfer;

---

**Informacion General**

**Naturaleza del Colegio**

El Colegio de Oxnard es una escuela pública de la comunidad. Es una escuela de dos años. Es autónoma y sin gastos de colegiatura. Forma parte del sistema estatal, californiano de educación superior. Como tal, y para mantener las políticas de la Mesa Directiva de los colegios de la comunidad del condado de Ventura, y de la legislatura estatal, el colegio existe para servir a los miembros de la comunidad quienes son graduados de la escuela secundaria o tienen más de 18 años y puedan aprovechar la instrucción y buscan una educación.

**Filosofía del Colegio**

Sabios no los puedo llamar; porque ese es un gran nombre que solo le pertenece a Dios — amantes de la sabiduría o filósofos es su título modesto y propio.

— Socrates

El Colegio de Oxnard sigue la filosofía de proveer una educación que satisfaga las necesidades de la población de las personas mayores de 18 años del Distrito de los Colegios de la Comunidad del Condado de Ventura. Reconocemos que el proceso de educación no tiene fin y que la búsqueda para mejorar la educación y la instrucción es continua.

El Colegio de Oxnard tiene muchas funciones: la función
occupational, general, developmental education; counseling and guidance; community services; and cocurricular activities, among others.

Cultural and aesthetic activities are also relevant in today's society and are to be fostered. The college strives to provide open-access to educational opportunities so that every adult, regardless of age, sex, race, handicap, or ethnic, socioeconomic, cultural, or educational background shall have the opportunity for appropriate education to fulfill his or her potential.

Oxnard College intends to look to the past to understand the present in order to produce a more successful future. It strives to be innovative and responsive to the educational needs and demands of society. Oxnard College is responsive not only to community needs but also to the needs of our larger society.

Specific Objectives
Consistent with the philosophy of providing educational opportunities, access to information, and the development of competencies, Oxnard College offers the following educational programs designed to meet the needs of those who choose to enroll.

de transferir; de preparar para las ocupaciones; de desarrollar; de guiar y de aconsejar; de servir a la comunidad; de actividades fuera de las casas.

Actividades culturales y estéticas son pertinentes en la sociedad de hoy y deben ser promovidas. El colegio se empeña en proveer oportunidades educacionales para que cada adulto, sin importar la edad, el sexo, la raza, cualquier impedimento ni el fondo étnico, socioeconómico, cultural, o educacional tenga la oportunidad de una educación apropiada para lograr su potencial.

El Colegio de Oxnard intenta mirar hacia el pasado para entender el presente y también para producir un futuro prospero. Se empeñará en ser innovador y en ser responsable de las demandas de la sociedad. El Colegio de Oxnard responde no solamente a las necesidades de la comunidad sino también a las necesidades de la sociedad en general.

Objetivos Específicos
Conforme con la filosofía de proveer oportunidades educacionales, acceso a información, y el desarrollo de competencias, el Colegio de Oxnard ofrece los siguientes — programas educacionales diseñados con el fin de satisfacer las necesidades de los que desean matricularse.
General Education
Recognizing that people are more than mere units of production, and that students must learn to live as well as earn a living, Oxnard College emphasizes the values of general education. To this end, then, it is essential that students develop a command of the written and spoken language; understand mathematics; have knowledge of the structure and function of the human body; develop an understanding of the history and political institutions of the United States; learn to appreciate beauty, form, and color; perceive their own roles and understand the society in which they live; and become familiar with the elements of the scientific method.

Preparation for Transfer
Oxnard College provides programs and courses that satisfy the lower division requirements at four-year colleges and universities in general education and in a wide variety of pre-professional fields. Special care is exercised to see that these courses and programs are parallel with those offered at senior colleges and universities and that they do, in fact, transfer with full credit. Articulation with senior colleges and universities is a joint responsibility of faculty and administration.

Educacion General
Reconociendo que las personas son algo más que mera unidades de producción, y que los estudiantes deben aprender a vivir, tanto como a ganarse la vida, el Colegio de Oxnard destaca los valores de educación general. Para alcanzar este fin, entonces, es esencial que los estudiantes desarrollen un dominio del lenguaje hablado y escrito; entiendan las matemáticas; tengan conocimiento de la estructura y de la función del cuerpo humano; desarrollen un entendimiento de la historia y de las instituciones políticas de los Estados Unidos; aprendan a apreciar la belleza, la forma y el color; perciban sus papeles propios y entiendan a la sociedad en que viven; y lleguen a familiarizarse con los elementos del método científico.

Preparacion para Transferir
El Colegio de Oxnard provee programas y cursos que satisfacen los requisitos básicos de los colegios de cuatro años y en las universidades de educación general y también de una gran variedad de campos “pre-profesionales.” Cuidado especial se ejercita para asegurar que estos cursos y estos programas sean paralelos con los ofrecidos en los colegios de cuatro años y en las universidades y además que estos cursos se transfieran con crédito completo.
Occupational Education
Preparation for employment is an important and legitimate function of higher education. Oxnard College recognizes the changing nature of industrial society and, therefore, is committed to specific preparation, as well as broad-gauge occupational training that prepares for tomorrow as well as today. Occupational programs are designed to provide entry-level skills, technical skills, technical knowledge that will permit employment mobility as changes occur, and general education that is the footing upon which specialized training is erected.

Developmental Programs
Oxnard College seeks to meet the needs of those who choose to enroll, but who are not fully prepared for the demands of college level instructional programs. Since the learning process takes place via the use of words and numbers, all students must develop command of the written and spoken language, as well as a degree of mastery of mathematical processes. Those who lack these skills will not find equal opportunity in the college classroom. Those students are, therefore, offered a well-programmed chance to improve, including developmental reading, vocabulary building, oral communication, basic mathematics, and logic.

Educacion Ocupacional
La preparación para un empleo es una función importante y legítima de la educación superior. El Colegio de Oxnard reconoce la naturaleza cambiante de la sociedad industrial y por eso, se compromete a la preparación específica, tanto como al entrenamiento ocupacional que prepara para el mañana tanto como para el presente. Los programas ocupacionales son diseñados para proveer las habilidades del nivel de entrada, las habilidades técnicas, y el conocimiento técnico que permitirá la mobiliidad de empleo mientras que ocurran los cambios, y la educación general que forma la base sobre la cual se puede erigir el entrenamiento especializado.

Programas del Desarrollo
El Colegio de Oxnard se esfuerza por enfrentarse con las necesidades de los que desean inscribirse, pero no están completamente preparados para las demandas de programas educacionales al nivel de colegio. Puesto que el proceso de aprendizaje toma lugar por medio del uso de palabras y números, todos los estudiantes deben aprender el lenguaje escrito y hablado, así como algo sobre los procesos matemáticos. Los que carecen de estas habilidades no encontrarán una oportunidad igual en los salones de colegio. Por consiguiente, a esos estudiantes se les ofrece la oportunidad de mejorarse, incluyendo la lectura, el mejoramiento del vocabulario, comunicación oral, matemáticas básicas, y lógica.
Counseling and Guidance
A program of counseling and guidance is provided so that all students may recognize their capabilities and limits, develop their educational goals, select wisely from offerings of the college, and lay a foundation for career interests.

Physical Development
Physical health and development is a vital part of education, for alertness of mind and soundness of body are fundamental requirements of the whole person. Programs in health and hygiene, as well as home and family management, are offered in addition to a variety of courses in physical education. Students have the opportunity to participate in a number of intercollegiate sports activities.

Community Services
Service to the community is a significant function with all public two-year community colleges. An important part of the service is to provide programs and make facilities available for use by responsible organizations in the community.

History of the College
Oxnard College will celebrate its fifth full year of operation in 1979-80. In fall, 1979, the first two permanent buildings will be occupied on the campus. A Liberal Arts building will house 20 classrooms plus science and business laboratories and faculty office wings, and a Library/Learning Resources Center.

Direccion
Un programa de dirección se provee con el fin de que todos los estudiantes puedan reconocer sus capacidades y limites, desarrollen sus metas educacionales, escojan inteligentemente los cursos que ofrece el colegio, tengan un fuerte cimiento para las diferentes carreras.

Desarrollo Fisico
La salud fisica y el desarrollo fisico forman una parte vital de la educacion, porque la viveza mental y la vitalidad del cuerpo son requisitos fundamentales de la persona. Se ofrecen programas de salud y de higiene, del manejo de la casa y de la familia y tambien una variedad de cursos de educacion fisica. Los estudiantes tienen la oportunidad de participar en un numero de actividades deportivas interescales.

Servicios para la Comunidad
El servicio a la comunidad es una funcion significativa de todos los colegios publicos de dos anos. Una parte importante del servicio es proveer programas y hacer disponibles las facilidades para el uso de las organizaciones responsables de la comunidad.

Historia del Colegio
El Colegio de Oxnard celebrará su quinto año de operaciones en 1979-80. En el otoño de 1979 los primeros dos edificios permanentes serán ocupados. El edificio de Artes Liberales tendrá 20 salones, más laboratorios para ciencias y negocios y oficinas para la facultad. La Biblioteca, El
Center will hold the college Library, Learning Center, general classrooms, and administrative and student services offices.

These buildings will form the central core of the campus, which also includes two relocatable classroom buildings, a vocational shop building, and a student services center. Anticipated in the future are a physical education shower and locker building and outdoor PE facilities including tennis courts, a baseball diamond, and a track, to be followed by Natural Science and Vocational Education buildings.

Historically, the need for a community college serving the Oxnard Plain has been recognized by the Oxnard, Camarillo, and Port Hueneme communities and the governing board and administration of the Ventura County Community College District, since the district was formed in 1962.

Founded on the understanding established in those early years, the 118-acre college site was purchased in 1968. In 1969, the first classes offered under an Oxnard Center concept were offered at Ramona School in Oxnard. In the same year, the architectural firms of Fisher and Wilde of Ventura, and Austin, Field, Fry, and Barlow of Los Angeles were chosen to design the Oxnard College campus.

Centro de Recursos de aprendizaje, salones generales, y oficinas administrativas y oficinas de servicios para estudiantes se encontrará en la Biblioteca/El Centro de Recursos de Aprendizaje.

Estos edificios formarán el núcleo que además incluye dos edificios movibles de salones, un edificio de talleres vocacionales y un centro servicial para estudiantes. En el futuro se anticipan baños y casilleros para el edificio de educación física, facilidades de educación física al aire libre que incluirán canchas de tenis, un campo de beisbol y una pista para carreras. A estas facilidades seguirán los edificios de ciencias naturales y de educación vocacional.

Historicamente, la necesidad de un colegio de la comunidad que sirva a Oxnard ha sido reconocida por las comunidades de Oxnard, Camarillo, y Port Hueneme y también por la Mesa Directiva y la Administración de distrito de los colegios de la comunidad del condado de Ventura, desde que el distrito fue formado en 1962.

Fundado con el entendimiento establecido en esos primeros años, 118 acres fueron comprados en 1968. En 1969, las primeras clases ofrecidas bajo el concepto de varios centros se enseñaron en la escuela de Ramona en Oxnard. En el mismo año, las compañías de los Arquitectos Austin, Field, Fry, y Barlow de Los Angeles fueron escogidas para diseñar el Colegio de Oxnard.
The Oxnard Center program expanded in the fall of 1973 with the opening of the Oxnard Educational Center at 9th and B streets in Oxnard, under the direction of Ventura College; in February, 1974, a Camarillo Center opened under the auspices of Moorpark College.

The 2000 AD Educational Master Plan and strong support from the Oxnard-Port Hueneme area focused attention on the need for a third college in the spring of 1974, and trustees officially voted to build Oxnard College on March 26, 1974.

The college officially opened its doors in June, 1975, for its first summer session, utilizing the Oxnard and Camarillo centers begun by the other two colleges in the district, and adding classes at a variety of sites throughout the Oxnard Plain. By mid-fall, 1975, Oxnard College had more than 4,400 students enrolled and during the spring semester that number was even higher — in all likelihood a record enrollment for first-year community colleges in this state.

With a student enrollment now over 5,000, Oxnard College is committed to developing a comprehensive educational program as well as a comprehensive campus environment for the students of its service area.

El programa del centro de Oxnard se extendió en el otoño de 1973 con la apertura del centro educativo de Oxnard situado en las calles 9 y B en Oxnard, bajo la dirección del Colegio de Ventura; en febrero de 1974 un centro en Camarillo se abrió bajo los auspicios del Colegio de Moorpark.

El Plan Total Educativo del año 2000 d.c. y el apoyo fuerte de la área Oxnard — Port Hueneme fijó la atención en la necesidad de un tercer colegio en la primavera de 1974 y los directores votaron oficialmente en favor de construir el Colegio de Oxnard el 26 de Marzo, 1974.

El Colegio oficialmente abrió las puertas en junio de 1975 para la primera sesión de verano. El colegio utilizó los centros de Oxnard y de Camarillo, los cuales fueron iniciados por los otros dos colegios del distrito. Otras clases fueron añadidas después en una variedad de sitios en la llanura de Oxnard. A mediados del otoño de 1975, el Colegio de Oxnard tenía más de 4,400 estudiantes inscritos y durante el semestre de primavera el número era más alto. Posiblemente era una inscripción sin precedentes en los colegios de la comunidad en su primer año.

Con más de 5,000 estudiantes inscritos, el Colegio de Oxnard se dedica a desarrollar un programa educativo total tanto como un ambiente total del colegio para los estudiantes de la area.
Accreditation

Oxnard College is a public community college serving Ventura County. As such, it is subject to the legal provisions of the State of California. Oxnard College is fully accredited by the Western Association of Schools and Colleges.

Asociaciones

El Colegio de Oxnard es un colegio público de la comunidad que sirve al condado de Ventura. Como tal, el colegio se sujeta a las provisiones legales del estado de California. El Colegio de Oxnard está completamente acreditado por la Asociación Occidental de Escuelas y Colegios.

Memberships

Oxnard College is a member of the American Association of Community and Junior Colleges, the California Comunity and Junior College Association, the California Community Colleges, and the Western State Conference.

Asociaciones

El Colegio de Oxnard es un miembro de la Asociación Americana de los Colegios de la Comunidad y Colegios que comprenden los dos primeros años universitarios, la Asociación Californiana de Colegios de la Comunidad y Colegios que comprenden los dos primeros años universitarios, la Asociación Californiana de Colegios de la Comunidad y Colegios que comprenden los dos primeros años universitarios, los Colegios Californianos de la Comunidad, y la Conferencia del Estado Occidental.

Community Services

Community Services are efforts provided by community colleges to identify and meet needs and interests in the community not met by the college credit program. At Oxnard College, the Community Services Office offers a variety of non-credit fee classes; an enrichment program for children of

Servicios Para la Comunidad

Los servicios para la comunidad son esfuerzos que los colegios de la comunidad proveen para identificar y enfrentarse con las necesidades e intereses de la comunidad que no provee el programa de colegio que da créditos. La Oficina de Servicios para la Comunidad ofrece una variedad de clases
elementary and junior high school age; and a variety of cultural, recreational, or educational activities which can be presented at no cost to the taxpayer. The Community Services Office also schedules use of facilities by off-campus organizations under the Civic Center Act and is responsible for maintenance of the master calendar.

Affirmative Action/Title IX Requirements

The Ventura County Community College District and its three colleges — Moorpark College, Oxnard College, and Ventura College — are committed to providing an equal opportunity for admissions, student financing, student support facilities and activities, and employment regardless of race, color, religion, sex, national origin, handicap, or age, in accordance with the requirements of Title IX of the Education Amendments of 1972, Title VII of the Civil Rights Act of 1964 (as amended by the Equal Employment Opportunity Act of 1972), Sections 503 and 504 of the Rehabilitation Act of 1973 and the Rehabilitation Act Amendments of 1974, Executive Order 11246 (as amended by Executive Order 11375), and the

con costo para el estudiante y sin crédito; un programa de enriquecimiento para niños de la primaria e intermedia; y una variedad de actividades culturales, educativas y de recreación, las cuales se pueden presentar gratis al contribuyente. Además, la Oficina de Servicios para la Comunidad provee el uso de las facilidades por organizaciones bajo el Decreto del Centro Cívico. La Oficina es también responsable de mantener el calendario total.

Accion Afirmativa/Requisitos del Titulo IX

El Distrito de los Colegios de la Comunidad del Condado de Ventura y sus tres Colegios — el Colegio de Moorpark, el Colegio de Oxnard, y el Colegio de Ventura — se empeña en proveer una oportunidad igual para inscripciones, financiamiento estudiantil, facilidades para apoyo estudiantil, actividades y empleo, sin consideración a raza, religión, sexo, origen nacional, impedimentos o edad, de acuerdo con los requisitos del Título IX de las Enmiendas Educativas de 1972, Título VII del Decreto de Derechos Civiles de 1964 (así enmendado por el Decreto de la Oportunidad de Empleo de 1972), Secciones 503 y 504 del Decreto de Rehabilitación de 1973 y las Enmiendas del Decreto de Rehabilitación de 1974, Orden Ejecutivo 11246 (así enmendado por Orden

Academic Information

Admission Procedure

Oxnard College admits any high school graduate or person 18 years of age or older who is capable of profiting from the instruction offered. Special students disqualified from other institutions must petition through the Dean of Admissions and Records. The admissions procedure is as follows:

Application for Admission
An application for admission may be obtained by contacting:
Oxnard College Saviers Center
3471 South Saviers Road
Post Office Box 1600
Oxnard, CA 93032
(805) 487-7785 or 659-0370
The application should be completed promptly and returned.

Social Security
Social Security numbers are used for student identification, so all students should be prepared to present their Social Security cards at the time of enrollment. If a student does not possess a Social Security number, a student number will be assigned.

Transcripts
Students should furnish complete transcripts of past academic work to the Office of Admissions and Records, P.O. Box 1600, Oxnard, CA 93032.

Placement
Placement of students in classes is based on high school experience and alternative sources showing educational and employment backgrounds. Some subject areas such as English and Math, for example, may require placement tests of a student.

Counseling
Counselors will be available to advise students on which classes they might take in line with their interests and objectives. Appointments for extensive academic counseling should be made before registration for classes begins. First-time students who wish to enroll in more than six units must see a counselor before registering. If a student wishes to take in excess of 18 units, he or she must solicit the permission of the Dean of Student Services.

Registration
Class schedules will be published prior to the summer intersessions and fall and spring semesters. Please follow the instructions outlined in these schedules. The dates of registration are shown in the College Calendar in the front of this catalog.

Late Registration
Late registration will take place for approximately two weeks after the beginning of instruction for the fall and spring semesters.

Advanced Placement for High School Students

In accordance with the California Education Code, high school students who are in their junior or senior year are permitted to enroll in college
courses for the fall and spring semesters. Summer inter-
session is limited to students who have completed their
junior (11th grade) year in high
school. An approved advanced
placement form, signed by the
high school principal or
designee, is required before a
student is permitted to register.

Attendance

All students admitted to Oxnard
College are expected to attend
classes regularly, both because
continuity of attendance is
necessary to both individual
and group progress in any
class, and because financial
support of the college is
dependent upon student
attendance.

Absence for any reason does
not relieve the student from the
responsibility of completing all
class requirements. For a
returning absentee, the college
does not designate absence as
"excused" or "not excused." It
takes the position that, since
regular attendance is the
student's responsibility, the
instructor may evaluate the
absence in terms of the class
requirements and take
whatever reasonable action is
deemed necessary.

Auditing Classes

The policy of Oxnard College,
and the Ventura County
Community College District, is
that auditors are not permitted
in credit classes. All those
regularly attending Oxnard
College classes must be
registered students.

Residency Requirements

The California state law
effective May 1, 1973, regarding
student residency requirements
indicates the following:

Each person enrolled in or
applying for admission to a
California community college
is, for purposes of admission
and/or tuition, classified as a
district resident, a non-district
resident, or a non-resident.

If a student is classified as a
district resident or a non-district
resident, the student shall be
admitted to the college without
non-resident tuition. Students
classified as non-residents will
be required to pay a tuition fee
fixed each year by the
California State Legislature.
The fee has been established
for the 1979-80 school year at
$50 per unit, for a maximum fee
per semester of $750 for 15 or
more units. This fee must be
paid prior to enrollment in the
college.

A district resident is a person
who, after attaining the 18th
birthday, has resided within
California for at least one year
prior to the first day of
instruction, and is a Ventura
County resident at the time of
enrollment.

A non-district resident is a
student who has lived in
California for more than one
year, but whose residence is in
a territory that is not in a
community college district.

A non-resident student is one
who does not have residence in
the state for more than one year
prior to the residence
determination date.
For the purposes of determining residence status, a residence determination date is established for each term or semester by the district board of trustees. For 1979-80, the residence determination dates are as follows:

Summer intersession - June 24
Fall semester - September 9
Spring semester - February 3

Because of the complexity in the interpretation of these laws, students having difficulty in determining their residency status should contact the Dean of Admissions and Records.

**Foreign Students**

Foreign students are admitted under a quota system, must have permission from the Dean of Admissions to register, and must follow this procedure:

1. Submit a completed application for admission.
2. Provide evidence of proficiency in the use of the English language. Students are required to complete the Test of English as a Foreign Language (TOEFL) and achieve a score of at least 505. For information write:
   Educational Testing Service
   Box 899
   Princeton, NJ 08540
3. State a specific objective.
4. Submit a letter of recommendation and transcripts from preparatory schools and colleges previously attended.
5. Submit a confidential statement of finance.
6. Submit a health statement from a California licensed physician which must include TB chest X-ray results.
7. Interview and clear with the Director of the college Health Services Office.
8. Show proof of medical insurance.
9. Sign a student statement of understanding and responsibility.
10. Immigration Department Form I-20A will be issued only after all other prerequisites for admission have been met.
11. Payment of tuition fee prior to enrollment (for the 1979-80 school year, tuition has been established at $50 per unit with a maximum fee of $750 per semester for 15 or more units). Oxnard College attempts to select for admission only those foreign students who are above average in scholastic achievement and personal qualifications.

**Expenses**

Expenses will vary from year to year and fee schedules are subject to change. Student expenses for the 1979-80 school year are listed for your information.

**Tuition**

Tuition is required for non-resident students (out-of-state
and out-of-country) and out-of-
district students. Tuition for non-
resident students for 1979-80
has been established at $50 per
unit with a maximum of $750 for
15 or more units per semester.

Non-Resident Tuition Fee
Refund Procedure
Eligibility and amount of tuition
fee refund are determined by
the date the student officially
applies for a refund through the
Records Office. Refunds shall
require the approval of the
Dean of Admissions and
Records.

Refunds are determined by the
number of units for which there
have been original financial
charges. NO refunds shall be
authorized beyond the third
week for the summer session nor
beyond the fourth week of the
regular semester.

The Dean of Admissions and
Records shall compute the
amount of the refund and notify
the Campus Business Office in
writing as to the amount of the
refund. The student shall be
refunded by check through the
Campus Business Office within
a reasonable time following
official notification.
(See Non-Resident Tuition Fee
Schedule in Appendix.)

Health Fee
A mandatory $5 health fee per
semester is charged at all
district colleges. Students
registering for courses lasting
three to nine weeks, and
students registering for summer
intersession, will pay a fee of
$2.50; no fee is charged, and no
services provided, for students
registering for courses lasting
up to two weeks.

Textbooks and Supplies
By state law, the college is
prohibited from furnishing free
textbooks or supplies to
students. These items may be
purchased at minimum cost.
This expense varies from $50 to
$75 per semester per student.

There may be extra fees for
instructional materials and
services. See registration
publication for details.

Transcripts
Students are permitted two
Oxnard College transcripts
without charge. Additional
requests for transcripts are $1
each.

Grading System
The quality of a student's work
will be measured by a grading
system as follows:

A — Excellent
4 grade points per unit
B — Good
3 grade points per unit
C — Average
2 grade points per unit
D — Minimum passing
1 grade point per unit
F — Failing
0 grade points per unit
I — Incomplete
0 grade points (no unit credit
granted)
W — Withdraw
0 grade points (no unit credit
granted)
*CR — Credit
0 grade points (unit credit
granted)
*NC — No Credit
0 grade points (no unit credit
granted)

*Courses taken on a credit-no
credit basis are disregarded in
calculating grade point
average. However, units
earned on a credit basis may
be counted toward satisfaction of curriculum requirements.
CR is used to denote "passed with credit" when no letter grade is given. CR is assigned for work of such quality as to warrant a letter grade of C or better.
NC is used to denote "no credit" when no letter grade is given.

**Incomplete Grades**
A grade of I (Incomplete) is given to those students who fail to complete the required work of the course because of extenuating circumstances, e.g., missing the final examination because of illness, or to those who have petitions granted to take late examinations.
At the time the instructor assigns the I grade he or she will also assign an alternate letter grade to be awarded the student in the event that the incomplete work is not completed. If the student makes up the work within one semester, the instructor will assign a new letter grade. After one semester, if the incomplete work is not made up, the alternate grade initially assigned for the course will take effect. Incomplete grades are not to be counted in computing grade point averages.

**Credit-No Credit Courses**
All students have the right to enroll in any course on a credit-no credit basis. The student shall notify the instructor of his/her intent to be graded credit-no credit during the semester, prior to the final examination.
Students should be aware that other colleges and universities may restrict the acceptance of courses taken on a credit-no credit basis, especially for satisfaction of major requirements.

**Dropping a Course**
Students may drop a course at any time during the semester. No grade check will be made during the first six weeks. Beginning with the seventh week, students may be dropped with a W or with an F, at the discretion of the instructor. Students dropping a course should notify instructors and/or record the drop promptly in the Records Office.

**Withdrawal from College**
It is the student's responsibility to formally clear the record if he or she withdraws from college before the end of the semester. Grades at the time of withdrawal will be recorded according to the rules governing dropping of courses.

**Course Repetition**
Courses taken at any college in which a grade of D, F, or other substandard grade has been earned may be repeated for the purpose of improving a recorded grade. Prior approval by the college president or authorized representative(s) shall be required. Students shall petition for such approval through the Dean of Admissions and Records.

Up upon completion of the repeated course, the lowest grade earned shall be omitted from the computation of the cumulative grade point average and lined through on the permanent record. The permanent record shall be annotated in such a manner that all work remains legible, insuring a true and complete academic history.
The Dean of Admissions and Records shall maintain a careful record of action taken under Course Repetition. Students should understand that other colleges or universities may not accept credit for work which represents a repetition of high school work. In addition, there is no assurance that repeated courses resulting in an improvement in grade will be accepted by other colleges or universities.

**Academic Renewal Without Course Repetition**

Students who are having difficulty meeting academic requirements due to a grade point deficiency may petition to have a portion of previous college work disregarded from all considerations associated with meeting academic requirements in the colleges of the Ventura County Community College District. Academic Renewal is intended to facilitate the completion of requirements necessary for an academic degree or certificate in a well-defined program.

A student may petition, once only, to eliminate grade point calculations and credits or a portion of previous college work which is not reflective of the student's present demonstrated ability and level of performance. The student may petition for one of the following forms of Academic Renewal: (1) that 30 or fewer semester units of previous college work taken consecutively be disregarded; or (2) that 15 or fewer semester units of previous substandard (less than C or equivalent) college work during any two semesters, not necessarily consecutive, be disregarded.

The colleges of the Ventura County Community College District will honor similar actions by other accredited colleges and universities in determining grade point averages and credits. In the absence of such policies, Ventura County Community College District's provision will prevail.

To qualify for Academic Renewal, the following conditions shall be met:

1. Prior approval by the college president or authorized representative(s) shall be required. Students shall petition for such approval through the Dean of Admissions and Records. The student shall be required to supply the necessary transcripts and indicate the course work to be disregarded was (1) substandard and (2) not reflective of the student's present demonstrated ability and level of performance.

2. At least two years must have elapsed since the most recent course work to be disregarded was completed. Courses and units taken at any institution may be disregarded.

3. Since completion of the most recent course work to be disregarded, the student must have subsequently completed at any accredited college or university, course work which amounts to at least 30 semester units with a minimum GPA of 2.40.
Upon granting the petition of Academic Renewal, the student's permanent record shall be lined through and annotated in such a manner that all work remains legible, insuring a true and complete academic history. The Dean of Admissions and Records shall maintain a careful record of action taken under Academic Renewal Without Course Repetition. The student should be aware that other colleges or universities may have different policies concerning Academic Renewal and there is no assurance that the disregarding of units may be accepted by these colleges or universities.  

Credit by Examination
Granting unit credit for a course by examination is based on the principle that previous experience, training, or instruction is the equivalent of a specific course taught in the college. If an examination indicates that the student possesses adequate equivalency and mastery of the subject, credit may be granted. The student's record shall show course identification and the number of units granted by examination; no letter grades shall be awarded. Each division of the college determines for which of its courses credit by examination may be granted. Exception to the above may be made when necessary to meet provisions of California state law or the rules and regulations of state agencies governing programs of the California Community Colleges.  

For the purpose of this policy, a course shall mean an organized area of instruction of one semester's duration as described in the college catalog with units designated, and which is regularly offered in the schedule of classes. Regularly offered shall mean a frequency of not less than once in two years. Credit by examination may be granted only to a student who is registered at the college and is in good standing. The amount of unit credit granted by examination to an individual shall not count toward requirements of residency.  

Credit for Armed Services Training and Experiences
Currently credit is not evaluated and thus granted for courses in educational experiences from the armed forces. Therefore, no credit for USAFI or basic military training can be directly granted. However, there are procedures where credit may be gained through cooperating institutions that can be acceptable by the college.  

Final Examinations
Formal examinations are given at the end of each semester. Students are required to take examinations for the classes in which they are enrolled. No examinations are administered prior to the regular schedule for examinations. All student requests for examinations to be administered at a later date must be filed on the proper petition form in the Records Office.
Admission, Probation, Dismissal, and Readmission Policies

Admission, probation, dismissal, and readmission principles and policies are designed to assist students in making progress toward realistic educational, vocational, and personal goals. Students who choose to enroll should be encouraged to take advantage of the opportunity to realize their full potential.

Limitations regarding programs, courses, and unit loads are consistent with the philosophy of providing an opportunity to succeed.

The entire statement of the policy adopted by the district board of trustees on Admission, Probation, Dismissal, and Readmission appears in Appendix VI of the catalog.

Dean's List

Special recognition is accorded students who complete a program of 12 or more units with a 3.5 grade point average or higher during a semester. These students are placed on the Dean's List and given appropriate recognition on campus and in the community.

Courses Open to Enrollment

Each course offered by the Ventura County Community College District and its colleges is fully open to enrollment and participation by any person who has been admitted to the college and who meets the prerequisites to the class or program, unless specifically exempted by statute.

Use of Listening or Recording Devices

State law in California prohibits the use by anyone in a classroom of any electronic

listening or recording device without the prior consent of the teacher and college management. Any student who has need to use electronic aids must secure the consent of the instructor. If the instructor agrees to the request, the instructor will file a notice of consent with the Dean of Instruction.

Availability of District Library Resources

The libraries at Oxnard, Moorpark, and Ventura Colleges are available to a student enrolled at any of the three colleges. The appropriate college identification card may be used at the college libraries. In addition, the Total Interlibrary Exchange (TIE) and the Black-Gold Exchange Systems permit a student to request materials from the other two libraries as well as from all members of the systems. This greatly increases the access students have to library resources. Please check with college libraries for further details.
Transfer Information

Students may complete their program of first and second year courses at Oxnard College prior to transferring to a senior institution. Admission practices to four-year institutions are continually in the process of change, so students should exercise care in checking entrance requirements at the college to which they intend to transfer. Oxnard College students who maintain the scholarship indicated below may expect to make a satisfactory transfer to the institution of their choice.

There are two types of requirements for the baccalaureate degree. First is the Pattern of General Education. This consists of approximately 40-50 units of elective and required courses. This pattern is fairly uniform for the State University and College systems, but is intricately varied for branches of the University of California. Community college students are expected to complete most of the general educational requirements, although some may be postponed to the upper division years.

Second are the lower division requirements for majors. These vary with each institution and involve specific courses. By completing, for a given college, the general education and the major courses for a total of 60 to 70 units with an appropriate grade point average, the student is prepared to transfer as a junior.

A student who was eligible to enter the State University and College system as a freshman must maintain a C average in all work taken at the community college. A student who was ineligible to enter a state college as a freshman may transfer from a community college on completion of 56 transfer units with a C average. A maximum of 70 units may be transferred from a community college.

A student who was eligible to enter the University of California as a freshman must maintain a C average. A student who was ineligible must maintain an average of 2.4 (C+) in 56 transfer units. A maximum of 70 community college transfer units may be accepted by the university.

General Education Certification Requirements

California law permits a community college to certify to California state colleges/universities that the basic 40 units of general education required for a baccalaureate degree have been completed. By policy, Oxnard College does not certify the equivalency of courses completed in other colleges or universities, except for those courses completed in community colleges within the Ventura County Community College District.

A minimum of 40 units from the following course list, with completion of all group minimums, as indicated, is required for certification of general education for transfer to the California State University and College system. Additional elective courses in
certain areas may be selected to achieve the total of 40 units or more. Students planning to transfer are advised to consult the catalog of the four-year college for specifics related to that school's major and general education requirements. Of the 40 units in five areas on the following page, 32 units must be completed in the first four areas (natural sciences, social sciences, humanities, and learning skills). A course used to satisfy a requirement in one area may not be used to satisfy a requirement in another area. In general, courses used to satisfy requirements for the major may not be used to satisfy general education breadth requirements.
General Education Certification Pattern for Transfer to the California State University System

Note: (1) Applicable only to the CSU system and not to the University of California; (2) Classes required by the major are not applicable to this pattern; (3) Students wanting an A.A. or A.S. degree in addition to transfer should note requirements in electives area; (4) List is subject to additions and/or alterations; the Counseling Department has up-to-date information on such changes.

**Humanities** (Minimum of 9 units required)

**Fine Arts** (3 units required)
1. Any Art, Music, and Theatre Arts courses numbered 100 or above

**Humanities General** (6 units other than Fine Arts required)
1. Anthropology 112, 189B
2. History 105, 106, 108
3. All English, Foreign Language, Interdisciplinary Studies, Philosophy, Speech courses numbered 100 or above
4. Journalism 100

**Social Sciences** (Minimum of 12 units required)

**United States Institutions** (3 units required)
1. History 102*, 103*, 107*, 108*, 117*
2. Political Science 101*, 103*, 107, 108

*Most campuses require at least ONE HISTORY and ONE POLITICAL SCIENCE course to satisfy the American History and Institutions requirement for graduation (often in addition to GE requirements). These courses may satisfy these requirements. Consult the transfer catalog or YOUR COUNSELOR for further information.

**Social Science General** (9 units required)
1. Any Economics, History, Interdisciplinary Studies, Political Science, Psychology, Sociology, or Urban Studies courses numbered 100 or above
2. Any Anthropology course, except Anthropology 101 and 111
3. Geography 102, 104
5. Home Economics 101, 102, 103, 107

**Natural Sciences** (Minimum of 9 units required; choose from at least two disciplines)
1. Agriculture 103, 104
2. Anthropology 101, 111
3. Any Astronomy, Biology, Chemistry, Geology, or Physics course numbered 100 or above
4. Chemistry 10, 20
5. Geography 101, 103
6. Physical Science 2, 101
7. Physics 1AB

**Basic Skills** (Minimum 6 units required)
1. English Composition (3 units required, English 101, 102
2. Business 101A, 140
3. Mathematics 14, and courses numbered 100 or above
4. Any Personal Growth courses numbered 100 or above
5. Any Speech course numbered 100 or above
6. Psychology 102AB, 103
7. Journalism 101, 102, 103, 104

**Breadth Electives** (To complete total to a minimum of 40 units, electives may be taken from above four areas and/or from classes listed below:)
1. Any Health Science course numbered 100 or above
2. Any PE activity course
3. Business 111A
4. Any Recreation course numbered 100 or above
5. Home Economics 22, 23, 24

*Two classes chosen from Health Science and/or PE are required for A.A., but not for certification.*
General Education Requirements
University of California at Santa Barbara
College of Letters and Science

English Reading and Composition (2 courses)
1. English 101, 102

Natural Science and Mathematics
(2 courses of 3 units or more)
1. Anthropology 102, 103, 105, 106, 107, 110, 189A, 189B*, 189C
2. Business 111A
3. Economics 101, 102
4. Geography 102, 104
6. Interdisciplinary Studies 101AB*, 102
7. Philosophy 114
8. Political Science 101, 102, 103, 104, 105, 106, 107

* May be used in one area only

NOTE: UCSB has a General University Requirement in American History and Institutions. Completion of any two of the following courses will meet this requirement as well as Area D above:
1. English 107, 108
2. Philosophy 109

Completion of two of the following courses will meet this requirement as well as Area E above:
2. Political Science 101, 103, 107
3. Sociology 103, 107, 108

GENERAL NOTE: Courses in the subject of the student’s major may not fulfill general education requirements in categories B through E. (For example, a student majoring in History may not use History courses toward requirement E.) This stipulation applies to departmental majors only. For inter-departmental majors, all courses in the major will apply to the appropriate general education requirement.
General Education Requirements
University of LaVerne Residence Center
Point Mugu

General Education Requirements

English Composition (3 units)

Humanities (6 units)
One course from two different areas:
Philosophy, Literature, Religion,
Second year Foreign Language, Music
Appreciation, Art Appreciation, History

Social Science (6 units)
One course from each of two areas:
1. Psychology/Sociology/
   Anthropology
2. History/Government/Political
   Science
3. Economics

Natural Science (6 units)
One course from two different areas:
Biology, Chemistry, Physics,
Astronomy, Geology (One course must
be a lab course)

Fine Arts (3 units)
Art, Music, Theatre, Creative Writing,
Painting, Photography

Recommended Oxnard Courses

Math 120, 121 - Calculus with Analytic
Geometry II
General Education Requirements
California Lutheran College

General Education Requirements

Creative Arts (6 units required)
Two courses from the following departments:
1. Art
2. Music
3. Speech (required, but may be waived by proficiency examination)
4. Theatre Arts

English (6 units required)
1. One semester of Freshman English
2. One semester of literature

Foreign Language* (8 units required)
1. 8 semester credits in one language
2. Bachelor of Science candidates may earn 8 units in mathematics, logic, statistics, and computer science in lieu of foreign language

Natural Science (7 units required)
1. 4 units of Laboratory Science
2. 3 units of Science or Mathematics

Physical Education (3 units activity required)

Religion and Philosophy (6-9 units required)

Social Sciences (7 units required + California requirements)
1. Select two areas:
   Anthropology
   Business
   Economics
   Geography
   Psychology
   Sociology
   Political Science
2. Select one course:
   History 102, 103
3. Select one course:
   Political Science 101, 103 (Political Science majors take Political Science 103)

History (3 units required, other than California requirements)

Recommended Oxnard Courses

Creative Arts
1. Art 101, 102, 103
2. Music 101, 103A/B, 104, 105
3. Speech 101, 102, 105, 107, 109
4. Theatre Arts 101, 104, 109

English
1. English 101, 102
2. Literature (English) 104, 105, 106, 107, 108, 109, 110, 111, 113, 117, 118, 120, 189A-Z

Foreign Language
1. French 101, 102
2. Spanish 101, 102, 103, 104, 108
3. Mathematics 14, 103, 114, 120
4. Logic - Phil 107
5. Statistics - Math 105

Natural Science
1. Laboratory Science:
   Biology 101, 102, 133, 105, 107, 108, 110, 111, 112
   Chemistry 101, 102
   Geology 101, 106
   Physics 101, 102
   Non-Laboratory:
   Biology 106, 109
   Geology 102, 103, 104
   Mathematics 14, 132, 114, 105, 120

Physical Education
1. Any 3 PE activities

Philosophy
1. Philosophy 101, 102, 103, 104, 105, 106

Social Sciences
1. Anthropology 101, 102
2. Business 120, 121
3. Economics 101, 102
4. Geography 101, 102
5. Psychology 101, 102A/B, 110
7. History 102, 103
8. Political Science 101, 103

History

*Students able to demonstrate second year college-level proficiency by examination or transfer credit shall have satisfied the language requirement.
General Transfer Information

1. A 2.0 (C) grade on all work attempted is required to transfer. For the purpose of calculation, all grades are counted, including repeated courses. A repeated course does not "erase" an earlier grade.
2. Maximum of 70 credits are transferable from a community college.
3. "D" grades are granted transfer credit except in major.

4. Both B.A. and B.S. degrees are offered.
5. Most majors require at least 32 credits with 20-24 credits at the upper division level. Consult the CLC catalog for specific departmental requirements.
6. Prospective transfer students are encouraged to schedule an appointment with the Director of Transfer Services for counseling and preliminary transcript evaluations. Students should call the Admissions Office at (805) 492-2411.

Graduation Requirements

As authorized by the California Education Code, students may be graduated from the sophomore year at Oxnard College with the degree of Associate in Arts or Associate in Science.

While counselors are available for assistance at all times, the college expects every student to be familiar with graduation requirements and to assume the responsibility for their completion.

In order to be granted a degree, a student must file a Petition for Graduation on or before the deadline date. Additional degrees may be granted. (See Guidelines for Additional Degrees.)

Associate in Arts Degree

Basic Requirements

1. Completion of 60 semester units with a cumulative grade point average (GPA) of not less than 2.0.
2. A 2.0 GPA in all work in residence which applies to the degree.
3. Completion of at least 12 semester units in attendance at the college in the district granting the degree, or completion of 45 semester units in residence in colleges of the district (with a minimum of 12 semester units in residence at the college granting the degree) if not in attendance at the time of qualifying for graduation.

4. Work counted in fulfillment of degree requirements at one college cannot be used at another college for a duplicate degree. A major consisting for at least 18 units in a specified field of study (curriculum patterns) as approved by the Office of Instruction. Specific curriculum patterns are available in the Counseling Office. A student who meets the requirements for transfer to a four-year college or university, and who has completed lower division subject requirements of the major, is assumed to have met major requirements for an Associate in Arts degree.

General Education Requirements (see General Education Course List for specific courses)

1. The completion of at least 24 units of general education, in addition to those units.
used to satisfy the requirements in the major field of study. At least 15 units shall be completed in the following areas:

**Humanities** (2 courses) - requiring at least one course in Fine or Performing Arts

**Social Science** (2 courses) - requiring one course in American History or one course in American Institutions (see General Education Course List)

**Natural Science** (2 courses)

**Learning Skills** (2 courses) - requiring at least one course in written communication and one course from other learning skills

**PE activities, Health, or First Aid** (2 courses) - required regardless of age; no exemptions

---

4. A major consisting of at least 24 semester units in a specific field of study (curriculum patterns) as approved by the Office of Instruction. Specific curriculum patterns are available in the Counseling Office. The Associate in Science degree may be granted only in the fields of physical and biological sciences or occupational curriculums.

**General Education Requirements** (see General Education Course List for specific courses)

1. The completion of at least 15 units of general education, in addition to those units used to satisfy the requirements in the major field of study as listed below:

   A minimum of one course in each of the following areas:
   - Humanities (1 course)
   - Social Sciences (1 course)
   - Natural Sciences (1 course)

   Two courses in Learning Skills, requiring at least one course in written communication; one additional course in other learning skills.

2. The completion of at least two courses selected from PE activities, Health, or First Aid regardless of age - no exemptions.
Approved General Education Course List for A.A. and A.S. Degrees

Humanities (Take 2 courses for A.A., 1 for A.S.)
Fine Arts (1 course required)
1. Any course in Art, Music, or Theatre Arts
Other Humanities (1 course required)
1. Any Foreign Language course
2. Any English, Interdisciplinary Studies, Philosophy, or Speech course numbered 100 or above
3. Anthropology 112, 189B
4. English 50
5. History 105, 106, 109
6. Journalism 100
7. Any Philosophy course numbered 100 or above
Social Sciences (Take 2 courses for A.A., 1 for A.S.)
United States Institutions (1 course required for A.A.)
1. History 102, 103, 107, 108, 117
2. Political Science 101, 103, 107, 108
Social Science General (1 course required)
1. Any course in Anthropology (except Anth 101 and 111), Economics, History, Interdisciplinary Studies, Political Science, Psychology, Sociology, or Urban Studies
2. Home Economics 101, 102, 103, 107
4. Geography 102, 104
6. Philosophy 102, 105, 106, 114
Natural Sciences (Take 2 courses for A.A., 1 for A.S.)
Life Science
1. Agriculture 103
2. Anthropology 101, 111
3. Any course in Biology
Physical Science
1. Agriculture 104
2. Any course in Astronomy, Chemistry, Geology, or Physics
3. Geography 101, 103
4. Physical Science 2, 101
Mathematics
1. Any Mathematics course numbered 100 or above

Learning Skills (Take 2 courses)
Written Communication (1 course required)
1. English 101, 102
2. Essential Skills 12, 14, 24
3. Business 140
4. Journalism 101, 102, 103, 104
Other Learning Skills (1 course required)
1. Business 30, 101A
2. Essential Skills courses numbered ES 5 and above - minimum of 3 units
3. Home Economics 22, 23, 24
4. Any Personal Growth courses totaling 3 units
5. Any course in Speech or Mathematics
6. Psychology 102AB, 103
7. Sign Language 1, 2
Physical Education and Health Science (Take 2 courses)
Any Physical Education courses
Any Health Science courses numbered 100 or above

Guidelines for Additional Degrees
Oxnard College will award one Associate in Arts and one or more Associate in Science degree(s) under the following conditions:
1. Students who have earned an A.A. degree at Oxnard College or another institution may earn one or more A.S. degree(s) at Oxnard College.
   Students who have earned an A.S. degree at Oxnard College or another institution may earn one A.A. degree at Oxnard College. Students who hold a higher degree may earn one A.A. degree and one or more A.S. degree(s) at Oxnard College.
2. General education requirements earned for one degree may be applied toward other degree(s) and any deficiencies in general education must be completed.
3. Candidates for additional degrees must complete a minimum of 12 units of credit, in residence, at Oxnard College subsequent to the completion of requirements for the previous Associate degree. In addition, candidates must be in attendance at Oxnard College in the semester during which graduation requirements for the additional degree are completed.

4. A.A. degree - 12 or more additional units completed in residence after the awarding of the first degree. Require the completion of all general education units and courses required for the A.A. degree.

A.S. degree - completion of all the required courses listed in the catalog for the specific majors. When these do not total 24 units, completion of the remaining units from electives listed under the major. Completion of all general education courses required for the A.S. degree.

5. The Coordinator of Counseling shall be the arbiter when questions of interpretation arise concerning courses from other colleges and universities, lower division transfer requirements, major requirements, and other questions which may arise involving graduation.

---

**Occupational Education**

Oxnard College offers two types of programs with occupational emphasis; both provide instruction in skills and knowledge needed to enter a skilled or semi-professional occupation. Associate in Arts or Associate in Science degree programs require completion of 60 units of credit, and normally require four semesters to complete.

Certificate programs, on the other hand, can generally be completed in two semesters. The attainment of a C (2.0) average for all certificate program work is required for a certificate, and all can be counted toward a degree as well as the certificate.

Certificate programs are developed by the college in close cooperation with advisory committees composed of representatives of local business and industry. These committees review course outlines to ensure that the instructional program will provide precisely the kind of training needed for the specific field, and they also make recommendations about technical equipment needed so that students are working with the most up-to-date equipment and materials and will be optimally trained for entry into the field.

Because of the current need for salable skills and specialized training, many students combine work toward a certificate with that leading to an Associate degree, thus providing themselves with job opportunities that may sustain
them and their families while they pursue a baccalaureate degree.

Specific requirements are as follows:

**Certificates of Achievement**

A Certificate of Achievement will be granted to any student who meets the following requirements:

**Units of Work**
The satisfactory completion of not less than 24 units of work chosen from the designated required courses of a major within the occupational curriculums will be the basis for the awarding of a certificate.

**Residency Requirements**
A student must complete 12 semester units in combination at Oxnard, Moorpark, or Ventura College, or the last six semester units at one of the three colleges. Exception: Any student seeking a Certificate of Achievement from Oxnard College may submit all course work applicable from Moorpark and/or Ventura College to be counted toward the Certificate of Achievement requirement.

**Scholarship Requirements**
The attainment of a C (2.0) average for all work is required for a certificate.

**Application for Certificate**
Students who have completed (or are nearing completion) of 24 units in an approved vocational/technical field may apply for a Certificate of Achievement by completing an application at the Records Office. Transcripts of work completed at other colleges which will be used for the certificate must be on file at the Records Office before applications will be processed.

**Elective Units**
Where there are not 24 units listed in a specific curriculum, the remaining units shall be selected from the elective courses of that occupational program area with the consent of the Office of Instruction.

**Occupational Curriculum Patterns**

This section is designed to help students plan a program which will prepare them for gainful employment in a wide variety of careers. These programs, developed in cooperation with community advisory committees, have been designed to assist in upgrading persons who are already employed in business, industry, or government or those preparing for employment who desire to take all their course work in specialized pre-employment programs.

Students planning to transfer should contact the Counseling Office for general information regarding transfer requirements at the various state colleges and universities.

These programs have been designed to provide flexibility for the students and may be used three different ways:
1. A Certificate of Achievement will be awarded a student who completes 24 units in a curriculum. This should include all of the "Required Courses" and an additional
number of courses from the "Electives" list to complete the total required units of 24. Maintenance of 2.0 grade point average in the specified courses is required. The major completed is printed on the certificate.

2. The major for an Associate in Science degree is fulfilled upon completion of 24 units in a curriculum. This should include all of the "Required Courses" and a number of courses from the "Electives" list to complete the total required units of 24. The major completed is NOT printed on the Associate in Arts degree. (See Associate in Science degree requirements.)

3. The major for an Associate in Arts degree is fulfilled upon completion of 18 units in a curriculum. This should include 9 units from the "Required Courses" and 9 units from the "Electives" list to complete the total required units of 18. The major completed is NOT printed on the Associate in Arts degree. (See Associate in Arts degree requirements.)

### General Clerical

**Required Courses:**
- Complete one of the 3 courses listed below:
  - Bus 2: Preparation for Accounting
  - Bus 101A: Accounting Principles
  - OT 39: Secretarial Accounting
- Complete a minimum of 6 units from the following:
  - OT 11: Beginning Typewriting
  - OT 12: Intermediate Typewriting
  - OT 14: Advanced Typewriting
  - OT 15: Production Typewriting
- Complete all of the following courses:
  - Bus 30: Business Math
  - Bus 40: Business English
  - OT 30: Filing
  - OT 34: Office Procedures
  - (or OT 89 up to 24 units)

**Elective Courses:**
- Bus 31: Calculating Machines
- Bus 111A: Business Law I
- Bus 120: Introduction to Business
- Bus 6: Business Communications
- OT 20: Beginning Shorthand
- OT 21: Intermediate Shorthand
- OT 25: ABC Shorthand
- OT 32: Copy Processing
- OT 33: Beginning Machine Transcription
- OT 35A-J: Secretarial Skills Refresher
- OT 37: Records Management
- OT 71: Memory Typewriter
- OT 73: Magnetic Card II

### Government Management/Services

#### Government Management Option

**Required Courses:**
- GM 101: Introduction to Government Administration
- GM 102: Public Personnel Administration
- GM 103: Elements of Government Finance
- GM 104: Administrative Law and Procedure
- GM 106: Contemporary Urban Issues
- PSc 107: Politics and Administration of State and Local Government

**Elective Courses:**
- Econ 2: Economics of Local Government
- Econ 101: Principles of Macroeconomics
- Econ 102: Principles of Microeconomics
- ES 24: Technical Report Writing
- Sup 1: Basic Psychology for Supervisors
- Sup 4: Labor Management Relations

### Government Services Option

**Required Courses:**
- GS 1: Introduction to Government Service

Student Services

Counseling Services

Counseling Philosophy
It is the aim of Oxnard College counselors to provide individual and group counseling sessions in which students feel free to discuss course selections, career interests, and personal concerns, as part of the process of making meaningful life decisions.

The counselor-student holistic approach encourages students to deal with immediate concerns and aids them in exploring options. The students' concerns are treated from a holistic framework, which may include a complete examination of lifestyles and how individual lifestyle affects educational performance.

Academic Information
One of the primary responsibilities of Oxnard College counselors is to assist students in planning for a program of study which appropriately reflects their personal interests, potential, and motivation. The counselor's function, however, is an advisory one. Ultimately, the responsibility for knowing program requirements and enrolling in proper courses rests with the students.

Students registering at Oxnard College for the first time and students on academic probation are required to meet

Servicios para Estudiantes

Servicios de Consejeros

Filosofía de los Consejeros
El propósito de los consejeros del colegio de Oxnard es de proveer sesiones de consejo individuales o en grupo en las cuales los estudiantes se sientan libres de discutir la selección de cursos, intereses en profesiones y sus asuntos personales.

El método "consejero-estudiante" en su totalidad estimula a los estudiantes a resolver sus problemas inmediatos y les ayuda a explorar otras opciones. Los problemas del estudiante son tratados en una forma completa, lo que puede incluir un examen completo sobre su forma de vida y cómo ésta puede afectar su éxito educativo.

Información Académica
Una de las responsabilidades más importante de los consejeros es la de ayudar a los estudiantes a planear un programa de estudio que refleje apropiadamente sus intereses personales, su potencialidad y su motivación, sin olvidar que la función del consejero es únicamente de aconsejar.

Los estudiantes que se inscriban en el colegio de Oxnard por primera vez y los que están a prueba necesitan
with a counselor prior to registration. All students are encouraged to see a counselor prior to registering. Other counseling appointments can be made by calling the Counseling Office.

Career/Life Planning
Counselors can provide students with information about a variety of career clusters and vocational fields. By visiting the Career Center, attending Personal Growth classes, and meeting with counselors, students have the opportunity to explore relationships between career choice, decision-making procedures, and personal values. Ongoing participation in Personal Growth classes allows students the opportunity to gain insight into past and present performance while providing a supportive atmosphere for self-exploration.

Personal Concerns
Trained professionals are available for personal counseling. Through a self-help holistic approach, counselors will help students explore immediate alternatives for crisis situations or assist in the decision making to provide for maximum student success while in attendance at Oxnard College. When further assistance is necessary, counselors can provide students with referral services for personal and social problems.

consultar con un consejero antes de inscribirse. Se recomienda a todos los estudiantes en general consultar con un consejero antes de las inscripciones, pues la responsabilidad final de matricularse en los cursos apropiados y de conocer los requisitos necesarios recae en el estudiante.

Proyectos de Vida y Profesión
Los consejeros pueden proporcionar a los estudiantes información sobre una variedad de carreras profesionales y vocacionales. Visitalo el Centro de Profesiones, asistiendo a clases de desarrollo personal y reuniéndose con un consejero, los estudiantes tienen la oportunidad de explorar la relación que hay entre la profesión elegida, el proceso de hacer decisiones, y el aprecio personal. La participación en las clases de desarrollo personal da oportunidad a los estudiantes a distinguir entre sus acciones presentes y pasadas y al mismo tiempo les proporciona una atmósfera favorable para la auto-exploración.

Dilemas Personales
Profesionales competentes están al servicio del estudiante. A través del método “auto-ayuda” el consejero ayudará al estudiante a buscar alternativas inmediatas a situaciones críticas y lo alentará a tomar la mejor decisión. Si los problemas personales y sociales del estudiante son más serios, entonces el consejero le indicará donde obtener servicios adicionales.
Financial Services

The student who is hesitant about attending college because the financial expenses involved in obtaining a college education may prove to be too much of a personal or family burden will find a welcome campus friend in the Office of Student Financial Services. This office offers a complete array of financial support services which are designed to help Oxnard College students cover some of the expenses involved in obtaining a college education.

Student Financial Services personnel can help the Oxnard College student gain access to the following types of financial support services: grants, loans, work study, job placement, and scholarships.

Grants, loans, and work study opportunities are available to any Oxnard College student who establishes a financial need by completing the application procedures set forth by these financial aids programs. Eligible applicants will be expected to adhere to standards of normal academic progress in order to receive the full benefits of these programs.

Grants

Basic Educational Opportunity Grant (BEOG); Supplemental Educational Opportunity Grant (SEOG); Extended Opportunity Programs and Services Grant (EOPS) — Each of these grants require that students be enrolled in a minimum number of units. The Basic Grant (BEOG) requires 6 units, while all others require 12 units.

Servicio de Finanzas

El estudiante que titubea en asistir al colegio debido al alto costo de la educación, encontrará en la Oficina de Servicio Financiero a un amigo que le dará la bienvenida. Esta oficina ofrece una variedad de ayudas económicas con el propósito de ayudar a los estudiantes a cubrir algunos de los gastos que ocasiona esta educación.

Las siguientes ayudas de tipo económico están al alcance de los estudiantes: pensiones del gobierno federal, préstamos, trabajo/estudio colocación de empleo y becas. Las pensiones, los préstamos, y las oportunidades de trabajo estudio están a la disposición de cualquier estudiante que por medio de una aplicación establezca su necesidad. Una vez aceptado el aspirante debe adherirse a las normas de progreso académico para poder recibir los beneficios.

Pensiones del Gobierno Federal

Oportunidades para la Educación Básico (BEOG); Oportunidad Educacional Suplemental (SEOG); Servicio y Programas de Oportunidad Extensas (EOPS); cada una de estas pensiones requieren que el estudiante se inscriba con un mínimo de unidades. (BEOG) requiere seis unidades, mientras que las otras requieren doce.
Loans
National Direct Student Loan (NDSL); Federally Insured Student Loan (FISL) — These federally-subsidized loan programs are offered on a guaranteed interest, deferred payment basis. Students receiving these loans are expected to repay them upon completion of their studies.

Work Study
Federal College Work Study Program (CWSP) — Students qualifying for college work study funds will receive work assignments through the Job Placement Office. Students will be allowed to work a maximum of 20 hours per week at a salary rate which is at least equal to the current minimum wage and policies set forth by the VCCCD.

Job Placement
The Student Placement Office located on campus assists students seeking part-time or full-time employment. Lists are maintained of employment opportunities both off- and on-campus and job announcements are posted in the college’s major centers. Special emphasis is placed on locating employment for which the student has been trained. The services of the Student Placement Office are available to all students as well as alumni.

Extended Opportunities
Programs and Services (EOPS)
The Oxnard College EOPS program is a state-funded program designed to encourage the enrollment and successful participation of students handicapped by language, social, and/or economic disadvantages. The EOPS program provides the

Préstamos
El Prestamo Escolar Nacional (NDSL) y el Prestamo Escolar Federal (FISL) — Estos programas de préstamo subsidiados del gobierno federal se ofrecen con intereses garantizados y pagos aplazados. Los préstamos deberán ser pagados al terminar los estudios.

Programa Federal Trabajo/Estudio
Los estudiantes que califiquen para recibir fondos de este programa obtendrán empleo por medio de la Oficina de Empleos y Colocación. Se les permitirá trabajar 20 horas como máximo a la semana, con un sueldo mínimo conforme a las normas establecidas por VCCCD.

Empleos
La oficina de empleos para estudiantes, asiste en la búsqueda de trabajos de medio-tiempo (part-time), y turno completo (full-time), con un énfasis especial en colocar al estudiante en una posición de acuerdo a su experiencia o preparación. Esta oficina mantiene listas de empleos dentro y fuera del colegio y los anuncia en los centros principales del colegio. Estos servicios están también a la disposición de los estudiantes ya graduados.

Programas y Servicios
EOPS del colegio de Oxnard es un programa con fondos estatales, que fue diseñado con el propósito de promover las matrículas y la participación de los estudiantes con impedimentos linguísticos, sociales, y/o desventajas económicas. EOPS proporciona varias clases de
following types of services: recruitment, financial assistance, tutorial assistance, orientation, academic counseling, career guidance, book loans, and supportive services.

Eligibility requirements are as follows. Applicants:
1. must come from families whose income does not exceed $7,500 per year for a family of four;
2. must be enrolled full-time at Oxnard College (12 units/semester or completion of 24 units/academic year); and
3. must have submitted a Federal Basic Educational Opportunity Grant (BEOG) application.

All application materials and additional EOPS information is available in the EOPS Office.

Scholarships
The current Oxnard College Scholarship Program consists of scholarships which are funded through trust fund agreements between OC and private donors along with scholarships which are made available by local community organizations.

Although eligibility for scholarships takes the applicant's financial need into consideration, it must be emphasized that eligibility generally is based upon the applicant's ability to meet scholastic and other eligibility criteria set forth by scholarship donors.

Each scholarship application should be accompanied by the following supportive materials:
1. Required transcripts of past academic work servicios: reclutamiento, asistencia económica, asistencia tutelar, orientación, consejos académicos, guía de cursos y profesión, préstamos para textos (libros), apoyo y ayuda en general.

Los requisitos de elegibilidad son los siguientes. Aspirantes:
1. deben venir de familias cuyos ingresos no exceden $7,500 por año en una familia de cuatro miembros.
2. deben matricularse en el colegio con no menos de 12 unidades por semestre o 24 unidades por año académico.
3. deben presentar una aplicación para la pensión federal (BEOG).

Las aplicaciones e información adicional se encuentran en la Oficina de EOPS.

Becas
El programa de becas en el colegio consiste en becas consolidadas por medio de transacciones entre OC y donadores privados, y las becas que provienen de organizaciones locales en la comunidad. Aunque se toma en consideración la situación económica del estudiante es necesario enfatizar, que la elegibilidad se establece por medio de la habilidad del estudiante de satisfacer los requisitos académicos y otros estipulados por los patrocinadores de las becas.

Cada aplicación deberá ir acompañada con lo siguiente:
1. Copia de certificados de cursos (clases) terminados
2. Personal letter of application
3. Two letters of recommendation

Specific details of any additional supportive materials are available in the Financial Aids Office.

Unless it is otherwise noted in the scholarship announcement, the deadline, for submitting applications for scholarships is May 1.

Scholarship applications which are submitted to the Financial Aids Office by the published deadline date will be forwarded to the appropriate Scholarship Screening Committee, which will review each application prior to making a decision. In some instances, a personal interview may be required. Scholarship applicants will be notified of committee decisions by the OC Financial Aids Office or a designee of the scholarship donor.

---

Health Services/ Accident Insurance

The Student Health Center, located on campus, assists students to move toward their educational goals by providing preventive and other limited health services. Furthermore, the center staff provides information about community health resources.

Nursing services available include first aid, health

---

Centro de Salud/ Seguro de Accidente

El centro de salud ayuda a los estudiantes a que avancen en su meta educativa por medio de la medicina preventiva y otros servicios limitados. Los servicios que se pueden obtener en la enfermería son los siguientes: primeros auxilios, consultas sobre la higiene personal, control de natalidad, pruebas de embarazo, inmunizaciones e
counseling with evaluation and referral to community resources, birth control counseling, pregnancy testing and counseling, student and faculty immunizations, and faculty and staff consultations.

All students who pay the health fee are covered by a student insurance plan. In case of accident, an accident report must be filed at the Health Center by a faculty member, counselor, facility supervisor, or administrator immediately. When the bill for treatment of a reported accident is received by the student, it should be taken to the college nurse at the Health Center for payment.

Veterans’ Services

The Veterans' Readjustment Act of 1966 (PL 89-358) provides educational assistance for veterans who served on active duty for a period of more than 180 days.

The monthly basic educational assistance allowance for training may be paid on a full-time (12 units), three quarter-time (9 units), or half-time (6 units) basis.

A VA Educational Loan Program is available to veterans or eligible dependents for attendance on at least a half-time basis. The loan is to provide additional funds for those eligible persons whose educational expenses exceed their financial resources. Applications may be submitted before classes start through the Veterans’ Representative at the campus VA Office.

Veteranos

El Decreto de Reajustamiento para veteranos de 1966 (PL 89-358) estipula que los veteranos que estuvieron en servicio militar activo por un periodo de mas de 180 dias, tendrán derecho a una pensión educativa mensual. La pensión se paga a base de 12 unidades, 9 unidades, o 6 unidades. Otro préstamo provee dinero adicional a los veteranos o a sus dependientes matriculados en por los menos 6 unidades, si sus gastos educativos exceden sus ingresos económicos. Las aplicaciones pueden ser entregadas antes de que comiencen las clases, al representante de los veteranos en la oficina de VA en el colegio. Un empleado de esta oficina o el representante de VA estará a su disposición para ayudarle a completar la aplicación.
The Veterans’ Clerk or Veterans’ Representative will be available to help with the filing of applications.

NOTE: Currently, credit is not evaluated and thus granted for courses in educational experiences from the armed forces. Therefore, no credit for USAFI or basic military training can be directly granted. However, there are procedures where credit may be gained through cooperating institutions that can be accepted by the college. Under existing Veterans’ Administration regulations, a student repeating a course is not eligible for veterans’ benefits in many cases. Veterans should, therefore, check with the Veterans’ Counselor or the Veterans’ Administration Office before repeating a course.

Student Organizations and Activities

The Associated Students of Oxnard College (ASOC) carries major responsibility for student government, campus organizations, and the student activities program in general. Broad aims of this program are in close harmony with objectives of the college to provide for opportunities for personal development, group cooperation, development of leadership, and enrichment of college life. Oxnard College offers a planned program of cultural, pre-professional, and recreational activities. All students are encouraged to participate in activities of their choosing such as student government, music, forensics, athletics, publications, and the club program.

Actualmente las unidades acreditadas a cursos tomados en la fuerzas armadas no están evaluadas y no es posible dar crédito directo al estudiante en USAFI o en Entrenamiento Básico Militar. Sin embargo el colegio de Oxnard acepta que los veteranos obtengan este crédito por medio de otras instituciones. Según el reglamento de la Administracion de Veterans, un estudiante que repite un curso, no puede obtener los beneficios de VA en la mayoría de los casos. Los veteranos deben consultar con un consejero o con la Oficina de Administración antes de repetir un curso.

Actividades Estudiantiles

La sociedad de estudiantes tiene mucha responsabilidad en el gobierno estudiantil, las organizaciones del colegio, y todas las actividades de los estudiantes en general. Los propósitos de estos programas están en completa armonía con los objetivos del colegio, como proveer oportunidades para el desarrollo personal, cooperación entre individuos, el desarrollo de líderes y el enriquecimiento de la vida en el colegio. El colegio ofrece actividades culturales, pre-profesionales y recreacionales, e invita a todos los estudiantes a que participen en actividades.
Athletics
Oxnard College’s Condors compete in the Western State Conference. In 1978-79, OC fielded teams in men’s and women’s cross-country and track and field; men’s basketball, baseball, and soccer; women’s basketball, volleyball, and tennis. Student athletes must be enrolled in 12 or more units during the sports season to be eligible for competition.

Music Organizations
Oxnard College’s organized musical groups include a concert choir and a stage band. Both groups perform publicly during the course of the year, at events ranging from public concerts in conjunction with the Ventura County Symphony to pre-game and half-time jam sessions at OC sporting events.

Dramatics
The OC theatre arts staff plans and produces a variety of dramatic events each year, ranging from major dramatic and musical productions to children’s theatre events in local elementary schools. Drama students have the opportunity to engage in all aspects of theatrical work.

Publications
Journalism classes both day and evening produce a student newspaper, the Campus Observer, which is a vehicle of campus life and communication.

Atletismo
Los Cóndores del colegio compiten en la Liga Estatal de Occidente. En 1978-79, OC tuvo equipos de “cross-country,” “track y field” para hombres y mujeres, basquetbol para hombres, basquetbol y voleibol para mujeres, y tenis. Los atletas deben estar inscritos en 12 o más unidades durante el tiempo de deportes para poder competir.

Música
Los grupos musicales organizados en el colegio de Oxnard incluyen un coro de concierto y una orquesta. Ambos grupos tocan para el público durante el curso del año.

Drama
El personal del departamento de Artes Teatrales planea y produce una variedad de obras dramáticas cada año, que van de producciones dramáticas y musicales a obras teatrales para niños en escuelas primarias locales. Los estudiantes de drama tienen la oportunidad de participar en todos los aspectos del campo teatral.

Publicaciones
Las clases de periodismo publican un periódico estudiantil, “El Observador,” el cual es un vehículo para expresar la vida del colegio.
Special Programs

Disabled Students Program

Oxnard College offers special services for physically and learning disabled students which enable them to participate more completely in the college program. A full range of services is provided to accommodate all handicaps, including special materials, audio-visual equipment, transportation, counseling, and academic assistance. Services for the visually impaired include tape recorders, Visual Tek, Braille encyclopedia, readers, and mobility assistance. For the hearing impaired, the college offers special classes taught in sign language such as English Grammar for the Deaf and Contemporary Issues for the Deaf. Services for the deaf also include classroom interpreting, language programs, and tutors proficient in sign language. Services for the learning disabled include diagnostic testing, counseling, individualized learning strategies, special classes, and individualized educational plans. For the physically handicapped, the college offers transportation, mobility assistance, tutoring, and electric wheelchairs for on-campus transportation. A work evaluation program is being developed for all disabled students.
ESPIGA (Bilingual Program)

The Oxnard College bilingual program has been designed to facilitate non-English or limited English-speaking students' entrance into the regular English curriculum. Students will develop a mastery of the English language as they participate in this program earning college credits in vocational or academic programs.

Each semester, courses offered through ESPIGA are published in the schedule of classes in English and Spanish. Classes in vocational education, transfer level courses, and classes in essential skills make up the ESPIGA program offerings. Classes are offered during the day as well as in the evening.

There are bilingual personnel to help students with registration. Also, there are bilingual counselors who can recommend an appropriate course of studies.

El Programa de ESPIGA

El programa bilingüe del Colegio de Oxnard ha sido diseñado para facilitar la entrada de los estudiantes que no hablan inglés, o solamente hablan un poco de inglés, a las clases regulares en inglés. Los estudiantes aprenderán el lenguaje inglés mientras participan en este programa ganando créditos universitarios en programas vocacionales o académicos.

Cada semestre, las clases ofrecidas por el programa de ESPIGA son publicadas en el horario de clases en inglés y en español. Los cursos del programa de ESPIGA incluyen: clases de educación vocacional, clases de nivel transferible; y clases de destrezas fundamentales. Las clases se ofrecen de día y también de noche.

Hay personas bilingües que pueden ayudar a los estudiantes con la inscripción además, hay consejeros que pueden recomendar un curso de estudios apropiado.
Learning Center

OC’s Learning Center, located on the mezzanine in the new Library/Learning Resources Center on campus, provides a broad range of services for students. Credit instructional modules are available in a wide range of essential skills encompassing reading, writing, grammar, and tutor training. A variety of multimedia and self-instructional materials is also available to supplement classroom instruction, or for self-help.

OC’s tutoring program is also located in the Learning Center, which is open from 8 a.m. to 10 p.m. Monday through Thursday, and 8 a.m. to 5 p.m. on Friday.

Re-Entry Program

This program is designed for people — both men and women — who have been away from formal education for a period of time, to provide them with assistance during their transition back to education and with a warm, supportive environment. Help is available for selecting classes from the regular curriculum with each individual’s specific skills, needs, and interests considered; in addition, special workshops, seminars, and programs are offered through the program.

Tutorial Services

A Tutorial Service provides free personal tutoring for Oxnard College students. Tutors are available in almost all subjects offered by the college, for short or long term assistance. The Tutorial Center is located on campus, in conjunction with the Learning Center.

Work Experience

Work Experience is designed and intended to enhance formal classroom instruction with work which could be considered a laboratory extension of the classroom. As such, the work station must be related to the student’s major. Examples would be a fire fighter who is taking Fire Science or a Business Management-Merchandising option student who is working as a salesperson in a retail store.

Expected results should be greater student motivation because of fuller comprehension of the relation between theory and practice, and for the younger student an easier transition from school into the working world.

A student may enroll in Work Experience if he or she is enrolled in at least one course in the major which is related to the work station, or if the student has previously completed at least 12 units in the major. Students enrolling for Work Experience must be enrolled in at least seven units including Work Experience.
Work Experience credit will not count toward the required courses in the major unless specifically indicated in the catalog, but it will count for elective credit. Where specifically indicated, a maximum of 4 units may be applied toward the required courses of a curriculum pattern. These units will fully or partially transfer to approximately 30 percent of state colleges, and will count toward an A.A. or an A.S. degree at Oxnard College.

Work Experience classes will normally be graded as credit-no credit and will bear the course number 99 preceded by the major designation, such as Sup 99.

A student may enroll in from one to four units per semester, with the total number of units accumulated at the college not to exceed 16 units based on the following formula:

One unit of credit for every 75 hours of job-related work per semester. This is approximately equal to one unit of credit per five hours of work per week for a semester. This may be paid or unpaid work.

The specific requirements for Work Experience are established by the Work Experience Coordinator and the Office of Instruction. These specific requirements may be obtained from a counselor or the Work Experience Coordinator.
Course Descriptions

For convenience, the course descriptions in this catalog are arranged alphabetically according to subject grouping.

Definition of a Semester Unit
The semester unit value of the course is shown by a number (or numbers). The semester unit is based on three hours of work-study: one lecture hour with two attendant hours of preparation or three hours of laboratory activity.

Course Identification
Courses offered by Oxnard College will allow a wide selection of curricula that meet the requirements for most regular university majors as well as for technical, semiprofessional, or occupationally-oriented programs.

To assist students to plan their programs of study, all credit courses offered by Oxnard College are classified into one of the three following categories:
1. Courses applicable toward the Baccalaureate Degree at universities or senior colleges
2. Specialized technical, semiprofessional, or occupationally-oriented courses applicable to certificate and associate degree programs for which some universities and senior colleges allow subject or elective credit toward the Baccalaureate Degree.
3. Non-transfer and/or remedial courses not applicable toward the Baccalaureate Degree.

Transferability
Courses that carry a number between 100 and 199 are expected to transfer for baccalaureate credit to four-year institutions. Courses that carry a number between 1 and 99 may be transferable by some colleges and universities but the individual senior institution or a counselor should be consulted to determine the transferability of a specific course. Since most of these latter courses are not ordinarily offered in the university or four-year college, they may not be applicable to the requirements for the Baccalaureate Degree.

Offering of Course as Described in Catalog
Occasionally there may be course changes concerning prerequisites, contents, hours, or units of credit made after publication of the catalog. Efforts will be made through the class schedules and public media, and at times of registration, to notify students of any changes other than as described in the catalog.

Offering of Course as Listed in the Schedule of Classes
The college reserves the right to cancel any class scheduled for any term if enrollment is insufficient as determined by the guidelines established by the board of trustees.

Field Trips
Students enrolled in any course in the Oxnard College curriculum may be required to attend extra-educational events, excursions, and/or field trips. Such activities are subject to the district's policy on field trips, Section 4.14 of the Board Policy Manual, and to the provisions of the California Educational Code.
### Schedule of Courses
Courses listed below are offered as a regular part of established curricula or when demand warrants. The current class schedule should be consulted to determine the availability of specific courses.

In the course number designations, the following subject or departmental title abbreviations are used:

Administrative Housekeeping

AH 1 - 3 units
Administrative Housekeeping I
Prerequisite: None
3 hours lecture weekly
Course is designed to give students an insight into Institutional Housekeeping as a career, a view of organization and structure of an enterprise and management of its day-by-day functioning, impart basic principles and practices of personnel management applicable to staffing and operation of a department within a larger organization, and describe and explain budgets as they relate to basic operations and control in institutional housekeeping departments. (Co-numbered with H&R 16.)

AH 2 - 3 units
Administrative Housekeeping II
Prerequisite: None
3 hours lecture weekly
Course designed to provide students in the field of Institutional Housekeeping with the basic principles and techniques of work controls, housekeeping techniques, purchasing, and records. Also provides students with 60 hours credit toward National Executive Housekeeping Association Certificate. (Co-numbered with H&P 17.)

AH 9 - 2 units
Sanitation and Environmental Control
Prerequisite: None
3 hours lecture weekly
Course acquaints students with basic principles of microbiology and applications to personal cleanliness; cause, control, and investigation of illnesses caused by food contaminations; sanitary practices in food preparation; proper dishwashing procedures; sanitation of kitchen, dining room, and all equipment; cleaning materials and procedures; garbage and refuse disposal. (Co-numbered with H&R 9.)

AH 99ABCD - 1-2-3-4 units
Administrative Housekeeping Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.
Lab hours as required by unit formula
Supervised off-campus placement for practical work experience related to the student's major. An opportunity to integrate classroom study with practical on-the-job experiences relevant to the student's academic program and vocational goals.
Agriculture

Ag 6 - 2 units
Introduction to Agricultural Sciences
Prerequisite: Agriculture major
2 hours lecture weekly
Survey of agriculture and horticulture industries throughout California, with visits to production, processing, marketing, and service agencies.

Ag 10ABCD - 1-2-3-4 units
Agriculture Projects
Prerequisite: Agriculture major
1 hour lecture, 3-12 hours lab (hours arranged proportional to number of units) weekly
Planning, development, and execution of an individual agriculture project under the supervision of a faculty advisor, in an organized program to enable the student to gain practical skills and experiences in agriculture. Records required of each student.

Ag 11 - 3 units
Agriculture Sales and Service
Prerequisite: None
3 hours lecture weekly
Growth and opportunities in agriculture sales. Factors involved in developing sales programs for the farm operation. Application of successful selling principles, practices, and techniques in providing farm operators with agricultural materials, supplies, equipment, and services; customer relations, and psychology. Field trips required.

Ag 12 - 3 units
Agricultural Marketing
Prerequisite: None
3 hours lecture weekly

Principles of marketing agricultural products, market functions, channels, market institutions; introduction to cooperative marketing, cost of marketing, marketing problems by commodities, marketing policy and trends; market orders, agreements, regulatory and legal aspects. Field trips required.

Ag 13 - 3 units
Business Practices in Landscape Horticulture
Prerequisite: None
3 hours lecture weekly
Practical business problems in various branches of Ornamental Horticulture, including estimating, sales and service, public relations, budgets, record keeping, and advertising.

Ag 21AB - 2-2 units
Agricultural Mechanics
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Selection, care, and use of hand and small power tools common to agriculture. Development of skills in the use of various tools and materials of carpentry, masonry, plumbing, electricity, and metal work.

Ag 22 - 3 units
Agricultural Machinery
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Selection, operation, maintenance, and troubleshooting of machinery common to agriculture. Calibration and setup of soil preparation, chemical application, planting, harvesting, and materials-handling equipment.
Ag 23 - 3 units  
Agricultural Construction  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Economical planning and selection of materials for construction typical to agriculture and farming. Bills of materials, cost estimation, measurements for mechanical, masonry, and structural construction. Individual and group projects required.

Ag 24 - 2 units  
Small Engines  
Prerequisite: None  
1 hour lecture, 3 hours lab weekly  
Basic principles of internal combustion engines with emphasis on the practical application of knowledge and developed skills to maintain and rebuild small engines. Function and repair of ignition, fuel, starting, and other systems related to small engines including valve grinding, honing of cylinder walls, and ringing of pistons. Field trips and laboratories required.

Ag 25 - 3 units  
Tractor and Equipment Operations  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Agricultural and industrial tractor types; operation, selection, troubleshooting, and minor maintenance. Application to related equipment stressing operation of units in practical situations.

Ag 26 - 3 units  
Agricultural and Industrial Power  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Farm tractor operation, selection, trouble shooting, and maintenance. Gasoline, diesel, electric fundamentals, and accessory systems. Applications to farm machinery use and allied power units.

Ag 31AB - 1-1 unit  
Hand Skill—Ag Mechanics  
Prerequisite: None  
3 hours lab weekly  
Selection, care, and use of hand and small power tools common to agriculture. Shop safety and proper use of shop equipment also emphasized.

Ag 32ABC - 1-1-1 unit  
Ag Machinery Skill and Operation  
Prerequisite: None  
3 hours lab weekly  
Use, selection, function, calibration, field set-up, maintenance, and operation of farm machinery, including plows, subsoilers, discs, incorporators, bed shapers, seed planters, chemical applicators, and cultivators and harvesters.

Ag 33ABCDEFG - 1-1-1-1-1-1 unit  
Metal Fabrication and Welding  
Prerequisite: None  
3 hours lab weekly  
Basic principles, safety aspects, equipment, and techniques of oxy-acetylene welding, arc welding, heliarc or tungsten inert gas (TIG), metal arc inert gas (MIG), and metal fabrication practice through practical exercises, direct application, and repair of agricultural equipment.

Ag 34ABC - 1-1-1 unit  
Agriculture Construction Fundamentals and Skills  
Prerequisite: None  
3 hours lab weekly  
Planning, estimating, selection, care, and use of materials
and equipment typical to agriculture. Provides instruction in material and cost estimates and equipment requirements as related to various agriculture and farming operations.

Ag 35ABC - 1-1-1 unit
Agriculture Tractor Operation and Maintenance
Prerequisite: None
3 hours lab weekly
Maintenance and operation of various tractors commonly found in an agriculture operation. Included are standard service procedures, adjustments to different operating needs, and hitching rear-mounted equipment; maintenance is stressed.

Ag 36 - 2 units
Ag Welding Technology
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Safety aspects, equipment operation, and techniques of oxy-acetylene welding, arc welding, TIG and MIG welding, and metal fabrication through practical exercises and repair of agricultural equipment.

Ag 37 - 1 unit
Ag Welding
Prerequisite: None
3 hours lab weekly
Practical experience in the techniques of oxy-acetylene, electrical, and inert gas welding including expansion, contraction, and residual stresses in welding of materials.

Ag 39 - 1-12 units
Agriculture Equipment Operation, Welding, and Repair
Prerequisite: None
30 hours weekly
For students who have immediate job goals in mind, this program is a full-time, all-day, 30 hours per week offering. Topics covered may include metal fabrication and welding, equipment operation and maintenance, chemical application, and use of hand and power tools. Credit may be awarded for courses within Ag Equipment program successfully completed. Course is operated on a continuous enrollment plan and graded on a credit-no credit basis. May be repeated for credit to a maximum of 36 units.

Ag 41 - 3 units
Introduction to Animal Science
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Basic considerations of popular breeds of beef, sheep, swine, and dairy cattle, the animal industry in the US and California; selection, feeding, breeding, care, marketing, and management of livestock; efficiency factors for the various enterprises within the breeds of livestock. Field laboratories and trips required.

Ag 51 - 3 units
Citrus Production
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Growing and marketing oranges, lemons, and grapefruit; origin, distribution, and economic importance of citrus fruits; varieties, pest and disease control, harvesting, frost protection, soil, fertilizer, and irrigation requirements; field laboratory work in tree and fruit identification, citrus testing, seed extraction and growing, budding, pruning, cultural practices, and orchard
heating. Field trips and laboratories required.

**Ag 52 - 3 units**  
**Avocado Production**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Industry development, environmental requirements, variety adaptation, propagation, tree training, cultural requirements, soil management practices, and production economics. Field laboratories and trips required.

**Ag 53 - 3 units**  
**Orchard Management**  
Prerequisite: Ag 51 or Ag 52  
2 hours lecture, 3 hours lab weekly  
Factors of management relating to the efficient operation of citrus and avocado orchards; site selection and development; effect of cultural practices on production and quality of fruit; management decisions and programs; calendar of operations; harvesting and marketing; emphasizing investment, labor, cost of production, and sales of fruit products. Field laboratories and field trips required.

**Ag 54 - 3 units**  
**Packing House Management**  
Prerequisite: Ag 51 or Ag 52  
2 hours lecture, 3 hours lab weekly  
Citrus and avocado packing house management techniques; packing house organization, equipment, materials, and methods of processing fruit; regulatory aspects of fruit quality, grades, and standards; cost and time studies; marketing method; use and manufacturing of products from citrus and avocados. Field laboratories and trips required.

**Ag 55 - 4 units**  
**California Fruit Growing**  
Prerequisite: None  
3 hours lecture, 3 hours lab weekly  
Production practices, areas of production, suitable varieties, harvest and processing of important deciduous subtropical fruit crops. Fruit identification, pruning, propagating, and management practices. Grapes, peaches, apricots; olives, plums, apples, fig, kiwi, pistachio, macadamia, cherimoya, and others will be investigated. Field trips and practical laboratories included.

**Ag 61 - 3 units**  
**Crop Production I**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Economic importance, adaptation, propagation, cultural practices, harvesting, processing, and marketing of field crops in California. Emphasis on crops grown in Ventura County. Field practice in the growing of selected crops, control of pests, irrigating, fertilizing, harvesting, grading, and processing. Field practice and trips required.

**Ag 62 - 3 units**  
**Crop Production II**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Typical vegetable crops produced in Ventura County. Economic importance, adaptation, propagation, cultural practices, harvesting, processing, and marketing. Field practice and trips required.

**Ag 63 - 3 units**  
**Commercial Seed and Flower Production**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly
Breeding, production, and processing of commercial and certified seed; seed laws and seed agencies; cut flower production, marketing, and use. Field trips and outdoor laboratories required.

**Ag 66 - 3 units**  
**Landscape Horticulture**  
Prerequisite: None  
3 hours lecture weekly  
Plant morphology, plant climates, soils and amendments, plant nutrients, common plant pests and diseases, general pruning practices, general turfgrass identification, general turfgrass problems, ground covers and their uses, general estimating problems, general planting of trees and shrubs.

**Ag 67 - 3 units**  
**Recreational Landscape Construction**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Fundamentals of recreational landscape construction projects: materials, installation techniques, tools, equipment, structures, plumbing, masonry, electricity, surveying, grading, sprinklers, and drainage systems; contracts and specifications writing, legal aspects of recreational landscape industry. Field trips required.

**Ag 68 - 3 units**  
**Environmental Irrigation**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Study of basic water needs for plants and relationship of soil, water, and quality of water; principles of basic sprinkler system design and introduction to operation of irrigation equipment including automatic time-operated systems and mechan-ical systems and their maintenance. Field trips required.

**Ag 69 - 3 units**  
**Park and Golf Course Management**  
Prerequisite: Ag 66  
2 hours lecture, 3 hours lab weekly  
Maintenance of public parks and golf courses with special emphasis on developing skills in irrigation, care of plants and turf found in recreation areas, yearly programming of labor, and supplies and equipment. Of special interest to park and recreation majors. Field trips required.

**Ag 70 - 4 units**  
**Ornamental Trees**  
Prerequisite: None  
2 hours lecture, 6 hours lab weekly  
Identification, growth habits, cultural requirements, and use of ornamental trees adapted to the environment of Southern California. Care and management of trees used in landscape, planting, pruning, spraying, staking, cabling, guying, bracing, cavity work including use of ropes and safety in tree climbing. Field trips required.

**Ag 71 - 3 units**  
**Tropical, Flowering Plants, Ornamental Vines, and Bedding Plants**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Identification, selection, growth habits, cultural requirements, and use of ground covers, vines, and bedding plants adapted to the environment of Southern California; care and management of these plants and their use; planting, irrigating, fertilizing, and spraying. Field trips required.
Ag 72 - 3 units
Ornamental Shrubs and Ground Covers
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Identification, growth habits, cultural requirements, and use of ornamental shrubs adapted to the environment of Southern California; care and management of shrubs; planting, pruning, second spraying. Field trips required.

Ag 73 - 3 units
Environmental Landscape Design
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Basic principles of landscape design; studies in form, space, color, texture, scale, balance, unity, and contrast; materials used in landscape development; site analysis, design problems, use of plants; location and function of landscape structures in the plan. Field trips required.

Ag 74 - 3 units
Turfgrass Identification and Installation
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Identification, selection, growth habits, uses, and cultural requirements of turfgrass varieties adapted to Southern California; site and soil preparation, common installation practices. Field trips required.

Ag 75 - 3 units
Turfgrass Management
Prerequisite: Ag 74
2 hours lecture, 3 hours lab weekly
Proper management procedures for turfgrass varieties as used in Southern California; irrigation methods and systems, fertilizers, insect, disease and weed control, thatching, aerifying, top dressing, and overseeding. Use of mechanical equipment in turfgrass maintenance as applied to golf courses, parks, schools, and private properties. Field trips required.

Ag 76 - 3 units
Landscape Construction
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Rules, regulations, and licensing laws set forth by the State of California governing landscape contractors; practices in supervising workers and applying approved techniques in landscape construction. Field trips required.

Ag 77 - 3 units
Landscape Contracting Principles
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Cost finding and estimating for landscape trades; principles and practices in supervising workers and applying approved techniques in landscape construction. Field trips required.

Ag 81 - 3 units
Principles of Landscape Maintenance
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Trains students for employment in professional landscape maintenance with particular reference to selection and culture of plants, pest control, turf management, and selection and use of tools and equipment.

Ag 82 - 3 units
Soils and Fertilizers
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Fundamentals of plant, soil, water, and fertilizer relations; course is primarily designed for those employed in the landscape industry or other agriculture fields who desire further training in the agriculture sciences.

Ag 83 - 3 units
Pest and Disease Control
Prerequisite: None
1 hour lecture, 6 hours lab weekly
Symptoms, identification, and methods of control of the principle diseases, pests, and weeds of importance in agriculture and around the home; bird and rodent control; materials, equipment, and application methods, with emphasis on chemical, biological and cultural control and prevention.

Ag 84 - 3 units
Ornamental Shrubs and Trees, Vines, Ground Covers, and Flowering Plants
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Identification, growth habits, cultural requirements, and use of ornamental shrubs, vines, ground covers, and trees adapted to the climates of California and Ventura County.

Ag 85 - 3 units
Turfgrass Maintenance
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Turf varieties, identification, uses, irrigation methods and systems, fertilizers, insect, disease and weed control, mechanical equipment, and management of the major turfgrasses in California. Applications to golf courses, parks, schools, and private properties.

Ag 86 - 3 units
Operation and Operator Maintenance of Landscape Maintenance Related Equipment
Prerequisite: None
9 hours lab weekly
Selection, operation, and operator maintenance of the hand and power driven equipment used in the landscape maintenance field.

Ag 89 - 1-12 units
Landscape Maintenance Cluster
Prerequisite: None
30 hours weekly
For students who have immediate job goals in mind, this program is a full-time, all day, 30 hour per week offering. Topics covered may include landscape equipment mechanics, landscape horticulture, recreational landscape construction, park and golf course landscape maintenance, ornamentals, shrubs and ground covers, turf grasses, soils and fertilizers, and pest and disease control. Credit may be awarded for individual classes successfully completed. Course is operated on a continuous enrollment plan and graded on a credit-no credit basis. Course may be repeated for credit to a maximum of 24 units.

Ag 91ABC - 1-1-1 unit
Introduction to Pest Management
Prerequisite: None
3 hours lecture weekly (1 unit per 6 weeks)
Industry requirements, laws, regulations, Pest Control licensing - 6 weeks Safety practices, biocides, environmental issues - 6 weeks Equipment and calibrations - 6 weeks Course covers basic inform-
Consideration, in depth, of current problems in technical agriculture, as required and requested by employers and interested persons. Designed to provide flexibility to meet rapidly changing demands of the industry, and to provide sequence for existing programs.

**Ag 99ABCD - 1-2-3-4 units**

*Agriculture Work Experience*

Prerequisite: Agriculture major. Enrolled concurrently in an agriculture course related to work experience.

99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula.

Supervised off-campus placement for practical work experience related to the student's major; an opportunity to integrate classroom study with practical on-the-job experiences relevant to student's academic program and vocational goals.

**Ag 103 - 3 units**

*Plant Biology*

Prerequisite: None

2 hours lecture, 3 hours lab weekly

Practical aspects of plants and their growth, environmental relationships, physiology, structures, function, reproduction, and evolution; basic concepts of biology as illustrated by the study of plants; indepen-
dent study projects and field labs; field trips required.

Ag 104 - 4 units
Soil and Plant Nutrition
Prerequisite: None
3 hours lecture, 3 hours lab weekly
Physical, chemical, and biological properties of soil, influences on soil by climate, parent materials, topography, time, and microorganisms; methods of evaluating soil and soil use; soil, water, plant, and fertilizer relationships; fertilizer composition, manufacture, distribution, and application techniques. Field labs and trips required.

Ag 105 - 3 units
Irrigation and Surveying
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Application of good irrigation practices in agriculture. Soil, water, plant relationships; water measurement; water quality and drainage; pumps; irrigation systems. Basic surveying, land measurement, differential and profile lending; contour and plane table mapping; land surveying and identification; fundamentals of land grading; contour grading and layouts. Field trips and labs required.
Air Conditioning and Refrigeration

AC 1 - 4 units
Air Conditioning and Refrigeration Fundamentals I
Prerequisite: None
2 hours lecture, 6 hours lab weekly
Fundamental principles of air conditioning and refrigeration equipment, emphasizing variations and preferable equipment for specific applications; tools and techniques, including soldering and brazing.

AC 2 - 4 units
Air Conditioning and Refrigeration Fundamentals II
Prerequisite: AC 1
2 hours lecture, 6 hours lab weekly
Designed through lecture and study assignments to aid the student in learning advanced concepts of various refrigeration systems. Practical experience is given in dismantling, assembling, evacuating, and charging systems with some of the trade’s latest testing devices.

AC 3 - 8 units
Commercial and Industrial Refrigeration Service
Prerequisite: Completion of AC 1, 2
4 hours lecture, 12 hours lab weekly
Advanced course of study on application of skills necessary to service major air conditioning appliances, walk-in freezers, and refrigeration installations.

AC 4 - 8 units
Air Conditioning Estimating and Layout
Prerequisite: Completion of AC 1, 2, 3
4 hours lecture, 12 hours lab weekly
Sizing of equipment and layout of duct systems for residential, commercial, and industrial air conditioning systems.

AC 5 - 8 units
Hydronics - Water Treatment
Prerequisite: Completion of AC 1, 2, 3, 4
4 hours lecture, 12 hours lab weekly
Service procedures for hot water, low pressure steam, and chilled water circulating systems; repair maintenance of pumps and controls related to these systems; public relations with the public and company.

AC 89ABCD - 1-12 units
Air Conditioning and Refrigeration Cluster
Prerequisite: None
30 hours weekly
For students who have immediate job goals in mind, the program is a full-time, all day, 30 hour per week offering.
Credit awarded for courses within Air Conditioning program successfully completed. Course is operated on a continuous enrollment plan and graded on a credit-no credit basis.

AC 98 - ½-10 units
Short Courses in Air Conditioning and Refrigeration
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized workshops designed to update air conditioning and refrigeration personnel as required for in-service training in specific subject matter areas. Unit credit determined by length of instruction of the workshop as defined by current credit standards; total workshop credit limited to 10 units.
AC 99ABCD - 1-2-3-4 units
Air Conditioning and Refrigeration Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula.
Supervised off-campus placement for practical work experience related to the student’s major; an opportunity to integrate classroom study with practical on-the-job experiences relevant to student’s academic program and vocational goals.

Alcohol Studies

AlSt 98 - ½-10 units
Short Courses in Alcohol Studies
Prerequisite: None
Lecture and/or lab as required by unit formula.
Specialized workshops designed to update Alcohol program personnel and others as required for in-service training in specific subject matter areas. Unit credit determined by length of instruction of the workshop as defined by current credit standards.

AlSt 99ABCD - 1-4 units
Alcohol Studies Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula.
Supervised off-campus practical work experience related to the student’s major. An opportunity to integrate classroom study with practical on-the-job experience relevant to student’s academic program and vocational goals.

AlSt 101A - 3 units
Overview of Alcoholism: Alienation and Addiction
Prerequisite: None
3 hours lecture weekly
Study of alcohol-related problems, including relationship to alienation and change in life style, cultural and family attitudes, causes and addiction, subcultures, ethical implications and solutions.
AISt 101 BCDEFG - ½-3 units
Modules in Alcohol Studies
Prerequisite: None
3 hours lecture weekly
Class consists of six three-week modules. Students considering a major in alcohol studies may take all six modules to complete one required course in the major, or may take selected modules for elective credit. Open to any college student; not restricted to majors in alcohol studies.

AISt 102 - 3 units
Techniques of Counseling Alcohol-Related Programs
Prerequisite: AISt 101
3 hours lecture weekly
Course seeks to develop understanding of a variety of personality theories as applied to unique life style of alcoholics and to provide overview of theory and application in counseling of alcoholics.

AISt 103 - 3 units
Pharmacology of Alcoholism and Other Drugs
Prerequisite: None
3 hours lecture weekly
Fundamental principles of the action of alcohol and other drugs studied. Pharmacological and physiological implications of tolerance, habituation, and excessive consumption emphasized. Psychological, physical, cultural, and social implications presented.

AISt 104 - 3 units
Marriage and Cultural Influences
Prerequisite: None
3 hours lecture weekly
Primary emphasis is exploration of social and psychological consequences of ethnic background as contributing factors in misuse of alcohol. Further emphasis placed on lack of choice as to status, categorization in the larger society, and structural adaptations of Blacks, Chicanos, Indians, and Puerto Ricans; changing role of women, stress-producing factors in marriage, and use and misuse of alcohol by youth explored.

AISt 105 - 1-3 units
Alcohol Studies Field Experience
Prerequisite: Completion of or concurrent enrollment in Alcohol Studies course
Lecture and/or lab as required by unit formula
Experience in applied alcohol studies in community agencies such as mental health, youth correction, welfare, homes for the neglected, selected industrial settings, military bases, Alcoholics Anonymous, and other private and public agencies for prevention and treatment of alcoholics. Students supervised by credentialed instructional staff.
Anthropology

Anth 101 - 3 units
Introduction to Physical Anthropology
Prerequisite: None
3 hours lecture weekly
The human species, its origin and present biological variations, based on current evolutionary theory, fossil evidence, primate behavior, population genetics, and comparative vertebrate evolution; origin of culture and its interaction with our unique human form, intelligence, emotions, and sexuality.

Anth 102 - 3 units
Introduction to Cultural Anthropology
Prerequisite: None
3 hours lecture weekly
Study of human society with emphasis on nature and significance of culture in human life; comparisons, drawn largely from non-Western, non-industrial societies, illustrate diverse solutions to universal human problems; evolution and future of human cultures.

Anth 103 - 3 units
Introduction to Archaeology
Prerequisite: None
3 hours lecture weekly
Anthropological study of world prehistory and evolution of culture from its earliest known origins through the appearance of civilizations as revealed by archaeological record; nature of archaeological evidence and its analysis.

Anth 105 - 3 units
Sex Roles in World Cultures
Prerequisite: None
3 hours lecture weekly
Present knowledge of human evolution and ethnographic information from many cultures is applied to the evaluation of biological differences between men and women and cultural implications of changing female and male roles in modern society.

Anth 106 - 3 units
Culture and Personality
Prerequisite: One course in anthropology, psychology, or sociology
3 hours lecture weekly
Comparative study of relationship between culture and individual psychological processes. Child training and psycho-dynamics in non-Western cultures. Psychology of culture change. Personality disorders and psychotherapy studied cross-culturally.

Anth 107 - 3 units
Introduction to Medical Anthropology
Prerequisite: None
3 hours lecture weekly
Cross-cultural study of illness and healing, to include a survey of anthropological data and theory on diagnostic and curing practices in non-literate, folk, and non-Western traditional societies. Theories concerning efficacy of non-Western or "pre-scientific" medical practices from perspective of the "Western medical paradigm."

Anth 110 - 3 units
People and Cultures of the World
Prerequisite: None
3 hours lecture weekly
Comparative study of human culture and elements of culture. Selected cultures studied and compared from anthropological perspectives. Emphasis on traditional societies and phenomena of culture change resulting from contact with modern societies.

**Anth 111 - 3 units**  
**Fossil Evidence for Human Evolution**  
Prerequisite: None. Anth 101 recommended.  
3 hours lecture weekly  
Presentation and discussion of major pieces of evidence for human evolution and methods and techniques used in their study. Some topics included are history of fossil discoveries, skeletal anatomy, fossil dating techniques, and different theoretical views on human evolution.

**Anth 112 - 3 units**  
**Origins of Civilization**  
Prerequisite: None  
3 hours lecture weekly  
Presentation and discussion of evidence and theories related to the origins and development of civilizations from the perspectives of classical archaeology, prehistory, and anthropology. Data, interpretations, and theoretical models will be considered dealing with early civilizations in Egypt, Mesopotamia, the Mediterranean, China, the Americas, Africa, and Polynesia.

**Anth 113 - 3 units**  
**Ancient Civilizations of the Americas**  
Prerequisite: None  
3 hours lecture weekly  
Presentation and discussion of evidence and theories related to the origins and development of civilizations of the New World from the perspective of archaeology, prehistory, and anthropology. Data, interpretations, and theoretical models will be considered dealing with the early civilizations and proto-civilizations in Mesoamerica, South America, and North America.

**Anth 189A-Z - ½-3 units**  
**Topics in Anthropology**  
Prerequisite: None  
Lecture and/or lab as required by unit formula  
Courses considering specialized, specific topics in anthropology which are not covered in the general Anthropology offerings. Topics developed to date are listed below:

**Anth 189A - North American Indians**  
A survey of North American Indian cultures including prehistory, adaptations, and social, political, and religious beliefs. The effects of European contact and the situations of contemporary native Americans will be considered.

**Anth 189B - Egyptology:**  
**Ancient Egyptian Culture and Civilization**  
An introduction to the study of ancient Egyptian culture from the perspectives of anthropology, archaeology, and ethnohistory. Although the Archaic, Pre-Dynastic, and Post-Dynastic periods will be discussed, the main emphasis of the course is on the fluorescent culture of Dynastic Egypt, the Old, Middle, and New Kingdoms.
Art

Art 98A-Z - ½-10 units
Short Courses in Art
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various disciplines within art.

Art 101 - 3 units
Art Appreciation
Prerequisite: None
3 hours lecture weekly
One-semester survey to acquaint students with major periods and styles of art of the western world and to develop understanding of the visual arts. Recommended for the general student.

Art 102-103 - 3-3 units
Art History
Prerequisite: None
3 hours lecture weekly
Survey of the history of art of the western world from prehistoric times to the present; emphasis on techniques of producing art as well as an examination of the key figures in art history. Required of all art majors.

Art 104AB - 2-2 units
Color and Design
Prerequisite: Art 104A for 104B
1 hour lecture, 3 hours lab weekly
Basic course provides thorough background in design principles — problems in line, shape, texture, form, and color.

Art 106AB - 2-2 units
Drawing and Composition
Prerequisite: Art 106A for 106B
6 hours lab weekly
Basic drawing experience stresses graphic representation of objects through a variety of media and techniques; particular emphasis upon the fundamental means of pictorial composition.

**Art 108AB - 2-2 units**
**Painting**
Prerequisite: Art 104AB, 106AB, 108A for 108B
6 hours lab weekly
Intermediate course on structural and expressive values in contemporary painting; practice in building of form, control of pictorial order, and uses of color and light; emphasis on technical competence and individual concepts; experimentation with tradition and newer painting materials.

**Art 110AB - 2-2 units**
**Advanced Painting**
Prerequisite: Art 101, 108AB
6 hours lab weekly
Exploration of more advanced concepts in painting: examining abstract qualities in contemporary art; understanding modern philosophical trends and movements in painting; critical analysis of student works.

**Art 112AB - 2-2 units**
**Watercolor**
Prerequisite: Art 104AB and Art 106 or concurrent enrollment
6 hours lab weekly
Exploring the watercolor medium, in a variety of techniques, emphasizing new bold approaches in abstract and application to realist form.

**Art 115 - 2 units**
**Beginning Ceramics**
Prerequisite: None
6 hours lab weekly

Fundamental course in pottery making; slab and coil techniques and wheel throwing with emphasis on ceramic form and design, glazing, and craftsmanship.

**Art 116 - 2 units**
**Intermediate Ceramics**
Prerequisite: None
6 hours lab weekly
Emphasis on handbuilt and wheel-thrown forms; study of glazes and decoration techniques. Development of good crafts techniques and study of the history of ceramics past and present.

**Art 126AB - 2-2 units**
**Figure Drawing**
Prerequisite: Art 106AB
6 hours lab weekly
Drawing the human figure from live models, using many media including charcoal, pencil, conte crayon, pastels, and multi-media. Emphasis on visual observation of structure, proportions, form, compositions; use of linear and tonal concepts.

**Art 128AB - 2-2 units**
**Figure Painting**
Prerequisite: Art 108AB
6 hours lab weekly
Structural and free expressions in painting the human form — emphasis on color structuring of the human form — its relationship to nature, media, oil, acrylic, water color, mixed media.

**Art 189A-Z - ½-3 units**
**Topics in Art**
Prerequisite: None
Lecture and/or lab as required by unit formula
Courses considering specialized, specific topics in art which are not covered in the
general art offerings. Topics developed to date are listed below:

Art 189A - 3 units
The Art of Mexico.
Prerequisite: None
3 hours lecture weekly
Historical survey of the art of Mexico from pre-Columbian to the present.

Art 199AB - 1.3/1.3 units
Directed Studies in Art
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of art on an independent study basis. Assigned problems will involve library and field work. Maximum of 6 units.
Astronomy

Ast 101 - 3 units
Elementary Astronomy
Prerequisite: None
3 hours lecture weekly
Introductory course designed to familiarize students with various aspects of the subject; course covers history, tools, solar system, stars, galaxies, and black holes.

Automotive Body Repair

AB 1 - 5 units
Introduction to Automotive Body and Fender Repair
Prerequisite: None
2 hours lecture, 9 hours lab weekly
Fundamentals of auto repair, including arc and oxy-acetylene welding, roughing-out and metal finishing, use of body fillers, sanding, masking, priming, and painting techniques.

AB 2 - 5 units
Intermediate Automotive Body and Fender Repair
Prerequisite: AB 1
2 hours lecture, 9 hours lab weekly
Special problems in repair of automobiles; use of advanced techniques with materials such as steel, aluminum, and plastic; special painting methods.

AB 3 - 5 units
Estimating Auto Body Damage and Repair
Prerequisite: AB 1, 2 or equivalent
2 hours lecture, 9 hours lab weekly
Advanced course in techniques of estimating and repair of heavy auto body and chassis damage; emphasis upon business management techniques as applied to estimating repairs.

AB 4 - 5 units
Advanced Auto Body Collision and Damage Repair
Prerequisite: AB 1, 2, or equivalent
2 hours lecture, 9 hours lab weekly
Advanced course in techniques of estimating and repair of heavy damage to auto body and chassis; emphasis on automobile frame, sectioning,
straightening, and advanced welding. Student auto body projects will be in the scope of complete automotive wrecks.

**AB 98 - ½-10 units**
**Short Courses in Auto Body**
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various disciplines within the auto body repair industry.

**AB 99ABCD - 1-2-3-4 units**
**Autobody Work Experience**
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula.
Supervised off-campus practical work experience related to auto body collision repair.

---

**Automotive Mechanics**

**AM 1 - 4 units**
**Automotive Service Industry and the Four Cycle Engine**
Prerequisite: None
2 hours lecture, 6 hours lab weekly
Introduction to automotive repair industry, including tools, safety, hardware, and principles of the four cycle engine, its components, systems, and construction; includes the disassembly, repair and reassembly of automotive engines, valve grinding, measuring, and testing procedures.

**AM 2 - 3 units**
**Automotive Cranking and Charging Systems**
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Study of the automotive charging and cranking systems beginning with electricity and magnetism and progressing to testing procedures and equipment used to troubleshoot and diagnose problems within systems.

**AM 3 - 6 units**
**Engine Tune-Up and Diagnostic Procedures**
Prerequisite: None
3 hours lecture, 9 hours lab weekly
Course covers automobile tune-up procedures, ignition systems, fuel systems, and use of various testing instruments such as oscilloscope and Infrared Exhaust Analyzer.

**AM 4 - 3 units**
**Automotive Emission Control**
Prerequisite: None
3 hours lecture weekly
Course covers a brief history of air pollution, automotive emission control, laws, and control systems such as crank case, exhaust, evaporative loss, Nox, and retro-fit devices; also use of infrared and other test equipment and preparation for State Emission Control Installer License.

**AM 5 - 3 units**
**Brake Mechanics**
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Study of automobile brake systems includes hydraulics and friction principles, drum and disc brakes, and the operation of shop equipment, tools, and gauges. Prepares student for California Class C brake license test.

**AM 6 - 3 units**
**Front End Mechanics**
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Course teaches procedures of automotive wheel alignment, wheel balancing, component repair and replacement.

**AM 10 - 3 units**
**Fundamentals of Auto Mechanics**
Prerequisite: None
3 hours lecture weekly
Comprehensive overview of the automobile, including the systems, basic operating principles, and repair procedures. Systems included are ignition, charging, cranking, cooling, fuel, lubricating, brakes, and front end.

**AM 11 - 1 unit**
**Minor Tune-Up**
Prerequisite: None
3 hours lab weekly
Teaches students techniques necessary for minor electrical and fuel system procedures, using non-sophisticated tools and equipment.

**AM 12 - 2 units**
**Automotive Air Conditioning**
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Comprehensive study of the principles of operation and theory of automotive air conditioning. Course offers a study of design features of each manufacturer to include servicing, troubleshooting, and diagnosis. Students given practical application for servicing, repair, and diagnosis.

**AM 13 - 3 units**
**Tune-Up Clinic**
Prerequisite: AM 10
2½ hours lecture, 1½ hours lab weekly
Detailed coverage of automotive tune-up including use of sophisticated, specialized test equipment.

**AM 14 - 4 units**
**Brake and Front End Repair**
Prerequisite: None
2 hours lecture, 6 hours lab weekly
Teaches the techniques of servicing conventional and disc brake systems, and necessary theory and practical experience to accomplish front end suspension repair, wheel alignment, and wheel balancing.

**AM 20 - 3 units**
**NIASE Mechanics Certification**
Prerequisite: Major in automotive or employment in auto trade recommended
3 hours lecture weekly
For mechanics employed or auto mechanics majors who are preparing to take NIASE (National Institute for Automo-

**AM 21 - 3 units**
**Clean Air Tune-Up**
Prerequisite: Enrollment in or completion of emission control or tune-up courses or employment in automotive services industry. 3 hours lecture weekly
Vehicle low emission tune-up and repair training to qualify mechanics for mandatory Vehicle Inspection Program.

**AM 89 - 1-12 units**
**Imported and Domestic Automotive Mechanics**
Prerequisite: None 30 hours weekly
For students who have immediate job goals in mind, program is a full-time, all day, 30 hour per week offering. Topics covered may include engine overhaul, electrical systems, tune-up, emission control, brakes, front-end alignment. Credit may be awarded for courses within Automotive Mechanics program successfully completed. Course is operated on a continuous enrollment plan and graded on a credit-no credit basis. May be repeated for credit up to 36 units.

**AM 98 - ½-10 units**
**Short Courses in Automotive Mechanics**
Prerequisite: None Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in various disciplines within the auto repair industry.

Length of course determines unit credit.

**AM 99ABCD - 1-2-3-4 units**
**Automotive Mechanics Work Experience**
Prerequisite: None 99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula. Supervised off-campus practical work experience related to automotive service and repair.
Biology

Biol 98 - ½-10 units
Short Courses in Biology
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various disciplines with the Biological Sciences.

Biol 101 - 4 units
Principles of Biology
Prerequisite: Chem 20 or Chem 101 or equivalent
3 hours lecture, 3 hours lab weekly
Introduction to principles of molecular and cellular biology and diversity of organisms; designed for biological science and pre-professional majors.

Biol 102 - 4 units
Principles of Biology
Prerequisite: Biol 101 or equivalent with minimum grade of C
3 hours lecture, 3 hours lab weekly
Organismic and population biology, designed for biological science and pre-professional majors.

Biol 103 - 4 units
General Biology
Prerequisite: Not recommended for biology majors nor students who have completed or are enrolled in a Botany or Zoology course; not open to students enrolled in or who have completed Biol 101 or 102.
3 hours lecture, 3 hours lab weekly
Lectures and lab exercises deal with the cell, diversity of organisms, nutrition, respiration, circulation, genetics, reproduction, embryology, evolution, ecological relationships, and biogeography.

Biol 105 - 5 units
General Botany
Prerequisite: None
3 hours lecture, 6 hours lab weekly
General concepts of plant form and function including characteristics and life cycles of some algae, fungi, mosses, ferns, cone-bearing and flowering plants; techniques for growing and propagation of plants.

Biol 106 - 3 units
The Human Environment
Prerequisite: None
3 hours lecture weekly
Study of biotic principles which form the basis for understanding the relationship of human beings and their environment; includes human ecology, population and pollution problems, human genetics, biology of race, and human evolution and behavior.

Biol 107 - 5 units
Anatomy and Physiology
Prerequisite: None; however, high school Biology and Chemistry are strongly recommended.
3 hours lecture, 6 hours lab weekly
Course consists of a systematic approach to structure and function of mammals, with special attention given to humans; stresses the highly-integrated nature of structure and function with special attention to pathological as well as normal states.
Laboratory is equally divided between general mammalian anatomy and selected physiological exercises with special attention to human structure and function. Designed primarily for allied health majors (registered nursing, X-ray technology, licensed vocational nursing, medical technology, etc.), some transfer majors, and Physical Education majors.
Biol 108 - 4 units
Marine Biology
Prerequisite: None; however, high school Biology and Chemistry are strongly recommended.
3 hours lecture, 3 hours lab weekly
Survey of biological activities of marine organisms; includes an introduction to physical oceanography, ecology, and energy flow within the marine environment, and some basic biological concepts using marine eco-systems as examples. Pollution and conservation of marine environment will also be considered. Satisfies lab biological science transfer requirement for universities and state colleges.

Biol 109 - 3 units
Plant and Animal Communities of California
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Study of soil, climatic and biological factors responsible for formation of plant and animal communities throughout California with special emphasis on Santa Barbara and Ventura Counties; plant and animal identification and influence of human activity on the local environment are included. Field trips will be to natural areas where plant and animal interactions can be observed.

Biol 110 - 5 units
Principles of Microbiology
Prerequisite: Chem 20; a biology course recommended
3 hours lecture, 6 hours lab weekly
Study of the distribution, structure, and metabolic activities of bacteria, fungi, algae, protozoa and viruses and physical/chemical methods in their control; lab methods in isolation, cultivation and identification of common soil, water and food microbes; principles of disease transmission, prevention, and immunity.

Biol 111 - 4 units
General Human Anatomy
Prerequisite: None. Previous biology course recommended.
3 hours lecture, 3 hours lab weekly
Study of the gross and microscopic anatomy of organ systems based on laboratory dissection of the cat and demonstration of the dissected human cadaver. Prepared slides, models, charts, and other classroom aids are used.

Biol 112 - 4 units
Human Physiology
Prerequisite: Chem 20 or equivalent and Biol 111
3 hours lecture, 3 hours lab weekly
Study of the underlying physiological processes involved in the functioning of the organs and systems of the human body. Lab experiments and demonstrations to illustrate basic physiological principles and techniques.

Biol 198 - 1/2-10 units
Topics in Biology
Prerequisite: None
Lecture and/or lab as required by unit formula
Designed to meet specific needs of college and community, as required and requested by persons whose needs in this area are not met by present course offerings.
Business

Bus 2 - 3 units
Preparation for Accounting
Prerequisite: None
2 hours lecture, 3 hours lab weekly
An extensive presentation of the debit-credit principle as applied to double-entry bookkeeping, and to journalizing and posting; provides training for those who need some knowledge of bookkeeping to prepare for advanced courses in accounting.

Bus 4 - 3 units
Analysis of Financial Statements
Prerequisite: Bus 101A or 101B
3 hours lecture weekly
Basic considerations in analysis of balance sheets and income statements, ratios, analysis by internal and external comparisons, consolidated statements, budgets, and projections.

Bus 5 - 3 units
Personal Finance
Prerequisite: None
3 hours lecture weekly
Basic course designed to improve management of personal financial affairs; problem solving and practical experience in development of budgets, investments, insurance, loans, taxes, social security, etc.

Bus 6 - 3 units
Individual Income Tax Accounting
Prerequisite: None
3 hours lecture weekly
Federal and California income tax theory for individual taxpayers. Capital gains and sale of residence among topics discussed.

Bus 7 - 2 units
Income Tax Accounting Workshop
Prerequisite: None
1 hour lecture, 3 hours lab weekly
A non-technical presentation of information needed in preparing returns for individuals, partnerships, and corporations, with emphasis on the individual's return.

Bus 8 - 2 units
Voluntary Income Tax Assistance
Prerequisite: None
Lecture and/or lab as required by unit formula
VITA program includes professionally-trained volunteers who will assist in the preparation of income tax returns for individual residency in the low income areas of the community. (The course will be taught in the evening.)

Bus 9 - 3 units
Corporate Income Tax Accounting
Prerequisite: Bus 6 or Bus 101A recommended, or equivalent work experience
3 hours lecture weekly
Federal and California income tax theory for corporations, partnerships, estates, and trusts. Tax planning will be emphasized.

Bus 11 - 3 units
Survey of Business Law
Prerequisite: None. Not open to students who have completed Bus 111A or Bus 111B with a grade of C or better
3 hours lecture weekly
Designed for the non-transfer student, course covers development of business law, methods of its enforcement, contracts,
negotiable instruments, sales, bailments, and agency employment.

**Bus 12 - 3 units**  
**Consumer Law**  
Prerequisite: None  
3 hours lecture weekly  
Law for the consumer, surveying citizens' rights and obligations in our society; practical application of law to common business transactions. Guest speakers when appropriate.

**Bus 14 - 2 units**  
**Family Risk Management**  
Prerequisite: None  
2 hours lecture weekly  
Provides students with ability to successfully deal with a variety of consumer risks. Items to be covered include civil liability and the law; property risks; home, auto, medical, and life insurance; Social Security and estate planning.

**Bus 15 - 3 units**  
**Small Claims and Civil Procedures**  
Prerequisite: None  
3 hours lecture weekly  
Procedures for collecting money through small claims court and civil court. Discusses how to act, prosecute, or defend oneself in small claims court and procedures in the event of civil suit.

**Bus 20 - 3 units**  
**Public Relations**  
Prerequisite: None  
3 hours lecture weekly  
Covers essentials for organizing and operating a public relations program; includes study of the relations of the community, customers, stockholders, and news media; evaluates communication tech-
iques used to improve public relations and create a favorable public image.

**Bus 21 - 3 units**  
**Installment Credits**  
Prerequisite: None  
3 hours lecture weekly  
Qualifications of installment credit, loan interview techniques, installment sales and inventory, financing, servicing loans, advertising, and business development. Guest speakers when appropriate.

**Bus 22 - 3 units**  
**Principles of Bank Operations**  
Prerequisite: None  
3 hours lecture weekly  
Covers fundamentals of bank functions; study of bookkeeping operations involving the day to day banking activities, various bank services such as loans, savings, trusts, legal considerations, the Federal Reserve System, and related government controls. Guest speakers when appropriate.

**Bus 23 - 3 units**  
**Commercial Bank Teller Training**  
Prerequisite: None  
3 hours lecture weekly  
Covers commercial banking operations; negotiable instruments utilized by commercial banking; provides the student with capability to recognize a check and various kinds of endorsements, proper cash control, and delineation of duties of teller window operation. Guest speakers when appropriate.

**Bus 30 - 3 units**  
**Business Mathematics**  
Prerequisite: None  
3 hours lecture weekly
Review of basic fundamentals, speedbuilding, thought problems to prepare students for complex business-oriented problems; computations include payroll taxes, discounts, and interest calculations.

**Bus 31 - 3 units**  
**Calculating Machines**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Development of usable skill in the operation of the 10-key printing calculator, the electronic printing calculator, and the electronic display calculator with memory features. Practice is given in solving complex business problems.

**Bus 32 - 4 units**  
**Grocery Checking**  
Prerequisite: None  
3 hours lecture, 3 hours lab weekly  
Course is to train or retrain persons for gainful employment as operators of cash registers with emphasis on proper checkstand procedure. Students will be qualified to meet entry level standards of the retail checking industry.

**Bus 33 - 2 units**  
**Marketing Field Experience**  
Prerequisite: Bus 130 and Bus 131 (may be taken concurrently)  
2 hours lecture weekly  
Discussion, investigation, and analysis of trends, operations, and practices related to students' career objective and training station work and assignment. Work experience in distributive occupation leading to mid-management level position; trainee spends minimum 15 hours weekly on-the-job. Students must sign up concurrently for Work Experience, Bus 99C.

**Bus 40 - 3 units**  
**Business English**  
Prerequisite: None  
3 hours lecture weekly  
Develops competency in fundamentals and mechanics of preferred Business English usage, including grammar, sentence structure, punctuation, and written expression; provides students with background to write business letters and business reports.

**Bus 98A-Z - ½-10 units**  
**Short Courses in Business**  
Prerequisite: None  
Lecture and/or lab hours as required by unit formula  
Specialized topics designed to inform or update interested persons in various disciplines within the field or business. Unit credit determined by length of courses.

**Bus 99ABCD - 1-2-3-4 units**  
**Business Work Experience**  
Prerequisite: None  
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.  
Lab hours as required by unit formula  
Supervised off-campus placement for practical work experience related to the student's major (this includes all business majors, data processing majors and real estate majors). An opportunity to integrate classroom study with practical on-the-job experience relevant to student's academic program and vocational goals.

**Bus 101A - 3 units**  
**Accounting Principles**  
Prerequisite: None  
3 hours lecture weekly  
Basic principles of accounting as a foundation for advanced study, and as a vocational skill; accounting cycle, vouchers
system; problems involved in accounting for notes, expenses, assets, payroll, and for sole proprietorship, partnership, corporation, or manufacturing enterprises.

**Bus 101B - 3 units**  
**Accounting Principles**  
Prerequisite: Grade of C or better in Bus 101A  
3 hours lecture weekly  
Continues and concludes introductory phase of accounting; surveys accounting problems and procedures unique to partnerships and corporations; includes sections on managerial financial analysis for decision-making in business and the Federal Income Tax.

**Bus 102 - 3 units**  
**Managerial Accounting**  
Prerequisite: Bus 101A  
3 hours lecture weekly  
Course emphasizes how accounting data can be interpreted and used by management in planning and controlling business activities of the firm; use of accounting data by investors is discussed wherever appropriate.

**Bus 111A - 3 units**  
**Business Law I**  
Prerequisite: None. Sophomore standing recommended  
3 hours lecture weekly  
Includes a general review of law and society and specifically stresses the law of contracts, personal property and bailments, consumer protection, real property, and estates and wills.

**Bus 111B - 3 units**  
**Business Law II**  
Prerequisite: None  
3 hours lecture weekly  
Includes study of agency and employment, sales, insurance, partnerships, corporations, negotiable instruments, bankruptcy, and the interrelationship of government and business.

**Bus 120 - 3 units**  
**Introduction to Business**  
Prerequisite: None  
3 hours lecture weekly  
Course examines important concepts of business including investments, insurance, real estate, budgeting, and accounting, and laws affecting proprietorships, partnerships, and corporations.

**Bus 121 - 3 units**  
**Business Organization and Management**  
Prerequisite: None  
3 hours lecture weekly  
Basic functions of a business organization and manager’s responsibilities in planning, organizing, directing, controlling, coordinating, and executing the organization’s objectives.

**Bus 122 - 3 units**  
**Personnel Management and Human Relations**  
Prerequisite: None  
3 hours lecture weekly  
Study of employer-employee relationships, recruiting, resumes, selection, training, development, morale, wage and salary administration, unions, job evaluation, and fringe benefits.

**Bus 123 - 3 units**  
**Small Business Management**  
Prerequisite: None  
3 hours lecture weekly  
Role of the small business person in the American economy, training in the various
functions of business including organizing and staffing, advertising, selling, budgeting, and personnel for retail stores, service firms, and industrial organizations. Guest speakers when appropriate.

**Bus 124 - 3 units**
**Management Information Systems**
Prerequisite: None
3 hours lecture weekly
Analysis and design of an information retrieval system for management decision-making based upon computer techniques; file organization, electronic data processing and integrated data processing are included.

**Bus 130 - 3 units**
**Sales Techniques**
Prerequisite: None
3 hours lecture weekly
Covers fundamental principles of wholesale and specialty selling, with emphasis on the techniques of selling; areas emphasized are sales personality, sales planning, securing prospects, counseling buyers, handling objections, and learning public relations. Speakers and films where appropriate.

**Bus 131 - 3 units**
**Retail Merchandising**
Prerequisite: None
3 hours lecture weekly
Merchandising activities in small and large businesses are considered from the standpoint of merchandising control and budgeting, buying and selling, leasing, distributing, and advertising. Speakers and films where appropriate.

**Bus 132 - 3 units**
**Marketing Management**
Prerequisite: None
3 hours lecture weekly
Market management from the viewpoint of the manager who researches and plans the product, organizes staff, and controls sales, advertising, and channels of distribution. Case problem approach is emphasized.

**Bus 133 - 3 units**
**Advertising**
Prerequisite: None
3 hours lecture weekly
Practical application of principles of advertising for large and small businesses; includes advertising theory, layout production, printing, and production processes.

**Bus 135 - 3 units**
**Retail Store Management**
Prerequisite: Bus 131
3 hours lecture weekly
Principles and practices used in management of retail stores; comparative analysis of retail institutions on basis of initial requirements, facilities organization, staffing, sales promotion, and customer services.

**Bus 136 - 3 units**
** Buying and Store Operation Lab**
Prerequisite: Concurrent enrollment in Bus 131.
6 hours lecture weekly
On-the-job experience in student store. Student will work with advertisement, promotion, selling, merchandising products in student store.
Bus 140 - 3 units
Business Communications
Prerequisite: None
3 hours lecture weekly
Applies practical psychology in dealing with people through business correspondence; gives practice in writing basic types of letters used in business; inquiry, response, sales, order, remittance, customer relations, and employment techniques.

Chemistry

Chem 10 - 3 units
Introductory Chemistry. Our Chemical Environment
Prerequisite: None
3 hours lecture weekly
Descriptive course emphasizes modern chemical theory and its contribution to an understanding of the physical environment, particularly as it affects the social and economic decisions of human kind. Designed for the non-science major.

Chem 20 - 5 units
Elementary Chemistry
Prerequisite: Math 11, 11R, or equivalent
4 hours lecture, 3 hours lab weekly
Introductory course in chemistry stressing basic principles of atomic and molecular structure, periodic table and states of matter, as well as quantitative techniques involved in elementary chemical calculations; some discussion of nuclear, organic, and biochemistry. Introduction to lab techniques with experiments illustrating principles covered in lectures.

Chem 101 - 5 units
General Chemistry I
Prerequisite: Chem 20 or high school chemistry with a grade of C or better, Knowledge of algebra.
3 hours lecture, 6 hours lab weekly
Fundamental principles and theories of chemistry with special emphasis on calculations of solution chemistry, stoichiometry, chemical equilibrium and oxidation-reduction; includes discussion of quantum mechanical model of the atom,
kinetic-molecular theory, and periodic table. Lab designed to develop quantitative relationships through experiments, and to introduce inorganic preparative procedures.

**Chem 102 - 5 units**  
**General Chemistry II**  
Prerequisite: Chem 101 with a grade of C or better  
3 hours lecture, 6 hours lab weekly

Continuation of Chem 101 with introductory matter on electrochemistry thermodynamics, radiochemistry, and descriptive chemistry of common elements; a short section on organic chemistry is included. Lab includes qualitative analysis and thermochemistry, and further develops inorganic preparation techniques.
Child Development

CD 98A-Z - ½-10 Units
Short Courses in Child Development
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in Child Development.

CD 101 - 3 units
Introduction to Education
Prerequisite: None
3 hours lecture weekly
For those seeking careers in education, an analysis of educational programs for children; history and philosophy of educational programs — preschool, elementary, and secondary.

CD 103 - 3 units
Programs for Young Children
Prerequisite: None
3 hours lecture weekly
Course offers an introduction to various kinds of schools for young children, their histories, philosophies, and program emphases. Curriculum areas covered, along with organization of materials and resources. Teaching techniques based upon understanding the young child as an active learner examined. Observations required. Field trips and negative TB or chest X-Ray required.

CD 104 - 3 units
Child Growth and Development I
Prerequisite: None
3 hours lecture weekly
Study in depth of social, emotional and physical development of the normal child in relation to home and early years of school; special attention to prenatal and infant development.

CD 105 - 3 units
Child Growth and Development II
Prerequisite: None
3 hours lecture weekly
Knowledge and understanding of how the social, intellectual, physical and emotional growth of the child affects the child from school age through adolescence; emphasis on the relationship of childhood development to the child’s later functioning academically, psychologically and socially in school, with peers, and in the family.

CD 106 - 3 units
Child, Family, and Community
Prerequisite: None
3 hours lecture weekly
Patterns of child-rearing in contemporary society. Interaction of family and community action. Individual and social resources for family health and welfare and improving child development. Significance of personal and social values in family life and community action.

CD 107 - 3 units
Cross-Cultural Experiences with Children and Families
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Course considers cross-cultural basis of human experience; prejudice, ethnicity, and values clarification are dealt with in relation to cultural identity. Opportunity for individual study in areas of special interest.
related to children and families in a cross-cultural context.

**CD 108 - 3 units**  
*The Exceptional Child*  
Prerequisite: None  
3 hours lecture weekly  
Characteristics and problems of the mentally retarded, socially-handicapped, and emotional child will include discussion and study of issues and research problems encountered in these specific areas as well as the intellectually-gifted child. (Co-numbered with Psych 111)

**CD 111 - 3 units**  
*Child Development Principles and Practicum I*  
Prerequisite: Completion or current enrollment in CD 103, 104, and one course in creative experiences (CD 131-134).  
2 hours lecture, 3 hours lab weekly  
Basic principles of child development programs and their application to development of appropriate school experience for young children covered. A variety of learning experiences considering environment, materials and equipment, play routines in relation to child needs discussed. Observation and limited participation in preschool classroom included. Field trips and negative TB test or chest X-ray required.

**CD 112 - 3 units**  
*Child Development Principles and Practicum II*  
Prerequisite: CD 111  
2 hours lecture, 3 hours lab weekly  
Participation in preschool classroom 3 hours per week. Opportunity for supervised practice in planning and guiding play, learning, and children's routine living activities. Emphasis on experiences which lead to increasing skill in dealing effectively with group and individual behavior. Focus on evaluation and prescribing for individual child's needs. Field trips and negative TB test or chest X-ray required.

**CD 115 - 3 units**  
*Management for Child Development Programs: Administration and Supervision*  
Prerequisite: None  
3 hours lecture weekly  
Preparation for administering child development programs including management principles related to licensing and standards, budgeting, space and equipment, hiring and evaluating practices, staff relationships, and parent and community involvement, including organizational requirements to fulfill goals of the program.

**CD 120ABCD - 2-2-2-2 units**  
*Parent Education*  
Prerequisite: None  
1 hour lecture, 3 hours lab weekly  
Introductory course for adults and parents participating in the Day Care Center to gain insight into child development and learning theory as it applies to their child and children in general. Field trips and negative TB test or chest X-ray required.

**CD 129 - 3 units**  
*Child Nutrition, Health, and Safety*  
Prerequisite: None  
3 hours lecture weekly  
Instruction is given in health protection, resources provided by home, school, and community. Emphasis is placed on the study of nutritional
needs, health and safety practices, and characteristics of good health as well as recognition of symptoms of communicable diseases. Habits and attitudes essential for the general physical and mental health of teacher, parent, and child are developed in this course.

CD 130 - 3 units
Parent/Child Interaction
Prerequisite: None
3 hours lecture weekly
Theories relating to small group interactions; understanding of self and others for more effective family relationships, interpersonal and small group interaction. Individual assessments regarding developmental problems. May be repeated for credit.

CD 131 - 3 units
Art in Early Childhood
Prerequisite: None
3 hours lecture weekly
Course aimed at developing awareness and sensitivity of the nursery school teacher and understanding of stage-by-stage development of the preschool child. Use of teacher and student demonstrations, visual aids including films, and field trips.

CD 132 - 3 units
Science in Early Childhood
Prerequisite: None
3 hours lecture weekly
Methods of enriching the child’s exposure to the natural and physical world. Using basic science equipment and developing practical materials as well as reference materials for school and teacher included. Focus on problem-solving and inquiry approaches to the in-

volvement of young children in first-hand exploration of their environment.

CD 133 - 3 units
Language Arts in Early Childhood
Prerequisite: None
3 hours lecture weekly
Developing language arts and literature experiences for young children. Explores experiences which support and extend children’s ability to use language as a means of communication, medium of creative expression, and tool in development of logical thought. Includes games, puppetry, flannel board material, storytelling, and children’s literature.

CD 134 - 3 units
Movement and Music in Early Childhood
Prerequisite: None
3 hours lecture weekly
Principles and methods of providing movement and musical experiences for young children. Ways of providing creative experiences in body movement and dance as well as development of skills in using simple musical techniques.

CD 189 - ½-10 units
Topics in Child Development
Prerequisite: None
Lecture and/or lab as required by unit formula
Courses considering specialized, specific topics in child development which are not covered in the general Child Development offerings.
CD 199AB - ½-3/½-3 units
Directed Studies in Child Development
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for selected students interested in furthering their knowledge of child development on an independent basis. Assigned problems will involve library, lab, and field work. Maximum of 6 units.
Diesel Mechanics

DM 1 - 2 units
Hand Tools and Shop Skills
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Selection, care, and use of hand and small power tools common to diesel mechanics; shop safety and proper use of shop equipment also emphasized. Hardware identification, threading, and drill sharpening included.

DM 2 - 2 units
Basic Engine Theory
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Course provides instruction on nomenclature, relationship of parts, component systems identification, and principles of diesel and gasoline engines, including training in theory and construction of various diesel and gasoline engine systems in laboratory situation.

DM 3 - 2 units
Engine Component Systems
Prerequisite: DM 1 or equivalent
1 hour lecture, 3 hours lab weekly
Thorough study of variations in design of diesel and gasoline engines with emphasis on constructional features, types, and engine components. Practical training given in cooling air induction, lubrication, and governing system identification, maintenance and service.

DM 4 - 4 units
Engine Overhaul and Repair
Prerequisite: DM 1 and DM 2
2 hours lecture, 6 hours lab weekly
Training given in proper procedures for disassembly, inspection of parts, measurements, repairs and tests, reassembly, analysis of malfunctions, and efficiency of making repairs to diesel and gasoline engines; valve servicing repair and diesel injection system repair included.

DM 5 - 2 units
Engine Tune-Up and Troubleshooting
Prerequisite: DM 4 or equivalent
1 hour lecture, 3 hours lab weekly
Course provides training in principles and fundamentals of correct engine tune-up procedures for gasoline and diesel engines. Various adjustment and repair operations performed on diesel and gasoline engines so students gain knowledge and understanding of problems involved in tune-up and troubleshooting. Various testing equipment included to diagnose and correct problems; diesel fuel system lab experience included.

DM 6 - 4 units
Electrical System Theory
Prerequisite: DM 1
2 hours lecture, 6 hours lab weekly
Course provides training in fundamentals of electricity as applied to heavy vehicle repair; theory of operation of vehicular components such as batteries, generators, alternators, regulators, ignition systems, magnetos, and accessory equipment covered; lab examination and teaching of electrical components included.

DM 7 - 4 units
Electrical System Troubleshooting and Repair
Prerequisite: DM 1 or equivalent
2 hours lecture, 6 hours lab weekly
Diagnostic procedures used
with modern test equipment to analyze electrical system problems; basic methods of testing alternators, generators, regulators, starters, batteries, ignition systems, and components while in the vehicle are included. Lab training provided in troubleshooting and repairing of items on actual equipment.

**DM 8 - 2 units**  
**Power Trains**  
Prerequisite: DM 1 or equivalent  
1 hour lecture, 3 hours lab weekly  
Course provides training in fundamentals and principles of power trains and components as applied to heavy vehicle repair; lab work offered in this course provides training on clutches, transmissions, drive-shafts, final drives, and axle assemblies.

**DM 9 - 2 units**  
**Power Train Overhaul and Repair**  
Prerequisite: DM 8 or equivalent  
1 hour lecture, 3 hours lab  
Lab training provided in power train components on actual equipment in heavy vehicles and tractors; overhaul and repair of clutches, transmissions, drive-shafts, final drives, and axle assemblies experienced while methods of removal, inspection, disassembly, reassembly, and adjustment are practiced.

**DM 10 - 2 units**  
**Steering Systems Overhaul and Repair**  
Prerequisite: DM 1 or equivalent  
1 hour lecture, 3 hours lab weekly  
Course provides training in mechanical, power steering, and friction clutch assemblies on trucks and tractors; inspec-

---

**DM 11 - 2 units**  
**Hydraulic Systems, Brakes, and Air Systems Overhaul and Repair**  
Prerequisite: DM 1 or equivalent  
1 hour lecture, 3 hours lab weekly  
Lab training provided in power, pneumatic, hydraulic, and vacuum brakes; principles of operation and service procedures of power hydraulic systems included.

**DM 20 - 3 units**  
**Diesel Engines**  
Prerequisite: None  
2½ hours lecture, 1½ hours lab weekly  
Course is designed to present various topics within the diesel engine repair industry. Some of the topics covered are diesel engine theory, construction features, fuel systems, engine tune-up, and troubleshooting.

**DM 89 - 1-12 units**  
**Diesel/Heavy Vehicle Mechanics Cluster**  
Prerequisite: None  
30 hours weekly  
For students who have immediate job goals in mind, program is a full-time, all-day, 30 hours per week offering. Topics covered may include basic engine theory, engine tune-up, electrical systems, power trains, and hydraulics and equipment components. Credit may be awarded for courses within Diesel Mechanics program successfully completed. Course operated on continuous enrollment plan and graded on credit-no credit basis. May be repeated for credit to a maximum of 36 units.
DM 98 - ½-10 units
Short Courses in Diesel Mechanics
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in various disciplines within the Diesel repair industry. Length of course determines unit credit.

DM 99ABCD - 1-4 units
Diesel Mechanics Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula.
Supervised off-campus placement for practical work experience related to the student's major. An opportunity to integrate classroom study with practical on-the-job experience relevant to the student's academic program and vocational goals.

Economics

Econ 1 - 3 units
The American Economy
Prerequisite: None
3 hours lecture weekly
Survey of the American economy with emphasis on development, functioning, and significance of economic institutions of concern to citizens. The monetary system, consumer-producer relationships, role of government and fiscal policy, business cycle, international funds, and unemployment are examined in detail.

Econ 2 - 3 units
Introduction to Business and Economics
Prerequisite: None
3 hours lecture weekly
Course explores important concepts of business and economics by applying them to today's events in the world, the US, and Ventura County. Ideas about profits, supply and demand, money, insurance, costs, pricing, and management are examined. Emphasis on practical use of these concepts in one's everyday life; this class might be called Concepts of Business.

Econ 3 - 3 units
Economics of Local Government
Prerequisite: None
3 hours lecture weekly
Course examines economics of both public and private goods; economics of the government structure of Ventura County, including tax structure.
Econ 101 - 3 units
Principles of Macroeconomics
Prerequisite: None
3 hours lecture weekly
Students will develop a method of thinking about daily events by exploring macroeconomic theory and applying it to current issues. An examination of economic growth and of our economy as a circulatory system; reasons for unemployment and inflation. Students will also analyze the taxing, spending, and money policies used by the government to affect the economy and analyze use of money and banking in our economy.

Econ 102 - 3 units
Principles of Microeconomics
Prerequisite: None
3 hours lecture weekly
Students will develop a method of thinking about daily events by exploring microeconomic theory and applying it to current issues. Demand and supply forces that determine prices and the effects of these prices on human behavior; how big and small businesses make their pricing and production decisions and how those decisions affect society. Economic reasons for environmental pollution and possible solutions from the point of view of cost-benefit analysis. Students also study distribution of national income, coordination of international trade, and creation of periodic crises in the international monetary system.

Econ 199AB - 1-3/1-3 units
Directed Studies in Economics
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for the curious and responsible student who has already demonstrated sufficient proficiency in economics. Intent is to permit by means of independent study student's further pursuit of economics. Maximum of 6 units.
Energy Conservation

EC 1 - 3 units
Energy Conservation and Alternate Energy Sources
Prerequisite: None
3 hours lecture weekly
To provide knowledge of history and development of resources presently being used as sources of energy, alternate methods of energy generation, and various energy conservation methods.

English and Essential Skills

ES 1-4 - 3-3-3-3 units
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Designed for students who are deficient in basic reading and writing skills, including phonics, word recognition, vocabulary, spelling, grammar, and basic comprehension. Suitable for students with limited English. Appropriate placement will be based on reading level assessments. Course may be repeated for credit; offered on credit-no credit basis only.

ES 5-8 - 3-3-3-3 units
Developmental Reading
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Designed for students who have fundamental skills in reading, but want to improve rate, comprehension, and vocabulary. Diagnostic testing used to prescribe individualized instruction. Course may be repeated for credit; may be taken for credit-no credit.

ES 10 - 3 units
Basic English Grammar and Usage
Prerequisite: Completion of English writing assessment
2 hours lecture, 3 hours lab weekly
Course designed to give students an opportunity to learn or review the basic English grammar and usage skills; strong emphasis given to various types of complete sentence structures. Students will improve spelling, punctuation, and writing skills necessary to cope successfully with the basic
composition courses. Course offered on credit-no credit basis only.

**ES 12 - 3 units**  
**Basic Composition**  
Prerequisite: Completion of English writing assessment or ES 10  
3 hours lecture weekly  
Spelling, grammar, punctuation, sentence structure, diction-vocabulary, transitional devices, parallelism, paragraphing techniques, and theme organization will be taught and learned through numerous and varied writing assignments emphasizing techniques for improving composition. Students will receive much individual help; a diagnostic-prescriptive approach will be used.

**ES 14 - 3 units**  
**Basic Composition and Literature**  
Prerequisite: Completion of English writing assessment or passing grade in ES 12  
3 hours lecture weekly  
Student will receive personal and individual help with writing. Course focuses on reading and discussing short selections from modern popular literature. Contemporary and controversial ideas explored with emphasis on short expository compositions. Competency in paragraph writing expected. Many students will need to have taken ES 12 before ES 14; a valuable assist before taking Engl 101.

**ES 15 - 3 units**  
**Word Power/Vocabulary Development**  
Prerequisite: None  
3 hours lecture weekly  
Emphasis given to learning Greek and Latin roots and affixes as an efficient method of greatly expanding one’s vocabulary. Students receive much help in learning synonyms, antonyms, and connotative/denotative word meanings. A series of short formal talks help students appreciate history and origin of the English language. Numerous materials such as newspapers, magazine articles, puzzles, and games supplement tapes and filmstrips; principles of word formation explained.

**ES 17 - 3 units**  
**College Reading Skills**  
Prerequisite: Reading ability commensurate with high school level  
3 hours lecture weekly  
Emphasis on college-level reading materials with training in reading for major details, main ideas, drawing inferences and conclusions; considering the nature of evidence and knowledge; interpreting author’s tone and purpose. Advanced vocabulary training, rapid reading techniques with adequate comprehension; formal evaluation used to individualize instruction. Reading equipment will be used.

**ES 20ABCD - ½-1-1½-2 units**  
**Individualized Reading**  
Prerequisite: None  
Lab hours as required by unit formula  
Open to all students with low to high reading ability. Diagnostic testing will determine weaknesses and strengths in study skills, vocabulary comprehension, and speed. Assignments using various laboratory materials and equipment will be arranged on an individual contract basis, determined by test results. Students may enroll at any time; units will be
awarded on the basis of time devoted, work completed, and progress made. Course may be repeated for credit; offered on credit-no credit basis only.

ES 22 - 2 units
Reading for Pleasure
Prerequisite: None
2 hours lecture weekly
Course consists of reading experiences in both fiction and non-fiction. A variety of areas will be explored, such as travel, fantasy, myths, and folk tales. Students will develop literal comprehension as well as aesthetic and critical interpretation skills.

ES 24 - 3 units
Technical Report Writing
Prerequisite: None
3 hours lecture weekly
Training for business, technical, and engineering students in technical and scientific writing, including preparation of written reports, memoranda, and specifications; review of fundamentals of grammar and usage.

ES 25 - 2 units
Techniques of Learning and Studying
Prerequisite: None
2 hours lecture weekly
A course designed to increase student know-how, offering specific techniques in learning and study skills. This course will facilitate mastery and success in all subjects.

ES 26 - 2 units
Spelling Workshop
Prerequisite: None
2 hours lecture weekly
A course designed to improve one's ability to spell correctly. Common spelling errors, special rules, and phonetic principles will be explored. Students will work individually in areas where improvement is needed.

ES 30 - ½-3 units
Communication Skills Modules
Prerequisite: None
Lecture and/or lab as required by unit formula
Self-instructional modules in study and communication skills. Students may enroll at any time; units will be awarded on the basis of specific module selected, time devoted, work completed, and progress made. Modules may be offered on credit-no credit basis. Asterisked modules may be repeated for credit up to maximum units shown.

ES 30N - ½ unit - Notetaking
ES 30CD - 1 unit - Comprehension Development
*ES 30CP - ½-1½ units - Grammar and Punctuation Brush-Up
ES 30RP - 1 unit - Writing a Research Paper
ES 30P - 1 unit - Phonics
*ES 30SP - 1-2 units - Spelling
ES 30V - 1 unit - Vocabulary
ES 30ET - 1 unit - Writing Answers to Essay Test Questions
ES 30OTT - 1 unit - Objective Test Taking
ES 30LR - 1 unit - Using Library Resources
ES 30TT - 1 unit - Techniques of Tutoring

ES 40-43 - 4-4-4-4 units
English as a Second Language
Prerequisite: None
3 hours lecture, 3 hours lab weekly
Offers specialized help to the foreign speaker; classroom activities and lab work, which help the student control and work toward a mastery of the structure of English, are organized along the following hierarchy of language priorities: listening comprehension, read-
ing, writing, oral facility, pronunciation. Subsequent courses in the sequence put greater emphasis on higher literacy levels in reading and writing.

**ES 50 - 2 units**

**English Grammar for the Deaf**

Prerequisite: Student must be accepted into the Special Education Program. 2 hours lecture weekly.

A special class designed to teach deaf students basic English grammar with practice in writing and grammatical analysis of sentences. This class is taught in American Sign Language and intended for hearing impaired students who are sufficiently proficient in the use of sign language and who are enrolled in the Special Education Program. (Co-numbered with SL 50.)

**ES 98A-Z - ½-10 units**

**Short Courses in Essential Skills**

Prerequisite: None

3 hours lecture weekly.

Specialized topics designed to inform or update interested persons in the various disciplines within Essential Skills.

**Engl 50 - 3 units**

**Introduction to Literature**

Prerequisite: None

3 hours lecture weekly.

Introduction to different types of literature — fiction, poetry, drama — designed for students who want a taste of literature but may not be taking more advanced courses. Focuses on reading, reaction, and critical interpretation of literature through discussion and writing; designed for students who have an interest in reading.

**Engl 98A-Z - ½-10 units**

**Short Courses in English**

Prerequisite: None

Lecture and/or lab as required by unit formula.

Specialized topics designed to inform or update interested persons in English.

**Engl 101 - 3 units**

**College Composition and Literature**

Prerequisite: Completion of English writing skills assessment or passing grade in ES 12 or ES 14.

3 hours lecture weekly.

Development of skills in reading and written expression, especially expository themes, including training in research techniques and preparation of a research paper; designed to develop competence in rhetorical skills.

**Engl 102 - 3 units**

**College Composition and Literature**

Prerequisite: None. Students should have mastered material taught in English 101 — adequately supporting a thesis, organizing an essay logically with clarity of expression; style, research methods, documentation of research, college level skill in reading, comprehending, and analyzing essays.

3 hours lecture weekly.

Introduction to study of literature; short story, poetry, drama, and novel; further training in expository writing resulting from close reading and analysis of literature. Strong emphasis on student writing.

**Engl 103 - 3 units**

**Creative Writing**

Prerequisite: None. Students should have mastered spelling, grammar, punctuation, sentence, and paragraphing techniques.

3 hours lecture weekly.

Study of literary forms — short story, poetry, and drama —
presented from the standpoint of critical background and theory for each form; practice in writing original works; discussion and analysis of students’ work.

**Engl 104 - 3 units**  
**Survey of English Literature I**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Survey of English literature in its cultural framework from Anglo-Saxon times to the end of the eighteenth century, covering the heroic age, the Renaissance, and neoclassicism.

**Engl 105 - 3 units**  
**Survey of English Literature II**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Survey of English literature in its cultural and political framework from the beginning of the 19th century to the early 20th century, covering the Romantic, Victorian, Edwardian, and Georgian periods of literature.

**Engl 106 - 3 units**  
**Introduction to Fiction**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Emphasis on close critical reading of short story and novel; discussions center around importance and function of plot, characterization, atmosphere, theme, symbol.

**Engl 107 - 3 units**  
**Survey of American Literature I**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Significant American writers from the early 17th century to 1865, with emphasis on the intrinsic political, social, and intellectual trends of the periods they represent. Recommended as an elective for majors in the humanities, history, or education.

**Engl 108 - 3 units**  
**Survey of American Literature II**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Significant American writers from 1865 to present, with emphasis on the intrinsic political, social, and intellectual trends of the periods they represent. Recommended as an elective for majors in the humanities, history, or education.

**Engl 109 - 3 units**  
**Black Literature**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Analytical, in-depth study of the literature of the black experience in the United States.

**Engl 110 - 3-3**  
**Women in Literature**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Examination of images, roles, and identities of women in literature and contribution of women to a variety of literary genres.

**Engl 111 - 3 units**  
**Shakespeare**  
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Survey of plays, including romantic comedies, chronicles, tragedies, dark comedies, and romances; lectures, critical papers, and class discussions.
Engl 113 - 3 units  
*Far and Near: The Literature of the East*
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
Survey of Asian literature representing the highest achievements of the cultures of Arabia, Persia, India, China, and Japan. Emphasis is put on historical milieu, artistic forms, and contributions to modern thought.

Engl 117 - 3 units  
*Mexican Literature in Translation*
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
One semester survey of Mexican literature in translation; novel, short story, essay, poem, and song covered from pre-Columbian times to present with emphasis on the period from 1910 to present. (Co-numbered with Spn 117.)

Engl 118 - 3 units  
*Introduction to Poetry*
Prerequisite: None. Engl 101 recommended  
3 hours lecture weekly  
Introduction to lyric, narrative, and dramatic poetry; what the poet is trying to say, how he/she works in this art form, and how to enjoy poetry.

Engl 119 - 3 units  
*Introduction to Theatre*
Prerequisite: None  
3 hours lecture weekly  
Introduces drama or theatre as a literary art form, including the history of dramatic development, types of drama, how plays relate to their philosophical, historical, and cultural milieu, how plays relate to production problems, critical analysis of plays, and related production elements for the playwright. Emphasis placed upon appreciation of the theatre — past and present. (Co-numbered with ThA 101.)

Engl 120 - 3 units  
*Literature of Children*
Prerequisite: Engl 101 or 102 recommended  
3 hours lecture weekly  
Course includes readings in literature for children, how to enjoy literature as art, how to choose appropriate literature for a child's interests and reading skills, and how to appreciate illustrations in children's literature. Literature from different cultures incorporated.

Engl 189 - 3 units  
*Topics in Literature*
Prerequisite: None. Engl 101 or 102 recommended  
3 hours lecture weekly  
In-depth study of a literary period, of a major author, or of a theme in literature. Reading, discussion, lecture focusing on forces contributing to creation, appreciation, and analysis of the material. May be repeated for credit. Courses developed to date include the following:

Engl 189A - *The World of Mystery Fiction*
Exploration of the world of mystery fiction. Course emphasizes reading, enjoying, discussing, and analyzing works of detective fiction which will be seen in historical perspective.

Engl 189B - *Literature of Mysticism, Meditation, and Madness*
Mysticism, meditation, and madness as seen in a survey of modern and historical litera-
ture; these three extreme states of being are studied as methods of emotional and rational self-expression. Besides the literature, supplementary readings in psychology, religion, and philosophy will be used as additional sources.

Engl 189D - 3 units
Contemporary Pop Literature
Prerequisite: None. Engl 101 or 102 recommended
3 hours lecture weekly
Course emphasizes reading, enjoying, discussing, and analyzing current best sellers in such areas as science fiction, historical fiction, mystery fiction, biography, general nonfiction, drama, and poetry.

Engl 199AB - 1-3/1-3 units
Directed Studies in English
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for selected students interested in furthering their knowledge of English on an independent basis. Assigned problems will involve library, lab, and field work. Maximum of 6 units.
Fire Science

FSc 1 - 3 units
Introduction to Fire Science*
Prerequisite: None
3 hours lecture weekly
Introduction to the fire service and fire protection; career opportunities in fire protection and related fields; history of fire protection; fire loss analysis; public, quasi-public, and private fire protection services; specific fire protection functions; fire chemistry and physics.

FSc 2 - 3 units
Fundamentals of Fire Prevention*
Prerequisite: None
3 hours lecture weekly
Organization and scope of fire prevention; inspection procedures; recognition of fire and life hazards; solutions of fire and life hazards; enforcement procedures; public relations as affected by fire prevention.

FSc 3 - 3 units
Fire Hydraulics*
Prerequisite: None
3 hours lecture weekly
Review of applied mathematics; hydraulic laws as applied to the fire service; application of formulas and mental calculation to hydraulics and water supply problems.

FSc 4 - 3 units
Fire Company Organization and Management*
Prerequisite: None
3 hours lecture weekly

Review of fire department organization; planning, organizing, and supervising to meet needs of fire department, with emphasis on company officer's role.

FSc 5 - 3 units
Hazardous Materials I*
Prerequisite: None
3 hours lecture weekly
Introduction to basic fire chemistry and physics; problems of flammability as encountered by firefighters when dealing with fuels and oxidizers; elementary fire fighting practices pertaining to hazardous materials in storage and transit.

FSc 6 - 3 units
Building Construction for Fire Protection*
Prerequisite: None
3 hours lecture weekly
Fundamentals of building construction as it relates to fire protection. Classification by occupancy and types of construction with emphasis on fire protection features, including building equipment, facilities, fire resistant materials, and high rise considerations.

FSc 7 - 3 units
Fire Apparatus and Equipment
Prerequisite: None
3 hours lecture weekly
Fire apparatus design, specifications, and performance capabilities; effective utilization of apparatus in fire service emergencies.

FSc 8 - Fire Investigation I
Prerequisite: None
3 hours lecture weekly
Determining cause of fires (accidental, suspicious, and

*Required courses for Associate of Science degree or Fire Science Certificate. FSc 1 not required for those employed in the fire service.
incendiary); types of fires; related laws, introduction to arson and incendiaryism; recognizing and preserving evidence; interviewing witnesses and suspects; arrest and detention procedures; court procedures and giving court testimony.

**FSc 9 - 3 units**  
*Fire Protection Equipment and Systems*  
Prerequisite: None  
3 hours lecture weekly  
Study of portable fire extinguishing equipment; protection systems for special hazards; sprinkler systems; and fire detection and alarm systems.

**FSc 10 - 3 units**  
*Fire Tactics and Strategy*  
Prerequisite: None  
3 hours lecture weekly  
Principles of fire control through utilization of firefighters, equipment, and extinguishing agents on the fireground.

**FSc 11 - 3 units**  
*Explosives and Toxic Materials*  
Prerequisite: None  
3 hours lecture weekly  
Second semester course in hazardous materials covering handling, identification, and firefighting practices involving explosive, toxic, and radioactive materials in storage and transit.

**FSc 12 - 3 units**  
*Laws Relating to Fires and Firefighters*  
Prerequisite: None  
3 hours lecture weekly  
Familiarization and interpretation of national, state, and local codes; ordinances and laws which influence the field of fire prevention.

**FSc 13 - 3 units**  
*Rescue Practices*  
Prerequisite: None  
3 hours lecture weekly  
Rescue problems and techniques; emergency rescue equipment; toxic gases and chemicals, diseases; radiation hazards; care of victims, emergency childbirth, respiration and resuscitation, extrication, and other emergency problems.

**FSc 15 - 3 units**  
*Fire Service Supervision and Management*  
Prerequisite: FSc 4 or employment in the fire service  
3 hours lecture weekly  
In-depth study of current fire department management practices with emphasis on developing management skills in the individual student through use of comprehensive study and research assignments, group and individual management exercises, and group and individual problem-solving assignments.

**FSc 20 - 12 units**  
*Basic Fire Science for Recruits*  
Prerequisite: None  
Lecture and/or lab as required by unit formula  
Introduction to basic fire protection, suppression, prevention, tactics strategy, hazardous materials, equipment, and rescue.

**FSc 21 - 4 units**  
*Organization and Techniques of Fire Science Instruction*  
Prerequisite: Employment in the fire services or other field where a knowledge of instruction techniques is required.  
4 hours lecture weekly  
Review of basic concepts of learning; application of con-
cepts to planning, organizing, and managing of instructional activities. Students completing course will be issued a certificate which meets the 60 hours higher education requirement for a fully-satisfied Community College Limited Service Credential.

FSc 98A-Z - \( \frac{1}{2} \)-10 units
Short Courses in Fire Science
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized workshops designed to update fire fighting personnel as required for in-service training requirements in specific subject matter areas. Unit credit determined by

length of instruction of the workshop as defined by current credit standards: total workshop credit limited to 10 units.

FSc 99ABCD - 1-2-3-4 units
Fire Science Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.
Lab hours as required by unit formula
Supervised off-campus placement for practical work experience related to the student's major. An opportunity to integrate classroom study with practical on-the-job experience relevant to the student's academic program and vocational goals.
French

Fr 1 - 3 units
Conversational French
Prerequisite: None
3 hours lecture weekly
Introductory course in French, with emphasis on basic vocabulary and structures necessary for daily conversation. Elementary principles of grammar and usage presented. Designed for students who wish to use French in practical situations.

Fr 2 - 3 units
Conversational French
Prerequisite: Fr 1
3 hours lecture weekly
Second semester course for non-native speakers of French, designed for students who have some basic conversational French but wish to continue to work in this area. Emphasis on vocabulary building and greater oral fluency with grammar principles introduced as needed.

Fr 101-102 - 4-4 units
Elementary French
Prerequisite: None for French 101; for French 102, French 101 or 2 years of high school French.
4 hours lecture weekly
Introduction to language and culture of the French people, designed for students who have had no formal training in French. Emphasis given to oral communication, then to reading and writing; basic vocabulary and grammar studied as well as various aspects of the French culture.

Geography

Geog 101 - 3 units
Elements of Physical Geography
Prerequisite: None
3 hours lecture weekly
Mutual relationships which exist between humans and their physical environment; world patterns of natural features—climate, land forms, soils, vegetation, native animal life, water and mineral sources; map reading and interpretation. Field trips as required (may be scheduled on Saturday).

Geog 102 - 3 units
World Cultural Geography
Prerequisite: Geog 101 recommended
3 hours lecture weekly
Introduction to the broad field of geography—its objectives, principal divisions, basic principles, and applications to present-day world problems; understanding human society in relation to the earth environment with emphasis on cultural elements; geographic analysis of major world regions. Field trips as required (may be scheduled on Saturday).

Geog 103 - 3 units
Introduction to Weather and Climate
Prerequisite: None
3 hours lecture weekly
Non-technical study of the earth’s atmospheric phenomena; the basic weather elements—temperature, pressure, and moisture of atmosphere; practice in observation
of weather conditions and recording of data; investigation into causes of weather and the world climate pattern. Field trips as required (may be scheduled on Saturday).

**Geog 104 - 3 units**  
**Geography of California**
Prerequisite: None  
3 hours lecture weekly
Study of area begins with review of sequence of occupancy following first European discovery; then systematic investigation is conducted of natural factors influencing man's past and present use of the environment. Following, area is examined in detail with attention given to each sub-region, characteristics, and differentiation. Finally, man's present use of the area in obtaining raw materials, engaging in agriculture and fishing, establishing settlements, carrying out manufacturing activities, and developing transportation and communication linkages is studied.
Geol 101 - 3 units
Physical Geology
Prerequisite: None
3 hours lecture weekly
Introductory study of structure of the earth, crustal composition, and dynamic forces that shape the earth's surface. Landscape evolution and rock identification are stressed in a framework of geologic time. Course is designed to give students a better appreciation and understanding of their physical surroundings and environment.

Geol 101L - 1 unit
Physical Geology Laboratory
Prerequisite: Geol 101 or concurrent enrollment
3 hours lab weekly or an 8 week lab at 3 hours per week with four-day field trip
Introduction to study of geologic and topographic map reading and analysis; also, study of subsurface techniques utilized in determining subsurface structure as well as evolution of present-day landscape. Rock forming mineral identification and rock identification are stressed. Field trips are required.

Geol 102 - 3 units
Earth's History
Prerequisite: Geol 101 or 104
3 hours lecture weekly
Geologic history of the earth; evolution of continents, ocean basins, and major landforms; development of plant and animal life as revealed in the fossil record; emphasis on geology of Ventura basin.

Geol 103 - 3 units
Introduction to Oceanography
Prerequisite: None
3 hours lecture weekly
Broad survey of the field of oceanography, Science of the Seas, with emphasis on processes of marine geology. Discusses major fields that comprise oceanography, which include geography and geology of ocean basins and coastlines, dynamic forces of plate tectonics, characteristics and work of waves, currents, tides, properties of sea water, and methods of oceanographic exploration. Provides introduction to Marine Biology, emphasizing relationship of biotic assemblages to conditions imposed by depth, salinity, temperature, and other physical parameters.

Geol 104 - 3 units
Geology of the National Parks and Monuments
Prerequisite: None
3 hours lecture weekly
Survey of various national parks and monuments and divergent theories of their origins. Numerous park and monument features and their geologic causes, including climatic and biotic factors, are emphasized through lecture, rock specimens, and visuals.

Geol 105 - 3 units
Geology of California
Prerequisite: Geology 101 or 104
3 hours lecture weekly
Physical and historical geology of California. Consideration given to the twelve geomorphic provinces within California, their rocks and minerals, and processes which produced their varied landscapes. Stratigraphic record discussed with
particular reference to important geological formations found within the state.

**Geol 106AB - 2-2**  
**Field Geology of the Southwest**  
Prerequisite: Geol 101, 104, or 105  
Lecture and/or lab as required by unit formula  
Field investigations of geologic phenomena with emphasis on the origin and development of the geology of selected areas of the Southwest. Principal component of this course is a multi-day field trip scheduled during vacation period. Students are responsible for providing camping equipment and food. Lab fee required.

**Geol 199AB - 1-3/1-3 units**  
**Directed Studies in Geology/Oceanography**  
Prerequisite: A course in the specific field  
Lecture and/or lab as required by unit formula  
Designed for students interested in furthering their educational knowledge of geology on an independent study basis. Maximum of 6 units.

**Government Management**

**GM 14 - 3 units**  
**Organization and Management**  
Prerequisite: None  
3 hours lecture weekly  
Detailed analysis and description of how governmental organizations function and operate on a day-to-day and long-range basis. Particular attention given to operating and maintaining an organization. For example, students will learn how an organization purchases equipment; how plans are made for equipment purchase; how equipment is budgeted and maintained.

**GM 98A-Z - 1/2-10 units**  
**Short Courses in Government Management**  
Prerequisite: None  
Lecture and/or lab as required by unit formula  
Specialized short courses to update those employed in the Government Management field; content designed specifically for participants. Total short course credit limited to 10 units.

**GM 99ABCD - 1-4 units**  
**Government Management Work Experience**  
Prerequisite: None  
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula.  
Supervised off-campus practical work experience related to government management and service.
GM 101 - 3 units
Introduction to Government Administration
Prerequisite: None
3 hours lecture weekly
Introduction to elements, principles, and trends in public administration; government and the administrative process as means of accomplishing public goals.

GM 102 - 3 units
Public Personnel Administration
Prerequisite: None
3 hours lecture weekly
Describes functional requirements of human resource administration including personnel administration, supervision, and training. Emphasis on realistic treatment of actual personnel problems including principles and methods involved in recruitment, selection, and placement of employees with regard to affirmative action programs, training, experience, aptitudes, and abilities.

GM 103 - 3 units
Elements of Government Finance
Prerequisite: None
3 hours lecture weekly
Appraises usefulness of fiscal mechanism, outlines generally accepted principles of organization and procedure, and the relationships of the several fiscal functions to each other. Surveys local government fiscal policies, the appropriation process; accounting, tax, revenue, financial controls, report and analysis, budget preparation authorization and execution, planning budgeting system; intergovernmental fiscal relationships; cost analysis; and audits.

GM 104 - 3 units
Administrative Law and Procedure
Prerequisite: None
3 hours lecture weekly
Introduction to the law concerning powers and procedures of administrative agencies, transfer of power from legislatures to agencies, exercise of power by agencies, and review of administrative action by the courts.

GM 106 - 3 units
Contemporary Urban Issues
Prerequisite: None
3 hours lecture weekly
Interdisciplinary course focusing on the variety of current issues related to the urban setting, such as housing, education, law enforcement, racial conflict, pollution, land use and open space, urban renewal, and the government structure and financing necessary to meet needs of people in the urban setting. Emphasis will be placed on field research in addition to lectures and library study. (Co-numbered with Urban 106.)

GM 107 - 3 units
Introduction to Human Services
Prerequisite: None
3 hours lecture weekly
Introductory course identifying and examining multifaceted programs and activities of public and voluntary social welfare agencies and helping services; key roles of these organizations in modern society studied in depth. Students give oral and/or written reports on functions of various agencies and services, the many facets of their operations, and effects they produce on individuals and groups. (Co-numbered with Urban 107.)
GM 108 - 3 units
Human Development in the Social Environment
Prerequisite: None
3 hours lecture weekly
Analysis of developmental behaviors associated with each stage in human development and the way social environment helps or impedes this development; examines examples of disruptive influence on human development and means evolved by human service agencies to minimize these disruptive influences. Agencies and groups whose purpose is to combat various kinds of disruptive effects at different stages of human development visited for observation. (Co-numbered with Urban 108.)

GM 109 - 3 units
Urban Planning Practices
Prerequisite: None
3 hours lecture weekly
Introduces students to functions of a planning agency, nature and development of general plan and elements needed to implement general plan (circulation, housing, open spaces, land use, conservation, public buildings), and tools for general plan implementation which affect land use. Includes review of operation and problems of urban renewal. Provides working knowledge of planning techniques for individuals intending to work at a paraprofessional level in planning; recommended for students intending to work in engineering, public administration, public works, or utilities. (Co-numbered with Urban 109.)

Government Services

GS 1 - 3 units
Introduction to Government Services
Prerequisite: None
3 hours lecture weekly
Introductory course to government, its organization, and purpose. General examination of major departments and agencies of all governmental levels. As pre-entry and entry level government workers, students will learn how their particular department relates to the whole. Field trips required.

GS 2 - 3 units
Government Operations:
Procedures, Practices, Policies
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Course provides government entry-level workers instruction on how government operates on a day-to-day basis. Learning centers will be established where students learn basic governmental procedures. Students will learn how policies are implemented. Field trips to government agencies will be taken.

GS 98A-Z - ½-10 units
Short Courses in Government Services
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized short courses to update those employed in the Government Services field; content designed specifically for participants. Total short courses credit limited to 10 units.
GS 99ABCD - 1-4 units
Short Courses in Government Services
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units;
99D = 4 units. May be repeated in any
combination to a total of 16 units.
Lab hours as required by unit formula.
Supervised off-campus placement for practical work experi-
ence related to the student’s major. An opportunity to inte-
grate classroom study with practical on-the-job experience
relevant to the student’s aca-
demic program and vocational
goals.

Health Science

HS 98A-Z - ½-10 units
Short Courses in Health Science
Prerequisite: None
Lecture and/or lab as required by unit
formula
Workshops include cardio-
pulmonary resuscitation (CPR),
multi-media first aid, CPR
refresher, and first aid in-
structor; students receive Red
Cross card upon completion of
each course. Some workshops
are co-listed with Fire Science
98. Students may select a credit-
no credit option.

HS 101 - 2 units
Health and Society
Prerequisite: None
2 hours lecture weekly
Consideration of the nature and
function of health in our social
pattern; an analysis of major
health problems designed to
contribute to students’ under-
standing of their roles as indi-
viduals and as contributing
members of the community’s
efforts to implement the ad-
varces of medicine and the
health sciences.

HS 102 - 2 units
Health Concerns in Adult
Relationships
Prerequisite: None
2 hours lecture weekly
Consideration of health inter-
relationships of male/female
partnerships; birth control,
childbearing, male/female
menopauses, venereal di-
seases, female/male hormonal
cycles, prostate occurrences.
Coursework includes attitu-
dinal as well as factual health
information on partnering.
HS 103 - 2 units  
Women's Health  
Prerequisite: None  
2 hours lecture weekly  
Consideration of nature and function of women's health in our society; an analysis of major female health problems designed to contribute to students' understanding of the woman's role as an individual and contributing member of the community's efforts to implement advances of medicine and health sciences.

HS 104 - 3 units  
Family Health and Home Nursing  
Prerequisite: None  
3 hours lecture weekly  
Course consists of studying recent national trends in family health, identification and treatment of common diseases in the home; equipment, foods, and first aid methods for treating diseases, drug use, accidents and conditions involving handicapped individuals and pregnancy; and methods of preventative care against diseases in families.

HS 105 - 2 units  
Safety and First Aid  
Prerequisite: None  
2 hours lecture weekly  
Development of positive attitudes toward safety and application of concepts of what constitutes safe living; prevention of shock, unconsciousness, poisons, fractures, dressings and bandages, care and treatment of athletic injuries. Successful completion of this course qualifies for the standard or the advanced American Red Cross First Aid to the Injured certificate.

HS 106 - 2 units  
The Trainer and Athletic Injuries  
Prerequisite: None  
1 hour lecture, 3 hours lab weekly  
An introductory course in basic concepts and skills of the athletic trainer, training room practice, medical aspects of athletic training, athletic therapy modalities, strength, conditioning and rehabilitation, and diagnostic techniques; practical experience is provided in taping and for prevention and care of the athletically injured.

HS 107 - 2 units  
Perspectives on Aging  
Prerequisite: None  
2 hours lecture weekly  
Introduction to the study of aging with emphasis on physiological aspects of aging and consideration of changing human life span.
Hist 102 - 3 units
History of the United States I
Prerequisite: None
3 hours lecture weekly
Survey of creation and development of American Society to 1865. Analysis of impact of both individuals and groups, evaluation of issues of religion, race, reform, revolution, responsive government, sectionalism, and expansion. Course satisfies degree requirements in American Institutions.

Hist 103 - 3 units
History of the United States II
Prerequisite: None
3 hours lecture weekly
Evaluation of social and political adjustment from 1865 to present. Significant historical events and issues that affect contemporary Americans surveyed and analyzed by examining significant individuals and groups. Such issues and events as westward expansion, industrial development, ethnic confrontations and contributions, religious toleration, social and political reform movements, and international involvements explored. The year sequence of History 102-103 is required for history majors and recommended for other students who want a thorough survey of the political and social development of the United States; either semester may be taken independently. Course satisfies degree requirements in American Institutions.

Hist 104 - 3 units
History of California
Prerequisite: None
3 hours lecture weekly
Survey of Native American, Spanish, Mexican, and American periods of California with consideration of political, social, and cultural developments.

Hist 105 - 3 units
Introduction to Western Civilization I
Prerequisite: None
3 hours lecture weekly
Study of Western Civilization, from its beginnings through the 17th century, interrelating political and social events with art, literature, and philosophy, covering Greece, Rome, Medieval and Early Modern Europe.

Hist 106 - 3 units
Introduction to Western Civilization II
Prerequisite: None
3 hours lecture weekly
Study of Western Civilization from the 17th century to modern times; covering the Age of Democratic Revolutions, Industrial Revolution, and century of dictatorship and war. Strong emphasis is placed on cultural as well as social and political events.

Hist 107 - 3 units
History of the Mexican People in the Southwest
Prerequisite: None
3 hours lecture weekly
Survey of the history of the Méjicano from pre-Columbian period to present providing background for contemporary issues, concerns, and problems of Mexican-Americans. Emphasis on Mexican settlement of
the region and contributions of the Mexican to development of the five Southwestern states (Arizona, California, Colorado, New Mexico, and Texas). Course satisfies degree requirements in American Institutions.

Hist 108 - 3 units
Afro-American History
Prerequisite: None
3 hours lecture weekly
Analysis of the Black in the United States from African background to present with special emphasis on contemporary implications of historical events. Considers major roles played and contributions made both collectively as a people and by specific individuals in development of United States of America as well as institutions, trends, movements, and problems affecting Black America. Course satisfies degree requirements in American Institutions.

Hist 109 - 3 units
The Heritage of Mexico
Prerequisite: None
3 hours lecture weekly
Course presents major historical developments and personalities which have shaped the Mexican nation, with emphasis on culture and customs of the people throughout their history, plus important events in relationship between Mexico and United States. Significant portion of course deals with role of the Mexican and Mexican-American in contemporary USA.

Hist 113 - 3 units
Modern Russia: An Introduction
Prerequisite: None
3 hours lecture weekly
Basic social and political development of Russia since 1801, with emphasis on origins of the Bolshevik Revolution and continuity of Russian civilization.

Hist 114 - 3 units
Modern Asia: China, India, and Japan
Prerequisite: None
3 hours lecture weekly
Changes in traditional Chinese, Japanese, and Indian civilizations in the 19th century and emergence of China, India, and Japan as world powers in the 20th century.

Hist 115 - 3 units
History of the Americas I
Prerequisite: None
3 hours lecture weekly
Study of Spanish, Portuguese, French, and English conquest, exploration and colonization of the new world, and main developments in Colonial life in each area up to independence.

Hist 116 - 3 units
History of the Americas II
Prerequisite: None
3 hours lecture weekly
Study of comparative development of the American nations since independence, considering their constitutions, leadership, religions, relations with each other, and their adjustment to the principle of democracy.

Hist 117 - 3 units
History of American Women
Prerequisite: None
3 hours lecture weekly
Course provides historical approach for understanding the image of woman and her objective condition in the United States. Emphasis on how
American women were affected by Puritanism, slavery, industrialization, urbanization, and immigration. This course satisfies degree requirements in American Institutions.

**Hist 199AB - 1-3/1-3 units**
**Directed Studies in History**
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of history on an independent study basis. Assigned problems will involve library and field work. Maximum of 6 units.

---

**Home Economics**

**HE 10 - 3 units**
**Consumer and Legislation**
Prerequisite: None
3 hours lecture weekly
Identification of ways legislation affects consumers; ways of understanding legislation practices and procedures; participation in legislative action at various levels.

**HE 11 - 3 units**
**Marketplace and Equal Rights**
Prerequisite: Economics 101 and 102
3 hours lecture weekly
Consumer’s role in US economy; marketing and pricing procedures; trends in income distribution; factors affecting financial decision-making; responsible consumer behavior; public and private agencies and organizations for consumer welfare; consumer education.
HE 12 - 3 units  
Contemporary Consumer Issues and Families  
Prerequisite: None  
3 hours lecture weekly  
Establishing personal-family income distribution pattern related to individual's values and goals; effective consumer buying; current major consumer issues; regulations, legislation, and organizations dealing with the consumer role. Survey of community consumer resources.

HE 13 - 3 units  
Food Economics and World Economy  
Prerequisite: Economics 101 and 102  
3 hours lecture weekly  
Food production and food distribution as they relate to food consumption and to nutrient values; factors affecting price and quality; food buying for home and institutions.

HE 14 - 3 units  
Consumer Concepts and Community Services  
Prerequisite: None  
1 hour lecture, 6 hours lab weekly  
Clarification of goals and values of each individual consumer. Identification of community consumer sources and evaluation of community needs.

HE 20 - 3 units  
Foods and World Culture  
Prerequisite: None  
3 hours lecture weekly  
Art and science of foods and their consumption in relation to historical, national, geographical, social, and religious customs; understanding of distinctive cuisine of various selected cultures; assessment of dietary customs in relation to nutritional needs.

HE 21 - 3 units  
Foods, Fads, and America's Health  
Prerequisite: None  
3 hours lecture weekly  
Reliable and unreliable health information sources, present research and current controversies on common health problems and dietary interrelationships.

HE 22 - 3 units  
Nutritional Concepts for All Ages  
Prerequisite: None  
3 hours lecture weekly  
Basic principles of nutrition; significance of nutrition for growth and development from conception; nutrition education experiences with young children and senior citizen groups.

HE 23 - 3 units  
Nutrition in Health and Disease  
Prerequisite: None  
3 hours lecture weekly  
Diet as it relates to maintaining health during pregnancy, lactation, infancy, childhood, and aging; regaining health following childhood or nutritional deficiency diseases; planning special diets to meet individual needs.

HE 24 - 3 units  
Community Nutrition  
Prerequisite: None  
1 hour lecture, 6 hours lab weekly  
Dietary needs of children, youth, and aged. Role of fundamental nutrients and their practical application to meet personal needs. Community feeding program experience through identification and evaluation of these programs.
HE 39 - 2 units
Creative Stitchery
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Course stimulates creativity to design and make handcrafted items and teaches the skills required for making and designing these items. Included will be projects in burlap stitchery, needlepoint, patchwork, quilting, dollmaking, doll clothes tips, crewel stitchery, macrame, crocheting, and decoupage.

HE 40 - 3 units
Energy Conservation in the Home
Prerequisite: None
3 hours lecture weekly
Practical “how-to” class on energy conservation measures in the home. Covers every part of the home, every area of the home environment, and ways to make best use of energy.

HE 55AB - 1-1 units
Microwave Cooking
Prerequisite: HE 55A or equivalent for HE 55B
1 hour lecture weekly
Instruction in cooking with microwaves. Care and use of the microwave oven, various features offered on the oven and their uses. Menu planning and food preparation for the microwave.

HE 56 - 3 units
Foreign Food Cooking
Prerequisite: None
3 hours lecture (demonstration) weekly
Study of the foods, eating habits, and preparation techniques used by people around the world. Fees may be required.

HE 97ABCD - 1-1-1-1 unit
Institute in Consumer Education
Prerequisite: None
Lecture and/or lab as required by unit formula
Short-term lecture series in consumer education stresses clothing and textiles, foods, and household goods; designed for homemakers on restricted incomes.

HE 98A-Z - ½-10 units
Short Courses in Home Economics
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various disciplines within Home Economics. Fees may be required.

HE 101 - 3 units
Family Lifestyles in American Society
Prerequisite: None
3 hours lecture weekly
Family lifestyles expressed in time use, family member roles, and patterns of consumption by people belonging to microcultures common to the Southern California area; patterns of family life as essential influence upon home economist’s role.

HE 102 - 3 units
Families and Community Services
Prerequisite: None
3 hours lecture weekly
Trends and nature of public and private agencies helping people with home and family living problems; the particular involvement of home economists. Problems of providing meaningful direction and help and written publications for homemakers and people in helping professions.
HE 107 - 2 units
Preparation for Marriage
Prerequisite: None
2 hours lecture weekly
Study of marriage readiness, marriageability, mate selection, and competencies necessary for creation of a home environment conducive to achieving marriage and family goals.

HE 130 - 3 units
Apparel Selection and Grooming
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Applications of principles of design and color harmonies in selection of clothing; wardrobe and personal grooming and analysis pertaining to individual skeletal structure, personality, and individual requirements.

HE 131 - 3 units
Textiles
Prerequisite: None
3 hours lecture weekly
Basic weaves, yarns, fibers, and finishes with reference to their use in clothing and the home; new fibers and their uses; care of fabrics.

HE 132 - 3 units
Clothing Construction
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Basic clothing construction with emphasis on the use of the commercial pattern, construction techniques, and fitting problems.

HE 135AB - 3-3 units
Interior Decorating
Prerequisite: None. Art 104 recommended
3 hours lecture weekly
Principles and elements of design and color as applied to home interiors; materials, organization, and arrangement as related to living needs. Offers basic preparation for students who plan to seek employment in the field of interior design. Field trips will be required.

HE 136AB - 3-3 units
Flat Pattern Design
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Principles and techniques of constructing basic patterns; original design and construction of a garment using flat pattern methods. Designed to enable students to create original patterns and garments of appropriate fabrics.

HE 141 - 3 units
Consumer Resource Management
Prerequisite: None
3 hours lecture weekly
Management of family resources — time, energy, money, and material goods. Consumer’s guide to selection, care, and use of household equipment. Decision making, values, and goal setting in the management process.

HE 199AB - ½-3/½-3
Directed Studies in Home Economics
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of Home Economics on an independent basis. Assigned problems will involve library, lab, and field work. Maximum of 6 units.
Hotel and
Restaurant
Management

H&R 1 - 1 unit
Hotel and Restaurant
Orientation
Prerequisite: None
1 hour lecture weekly
Organization and job potential
of various types of food service
establishments; offers under-
standing of education and ex-
perience required of job posi-
tions available from top man-
agement down to kitchen
helpers.

H&R 2AB - 2-2 units
Basic Food Preparation I, II
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Study and laboratory experi-
ence of a quantity food opera-
tion; introduction and applica-
tion of principles of good cook-
ery to quantity food production.
Emphasizes high production
standards, attractive service,
use of proper equipment and
proper utilization of time, use of
left-over, methods of food pre-
servation, and recipe
standardization.

H&R 3 - 2 units
Supervision of Food
Production
Prerequisite: H&R 2AB
1 hour lecture, 3 hours lab weekly
Experience in fundamentals of
food production and cookery,
emphasizing high standards of
production; includes prepara-
tion of small quantities of vari-
ous food groups, under-
standing of principles underlying
their preparation, and
principles of work-
simplification.

H&R 4 - 3 units
Restaurant Operations
Prerequisite: H&R 2AB
3 hours lecture weekly
Principles and practice of oper-
ating a restaurant, including
location, organization, capital,
equipment standards, and
labor. Experience given in
operating different areas of
cafeteria.

H&R 5 - 3 units
Food and Beverage
Management and Service
Prerequisite: H&R 2A
3 hours lecture weekly
Course designed to familiarize
students with principles and
procedures proven in actual
operations.

H&R 6 - 3 units
Food Purchasing
Prerequisite: H&R 2A
3 hours lecture weekly
Course provides training in
duties, organization, and poli-
cies of purchasing function in a
hotel and restaurant establish-
ment: proper techniques for
purchasing foods, food stand-
ards and appropriate legisla-
tion, comparative and competi-
tive buying of meats, staples,
vegetables, and canned and
frozen foods.

H&R 7 - 1 unit
Menu Planning
Prerequisite: None
1 hour lecture weekly
Examines basic principles of
menu making, including all
phases of menu planning,
merchandising, and control;
factors affecting menu plan-
ing, including types of opera-
tion; seasons of year, clientele,
equipment, and personnel
available, considered.
H&R 8 - 1 unit
Beginning Baking
Prerequisite: None
3 hours lab weekly
Course provides instruction in methods and procedures of preparing, baking, and decorating a variety of bakery products including breads, cakes, and pastry.

H&R 9 - 2 units
Sanitation and Environmental Control
Prerequisite: None
2 hours lecture weekly
Course acquaints students with basic principles of microbiology and applications to personal cleanliness; cause, control, and investigation of illnesses caused by food contamination; sanitary practices in food preparation; proper dishwashing procedures; sanitation of kitchen, dining room, and all equipment; cleaning materials and procedures; garbage and refuse disposal. (Co-numbered with AH 9.)

H&R 10 - 2 units
Food and Cost Control
Prerequisite: H&R 2AB
2 hours lecture weekly
Study of food control and its importance, covering essential records and information for cost control, importance of ordering, receipt of goods, inventories, storerooms, issues, standardized recipes, and proper food preparation in control of costs; number and utilization of kitchen employees to labor costs; percentage distribution of costs.

H&R 11 - 2 units
Storage, Safety, and Equipment
Prerequisite: None
2 hours lecture weekly
Course acquaints students with proper methods for receiving and storage of food and equipment in a food service, proper safety precautions, elementary first aid, use and care of both small and large equipment, and elements of kitchen planning.

H&R 12 - 2 units
Work Improvement/School Cafeteria Workers
Prerequisite: None. Recommended for food services workers especially in school cafeterias.
2 hours lecture weekly
To provide cafeteria workers and others interested in food services with the principles of motion economy and work simplification. Specifically to study work-improvement principles of food service operations and their applications to job breakdown and process and chart diagrams, all toward the goal of solving lunchroom problems.

H&R 13 - 1 unit
Gourmet Cooking for Professional Cooks
Prerequisite: Experience as professional cook
1 hour lecture, 3 hours lab weekly for 8 weeks
Epicurean cooking for working cooks. Guest chefs will demonstrate their skill with a gourmet style food selection. Following each demonstration the students will cook and prepare a selection of menu items and evaluate the results.

H&R 14 - 3 units
Institutional Food Service
Prerequisite: None
1 hour lecture, 6 hours lab weekly
Principles of operating an Institutional Food Service, a lecture-laboratory situation teaching
organization, administration, policies, financing, and controls.

H&R 15 - 3 units
Front Office Procedure
Prerequisite: None
3 hours lecture weekly
Introduction to hotel/motel operation, including front desk procedure, housekeeping, food services, and legal problems; typical functions of each aspect reviewed and discussed.

H&R 16 - 3 units
Administrative
Housekeeping I
Prerequisite: None
3 hours lecture weekly
Provides insight into Institutional Housekeeping as a career, including organization and day-by-day management; imparts basic principles and practices of personnel management applicable to staffing and operation of a department within a larger organization, and describes and explains budgets as they relate to basic operation and control. (Co-numbered with AH 1.)

H&R 17 - 3 units
Administrative
Housekeeping II
Prerequisite: None
3 hours lecture weekly
Provides students of Institutional Housekeeping with basic principles and techniques of work controls, housekeeping techniques, purchasing, and records. Also provides 60 hours of credit toward National Executive Housekeeping Association Certificate. (Co-numbered with AH 2.)

H&R 98 - ½-10 units
Short Courses in Hotel and Restaurant Management
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized workshops designed to train or update workers in hotel and restaurant field. Content of courses designed specifically for participants. Total workshop credit limited to 10 units

H&R 99ABCD - 1-2-3-4 units
Hotel and Restaurant Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units
Lab hours as required by unit formula
Supervised off-campus placement for practical work experience related to the student's major. An opportunity to integrate classroom study with practical on-the-job experience relevant to academic program and vocational goals.
Industrial
Mechanics

IM 1 - 3 units
Introduction to Industrial Mechanics
Prerequisite: None
3 hours lecture weekly
Overview of industrial maintenance — safety and fire fighting, career opportunities; industrial vocabulary; tools and machinery; plumbing and refrigeration; industrial electricity; woods, metal, and masonry; repair methods.

IM 2 - 2 units
Handwork, Carpentry, and Concrete
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Instruction in proper selection and use of common shop tools and power tools in construction of carpentry and concrete projects. Basic construction and repair techniques including foundations, framing, and exterior finish of wood. Concrete forms finishing and repair will be stressed.

IM 3 - 2 units
Plumbing and Refrigeration
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Introduction to common tools, equipment, and materials used in industrial plumbing. Types of pipe, fittings, water supply, heaters, tanks, fixtures are stressed. Emphasis on repairing plumbing and refrigeration systems.

IM 4AB - 2-2 units
Industrial Electricity
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Fundamentals of AC and DC circuits, motors, and generators. Nature of electricity, electrical calculations, magnetics, circuit applications, and electrical measuring and testing stressed. Emphasis placed on maintenance and repair of electrical equipment commonly used in industry.

IM 5 - 1 unit
Internal Combustion Engines, Boilers, Pumps, and Compressors
Prerequisite: None
3 hours lab weekly
Fundamentals of components, operation and fuel system of internal combustion engines, boilers, pumps, and compressors. Emphasis will be placed on the selection of systems, testing, troubleshooting, and repair.

IM 6 - 2 units
Hardware and Screw Thread Fundamentals
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Study of various types of hardware fasteners with emphasis on screw thread systems. Identification, nomenclature, and use of bolts, screws, and other fasteners. Selection and construction of fasteners will be stressed.

IM 7 - 1 unit
Sheet Metal Fabrication
Prerequisite: Completion of or concurrent enrollment in Math 19 or equivalent
3 hours lab weekly
Study of types of sheet metals including their uses and limitations. Tools for sheet metal working, pattern, layouts, and especially methods using light gauge metal will be stressed. Construction of sheet metal projects is required.
IM 8 - 2 units
Oxygen-Acetylene, Arc, TIG, and MIG Welding
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Basic use of oxy-acetylene torches and equipment including welding, brazing, and cutting of various metals as tools of industrial construction, maintenance, and repair. Basic uses of arc, TIG, and MIG welding processes and equipment will be stressed. Welding construction and repair projects required.

IM 9 - 1 unit
Blueprint Reading, Mechanical Drawing, and Precision Measuring
Prerequisite: None
3 hours lab weekly
Fundamentals of blueprint reading and mechanical drawing including construction of mechanical drawings for various projects; use of various precision measuring instruments.

IM 10 - 1 unit
Metals and Heat Treating
Prerequisite: None
3 hours lab weekly
Fundamentals of metallurgy including composition, alloys, methods of manufacturing, and various methods of heat-treating common steels.

IM 11 - 3 units
Bandsaws, Drills, Lathes, Mills, and Grinders
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Fundamentals of various types of bandsawing machines, operations, and saw blades; includes speeds and feeds and various set-ups for a variety of materials. Fundamentals and various types of drill presses, construction and use, includes set-ups, speeds, and various operations performed on the drill press. Fundamentals of lathe construction and operation; emphasis on proper set-up, speeds and feeds, and tool grinding for various materials. Fundamentals of milling machine construction and operation; emphasis on proper set-ups, speed and feeds, use of accessories and tools for various materials. Precision grinding operation; emphasis on the use of basic grinding machines, including bench grinder, ID-OD grinder, and tool cutter grinder.

IM 12 - 2 units
Machine Repair and Lubricants
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Fundamental machine construction, diagnosing, and repairing various types of machinery including power transmission systems with emphasis on fitting bearings and component parts together. Study of various types of lubricants, their uses and applications will be stressed.

IM 89 - Industrial Mechanics Cluster - 1-12 units
Prerequisite: Concurrent enrollment in Math 19 or equivalent skills
30 hours weekly
For students who have immediate job goals as industrial mechanics or machinists in mind, this program is a full-time, 30 hour per week offering. Courses within the program include IM 1 through 12. Credit awarded for courses within Industrial Mechanics program successfully completed. Course
operated on continuous enrollment plan and graded on credit-no credit basis. May be repeated for credit to a maximum of 24 units.

**IM 98 - ½-10 units**
**Short Courses in Industrial Mechanics**
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized workshops designed to train or update workers in the industrial mechanics field; content designed specifically for the participants. Unit credit will be determined by the length of the workshop as defined by current credit standards. Total workshop credit limited to 10 units.

**IM 99ABCD - 1-2-3-4 units**
**Industrial Mechanics Work Experience**
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.
Lab hours as required by unit formula
Supervised off-campus placement for practical work experience related to the student's major. An opportunity to integrate classroom study with practical on-the-job experience relevant to academic program and vocational goals.
**Instructional Associate**

**IA 1 - 3 units**  
*Instructional Associate*  
Prerequisite: None  
3 hours lecture weekly  
Introduction to role of the Instructional Associate in a school setting, including study of children in each grade of school, how they learn, curriculum, school facilities, and function of the Instructional Associate in this structure.

**IA 2 - 3 units**  
*Multimedia Materials and Equipment*  
Prerequisite: None  
3 hours lecture weekly  
Value and use of various AV equipment demonstrated, including 16mm projector, filmstrips, slides, tapes, overhead transparencies, and methods for duplicator printing materials. Attention given to classroom materials production such as games and charts.

**IA 3 - 3 units**  
*Language Development - ESL*  
Prerequisite: None  
3 hours lecture weekly  
Fundamental techniques of developing vocabulary, language patterns, and conversational skills of English or other languages.

**IA 4 - 3 units**  
*Teaching Reading*  
Prerequisite: IA 1  
3 hours lecture weekly  
Methods and procedures for remediating academic problems in our school population, with special emphasis on helping students with reading problems.

**IA 6 - 3 units**  
*Teaching Math*  
Prerequisite: None  
3 hours lecture weekly  
Course focuses on methods and procedures to enable the Instructional Associate to lend greater assistance to the teacher in remediating academic problems; special emphasis on helping students with problems in mathematics.

**IA 98ABCD - 1/2-10 units**  
*Short Courses in Instructional Associate*  
Prerequisite: None  
Lecture and/or lab as required by unit formula. Unit credit determined by length of instruction and outside assignments as defined by current credit standards; total credit not to exceed 10 units. Specialized workshops designed to update Instructional Associates as required and to better prepare pre-service Instructional Associates for their occupational roles; designed to include areas such as mathematics, reading, writing, music, crafts, science, etc.; major emphasis on assisting students with linguistic and cultural difficulties.

**IA 99ABCD - 1-2-3-4 units**  
*Instructional Associate Work Experience*  
Prerequisite: None  
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units. Lab hours as required by unit formula  
Supervised off-campus placement for practical work experience related to the student's major. An opportunity to integrate classroom study with practical on-the-job experience relevant to the student's academic program and vocational goals.
Interdisciplinary Studies

IS 101AB - 3-3 units
History of Ideas and Evolution of Culture
Prerequisite: None. Engl 101 or equivalent skills recommended. 3 hours lecture weekly
Course sequence provides opportunity of studying history and development of human thought and culture; interdisciplinary and cross-cultural in nature, looks at development of human thought from perspectives of art, music, philosophy, literature, science, language, religion, politics, mythology, technology, and social science in several cultures. Stages of civilization’s development and possible parallels and causes examined and discussed. Although the two portions of course may be taken separately, it is recommended that they be taken in sequence to provide a more valuable learning experience.

IS 102 - 3 units
Science, Technology, and Human Values
Prerequisite: None 3 hours lecture weekly
Critical study of the historical and socio-cultural relationships between science, technology, and human values. Development of these relationships is traced from the advent of science and technology to the complexities of contemporary American society.

IS 199AB - ½-3/½-3 units
Directed Studies in Interdisciplinary Studies
Prerequisite: A course in the specific field Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of Interdisciplinary Studies on an independent basis. Assigned problems will involve library, lab, and field work. Maximum of 6 units.

In-depth examination of selected writings concerned with current theories and trends in the national and social sciences and humanities. Temper and direction of contemporary thought is explored. Different topics and readings will be addressed each semester; class may be repeated.
Japanese

Ja 1 - 3 units
Conversational Japanese
Prerequisite: None
3 hours lecture weekly
Introductory course for non-native speakers of Japanese, beginning modern spoken and written Japanese. Covers learning comprehension and oral practice, basic grammar, and sentence patterns. Introduction to reading and writing.

Ja 2 - 3 units
Conversational Japanese
Prerequisite: Ja 1
3 hours lecture weekly
Takes up where Ja 1 leaves off. Emphasis on vocabulary building and greater oral fluency, with grammar principles introduced as needed. Individual needs will be met.

Journalism

Journ 100 - 3 units
Introduction to Mass Communications
Prerequisite: None
3 hours lecture weekly
Introductory survey course exploring various modes of mass communication and examining the nature, consumers, careers, history, legal aspects, communications.

Journ 101/102 - 3-3 units
News Writing and Reporting
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Beginning news writing course to provide instruction and practice in news reporting and fundamentals of news writing, with analysis of typical news story types; concentration on lead and simple story types, organization and structure of news stories, and language and style of journalism.

Journ 103/104 - 3-3 units
Advanced News Writing and Reporting
Prerequisite: Journ 101 and 102 or equivalent
2 hours lecture, 3 hours lab weekly
Practical experience as well as instruction in newspaper editorial practices, obtained in conjunction with publication of weekly college newspaper; lectures and individual instruction supplement staff work.

Journ 105/106 - 2-2 units
Magazine Production
Prerequisite: None
1 hour lecture, 3 hours lab weekly
Practical experience in all
facets of magazine production, including letting of contracts, selection of theme and type styles, planning of copy and photography for layouts, writing of articles, editing, proofreading, and preparing copy for printing college magazine.

Journ 107 - 2 units
Journalistic Layout and Design
Prerequisite: Journ 101 or equivalent
1 hour lecture, 3 hours lab weekly
Introduction to fundamentals of layout and design for graphic production, including principles of design, techniques of layout and paste-up, and use of offset reproduction equipment; lab work provided on college publications.
Library Technology

LT 1 - 3 units
Introduction to Library Services
Prerequisite: None
3 hours lecture weekly
Introduction to libraries and their organization, designed for students interested in employment in special schools, public or college libraries.

LT 2 - 3 units
Introduction to Library Technology
Prerequisite: LT 1 and one semester of typing
3 hours lecture weekly
Library organization, techniques, and terminology; study of library tools such as indexes, bibliographies, encyclopedias, dictionaries; arrangement and use of card catalogs; history of libraries, books, and printing.

LT 3 - 3 units
Library Clerical Techniques
Prerequisite: LT 1 and 2
2 hours lecture, 3 hours lab weekly

LT 5 - 3 units
Audio-Visual Operations and Clerical Techniques
Prerequisite: LT 1
3 hours lecture weekly
Course will cover basic practices, procedures, and policies which govern control of audio-visual equipment and materials. Skills will be developed in operation of standard audio-

visual equipment and essential clerical techniques. Special emphasis given to development of audio-visual materials.

LT 6 - 3 units
Children's Literature
Prerequisite: None
3 hours lecture weekly
Study of the books, periodicals, and other library materials suitable for children of elementary school age. Reference books suitable for lower grades, picture books, fiction, non-fiction, folk tales, story telling, books made into films, and other materials examined in depth.

LT 7 - 2-3 units
Library Internship
Prerequisite: LT 1 or equivalent
1 hour lecture, 3-6 hours laboratory weekly
Supervised work in an approved library.
Mathematics

Math 9 - 3 units
Fundamentals of Arithmetic
Prerequisite: None. Anyone who has received a grade of C or better in Math 11 or its equivalent may not enroll in Math 9.
3 hours lecture weekly
Review of basic mathematical skills and fundamental operations as applied to integers, common and decimal fractions, and percentage; emphasis on understanding of arithmetic and mathematical processes.

Math 11 - 5 units
Elementary Algebra
Prerequisite: Arithmetic competence
5 hours lecture weekly
A first course in algebra. Operations with counting numbers, integers, rational and real numbers; linear equations; graphing; ratio, proportion, and variations; exponents and radicals.

Math 11R - 3 units
Review of Elementary Algebra
Prerequisite: A previous algebra course
3 hours lecture weekly
A review algebra course covering the same material and using the same text as Math 11 at an accelerated pace.

Math 14 - 5 units
Intermediate Algebra
Prerequisite: Math 11 with a grade of C or better, or 1 year of high school algebra
3 hours lecture weekly
Review of elementary algebra; solutions of systems of linear equations; functions and graphs; polynomial functions; factoring; complex numbers; solutions of equations of higher degree; exponential and logarithmic functions; sequences and series.

Math 19ABC - 1-1-1 units
Vocational Mathematics
Prerequisite: None for Math 19A; Math 19A for 19B; Math 19B for 19C
3 hours lecture weekly
Practical mathematics for work in vocational fields; review of arithmetic; introduction to geometry, mensuration, algebra, and trigonometry; with application in shop problems.

Math 23 - 3 units
Geometry
Prerequisite: Math 11 with a grade of C or better or equivalent
3 hours lecture weekly
Selected topics in Euclidean plane and solid geometry including the properties of lines, triangles, polygons, circles, coordinate systems, distance and area, methods of proof and constructions.

Math 98A-Z - 1/2-10 units
Short Courses in Mathematics
Prerequisite: None
Lecture and/or lab as required by unit formula
Short courses covering special, specific topics in mathematics not covered in detail in other math courses. Eligible students may take this course for credit-no credit. May be co-listed with Physical Science.

Math 101 - 3 units
Exploring Mathematical Ideas
Prerequisite: Math 9 or arithmetic competence
3 hours lecture weekly
Course intended to give those with limited background better understanding of nature of mathematics and character and origin of different subject fields in mathematics.
Math 102 - 3 units
Math for Elementary Teachers
Prerequisite: Two years of high school mathematics. Not open to students majoring in a science or mathematics field.
3 hours lecture weekly
Designed for candidates for elementary teaching credential; topics include language of sets, number systems, and geometry; emphasis on explanations for elementary school students.

Math 103 - 3 units
Finite Mathematics
Prerequisite: Math 14 with a grade of C or better or equivalent. Not open to students who have completed Math 105, 134, or 135.
3 hours lecture weekly
For students of business and social or behavioral sciences. Topics include sets, problems in counting and probability, linear programming, game theory, and their applications in business and social, behavioral, and life sciences.

Math 105 - 3 units
Elementary Statistics
Prerequisite: Math 14 with a grade of C or better or equivalent
3 hours lecture weekly
Descriptive and applied statistics for students of the social sciences, education, business, life sciences, and engineering. Included are discussions of measures of central tendency and variation, probability and sets, normal curves, hypothesis testing, regression and correlation, distribution, analysis of variance and non-parametric tests.

Math 106 - 5 units
Short Course in Calculus
Prerequisite: Math 14 with a grade of C or better or equivalent
5 hours lecture weekly
Short course in calculus and analytic geometry for students in business, social and life sciences; topics include functions, limits, differentiation and curve sketching, related rates, maxima and minima, integration, and differential equations. Not recommended to mathematical and physical science majors.

Math 112 - 3 units
Symbolic Logic and Set Theory
Prerequisite: Math 11 or Phil 107 or equivalent
Introduction to symbolic logic and set theory; includes investigation of truth and validity, formal proof and symbolizing relations, truth sets, truth tables and boolean algebras, and a discussion of axiomatic systems. (Co-numbered with Phil 112.)

Math 114 - 5 units
Pre-Calculus Algebra and Trigonometry
Prerequisite: Math 14 with a grade of C or better or equivalent
5 hours lecture weekly
An integrated course in college algebra and trigonometry designed to prepare students for calculus with analytic geometry. Topics will include mathematical induction; functions, relations and their graphs; inverse functions; the exponential and logarithmic functions; trigonometric functions, identities, and equations; the complex numbers and the Fundamental Theorem of Algebra.
Math 120 - 5 units
Calculus with Analytic Geometry I
Prerequisite: Math 114 with a grade of C or better or equivalent
5 hours lecture weekly
Elements of analytic geometry and calculus with applications; includes functions and limits, vectors, the derivative, techniques and applications of differentiation.

Math 121 - 5 units
Calculus with Analytic Geometry II
Prerequisite: Math 120 with a grade of C or better
5 hours lecture weekly
Integral calculus; definite and indefinite integrals, techniques of integration, conic sections, parametric equations, and an introduction to differential equations.

Math 122 - 5 units
Calculus with Analytic Geometry III
Prerequisite: Math 121 with a grade of C or better
5 hours lecture weekly
Calculus of several variables and solid analytic geometry including partial derivatives, multiple integrals, infinite series, vector valued functions, line and surface integrals, Stoke’s Theorem, and the divergence Theorem.

Math 134 - 3 units
Linear Algebra
Prerequisite: Math 14 with a grade of C or better or equivalent
3 hours lecture weekly
Topics include vector spaces, linear transformations, matrix operations, determinants, and solutions of systems of linear equations; emphasis upon computational skills.

Math 135 - 3 units
Modern Algebra
Prerequisite: Math 14 with a grade of C or better or equivalent
3 hours lecture weekly
Topics include principle of induction, integers, the integers modulo n, division and the Euclidean algorithm, Fundamental Theorem of Arithmetic, polynomials, polynomial rings, and number fields.

Math 199AB - 1-3/1-3 units
Directed Studies in Math
Prerequisite: Math 120
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge on an independent study basis. Maximum of 6 units.
Music

Mus 101 - 3 units
Fundamentals of Music
Prerequisite: None
3 hours lecture weekly
Designed for the students with little or no prior understanding of music who wish to learn to read music; objective is to gain basic understanding of scales, intervals, chords, key signatures, time signatures, musical symbols, and an introduction to piano keyboard.

Mus 102A - 4 units
Music Theory I
Prerequisite: Mus 101 or equivalent.
For music majors and others with adequate background. Mus 102ABCD must be taken in sequence.
3 hours lecture, 3 hours lab weekly
Review of fundamentals; basic aspects of pitch and rhythm organization, intervals, keys and scales, tonality, cadences, basic melody, two-voice combinations, and decorate pitches, development of skills in analysis, music reading, aural training, and keyboard harmony.

Mus 102B - 4 units
Music Theory II
Prerequisite: Mus 102 A. For music majors and others with adequate musical background. Mus 102ABCD must be taken in sequence.
3 hours lecture, 3 hours lab weekly
Continuation of Mus 102A.
Study of three-voice counterpoint, chord structure, homophonic and contrapuntal textures, harmonic progression, secondary dominants, and tonality changes; analysis of binary, ternary, and through-composed forms; continued development of ear-training and keyboard skills.

Mus 102C - 4 units
Music Theory III
Prerequisite: Mus 102B. For music majors and others of adequate musical background. Mus 102ABCD must be taken in sequence.
3 hours lecture, 3 hours lab weekly
Continuation of Mus 102B.
Study of tonal structure and form, rondo form, variation forms, the fugue, the chorale prelude, and sonata-form; seventh, ninth, diminished. Neapolitan and augmented sixth chords; continued development of ear-training and keyboard skills; formal analysis.

Mus 102D - 4 units
Music Theory IV
Prerequisite: Mus 102C. For music majors and others of adequate musical background. Mus 102ABCD must be taken in sequence.
3 hours lecture, 3 hours lab weekly
Continuation of Mus 102C.
Study of melodic, harmonic, rhythmic, and formal style characteristics in late 19th and 20th century music; analysis of works from Romantic, impressionism, expressionism, Neo-Classical, and 'modern' school of composition. Continued development of ear-training and keyboard skills.

Mus 103A - 3 units
Music Appreciation I: Music and Listening
Prerequisite: None
3 hours lecture weekly
Survey of Western musical history from Renaissance to present; special emphasis on understanding and enjoyment in listening with an introduction to principles employed in music.
Mus 103B - 3 units  
Music Appreciation II: Masterpieces of Music Literature  
Prerequisite: None. Mus 101 and/or Mus 103A recommended  
3 hours lecture weekly  
Survey of important composers, genres, and works from various style periods; emphasis on late Baroque, Classical, Romantic, and 20th century periods.

Mus 104 - 3 units  
Music History and Literature I  
Prerequisite: Mus 101 and Mus 103 or equivalent  
3 hours lecture weekly  
Traces style and technique of music composition from Gregorian Chant through such developments as medieval organum, secular song, and dance music of Middle Ages and Renaissance; polyphony and madrigals of the Renaissance; Baroque opera and instrumental music through 18th century contributions of Vivaldi, Handel, and Bach. Emphasis is on listening and analyzing for style characteristics and on correlation of musical developments with those in other arts of the time. Recommended for music majors and others with adequate musical background.

Mus 105 - 3 units  
Music History and Literature II  
Prerequisite: Mus 101 and 103 or equivalent. Recommended that Mus 104 be taken before 105.  
3 hours lecture weekly  
Continuation of Music 104. Study of changing styles, techniques, and forms of music from middle of 18th century to present. Recommended for music majors and others with adequate musical background.

Mus 106 - 2 units  
College Choir  
Prerequisite: Audition will be required. 3 hours rehearsal weekly, plus additional rehearsal and performance as required  
Learning and performing of choral music for all interested men and women; choir participates in musical events on campus and in the community. Course may be repeated for credit up to four semesters.

Mus 107ABCD - 2-2-2-2 units  
Class Piano I, II, III, IV  
Prerequisite: None for Mus 107A; Mus 107A for 107B; Mus 107B for 107C; Mus 107C for 107D  
1 hour lecture, 3 hours lab weekly  
Courses start with fundamentals of piano playing and continue through accompaniments, studies in piano literature, to reading choral scores, improvisation, and harmonization of melodies.

Mus 108ABCD - 1-1-1-1 units  
Applied Music Study - Keyboard  
Prerequisite: Mus 107 or equivalent. Completed or concurrent enrollment in Mus 102ABCD is recommended. Concurrent enrollment in one music activity course. 1 private lesson and 1 hour lecture weekly; daily practice required. Private instruction and individual practice. Qualifying or final examinations by music staff.
Mus 110A - 2 units
Class Voice I: Fundamentals of Vocal Techniques
Mus 110B - 2 units
Class Voice II: Vocal Development and the Art of Song
Mus 110C - 2 units
Class Voice III: Vocal Development and the Aria
Mus 110D - 2 units
Class Voice IV: Voice in Musical Theatre Workshop

Prerequisite: None for Mus 110A; Mus 110A or equivalent for 110B; Mus 110B or equivalent for 110C; Mus 110C or equivalent for 110D. Concurrent enrollment in Mus 106 recommended. 1 hour lecture, 3 hours lab weekly; daily practice required.

Mus 110A — Designed to begin development of vocal potential, to lay a foundation for proper vocal production, and to correct faulty singing. Material consists of song literature sung in English and vocal exercises. Basically for non-music majors or persons with little singing experience.

Mus 110B — Continuation in development of proper vocal production; English, Italian, French, and German art songs studied. Recommended that singers with adequate vocal technique begin with 110B.

Mus 110C — Continuation of vocal development through study of more challenging literature such as arias of Bach, Handel, Mendelssohn, Mozart, and Rossini; songs by contemporary American composers may also be studied.

Mus 110D — Study of song literature from opera and musical theatre; studying and performing operas and musical plays in excerpt or as complete productions. Designed for singers with proven ability and interest in drama.

Mus 111ABCD - 1-1-1-1 units
Applied Music Study - Voice

Prerequisite: Mus 110B and 110C or equivalent. Completed or concurrent enrollment in Mus 102ABCD is recommended. Concurrent enrollment in one music activity course.

1 private lesson and 1 hour lecture weekly; daily practice required.

Private instruction and individual practice. Qualifying or final examinations by music staff.

Mus 112ABCD - 1-1-1-1 units
Applied Music Study - Instruments

Prerequisite: Minimum ability (intermediate level) on an instrument. Completed or concurrent enrollment in Mus 102ABCD is recommended. Concurrent enrollment in one music activity course.

1 private lesson and 1 hour lecture weekly; daily practice required.

Private instruction and individual practice. Qualifying or final examinations by music staff.

Mus 114 - 1 unit
Concert Band

Prerequisite: Competency with a musical instrument appropriate to a concert band.

3 hours lab weekly

Rehearsal and performance of representative band literature; public performances may be given on campus and in the community. Course may be repeated for credit up to four semesters.

Mus 115 - 3 units
Black Experience in the Fine Arts

Prerequisite: None.

3 hours lecture weekly

Designed for students wishing to increase their knowledge and understanding of music, art, poetry, dance, and theatre as they relate to contemporary Black society.
Mus 117 - 1 unit
Stage Band
Prerequisite: Competency with a musical instrument appropriate to a stage band
3 hours lab weekly
Practical experience in performing music in popular and jazz styles arranged for stage band. Public performances on campus and in community. Course may be repeated for credit up to four semesters.

Mus 118ABCD - 1-1-1-1 units
Introduction to Guitar
Prerequisite: None
3 hours lab weekly
Fundamentals of guitar and related musicianship; basic techniques and repertoire unique to the folk guitar; chordal accompaniment to folk singing will be emphasized. Students furnish own instrument. Course may be repeated for credit up to four semesters.

Mus 119 - 2 units
Survey of Jazz and Popular Music
Prerequisite: None
2 hours lecture weekly
Study of history of jazz from origins to present day including influential composers, instrumentalists, singers, and arrangers; popular music and its background.

Mus 120 - 1 unit
Performance of Gospel Music
Prerequisite: None
3 hours lab weekly
Study and performance of solo and choral literature from the Black gospel music tradition, open to interested men and women of all backgrounds. Public performances may be given.

Mus 121 - 1 unit
Vocal Ensemble
Prerequisite: Demonstrated ability in performing area
3 hours rehearsal weekly
Development of vocal chamber groups to study literature written for ensemble groups; to perfect and perform these compositions. Course may be repeated for credit up to four semesters.

Mus 122 - 1 unit
Woodwind, Brass, or Percussion Ensemble
Prerequisite: Demonstrated ability in performing area
3 hours rehearsal weekly
Development of instrumental chamber groups to study literature written for ensemble groups; to perfect and perform these compositions. Course may be repeated up to four semesters.

Mus 123 - 1 unit
Strings and/or Keyboard Ensemble
Prerequisite: Demonstrated ability in performing area
3 hours rehearsal weekly
Development of instrumental chamber groups to study literature written for ensemble groups; to perfect and perform these compositions. Course may be repeated for credit up to four semesters.

Mus 125AB - 1-2 units
Musical Theatre Rehearsal and Performance
Prerequisite: Audition required
Lab hours as required by unit formula
Rehearsal and performance of college-sponsored musical theatre productions; experience in one or more aspects of a production: leading roles, chorus, dancing, dramatic
techniques of musicals, back-stage and technical work. Course may be repeated for credit up to four semesters.

**Mus 198 - ½-10 units**

**Short Courses in Music**
Prerequisite: None

Lecture and/or lab as required by unit formula

Short courses in selected areas of music to meet specific needs of college or community as required or requested by persons whose needs are not met by regular course offerings. Topics might include but are not limited to musical theatre, opera workshop, accompanying, piano teaching, conducting, church music, instrumental or choral techniques, master classes, diction, music education.

**Mus 199AB - 1-3/1-3 units**

**Directed Studies in Music**
Prerequisite: A course in the specific field

Lecture and/or lab as required by unit formula

Designed for students interested in furthering their knowledge of music on an independent study basis; assigned problems will involve library, lab, and field work. Maximum of 6 units.

---

**Office Technology**

**OT 10 - 2 units**

**Personal Typing**
Prerequisite: None

1 hour lecture, 3 hours lab weekly

Designed for students, writers, etc., wishing to learn the typewriter for their writing jobs. Instruction includes learning keyboard by touch system, composing at machine, practical application of typing skills to simple letter writing, manuscripts, and simple tabulations. Specifically designed for non-clerical and non-secretarial students.

**OT 11 - 3 units**

**Beginning Typewriting**
Prerequisite: None. Not open to students who have credit for one semester of typing in any other school.

2 hours lecture, 3 hours lab weekly

Instruction on mastery of keyboard, numbers, and special keys; develops fundamental skills in operation of the typewriter. Speed and control of errors stressed. Training is given on business letter forms and tabulations.

**OT 12 - 3 units**

**Intermediate Typewriting**
Prerequisite: OT 11 or equivalent

2 hours lecture, 3 hours lab weekly

Additional practice in business letters, tabulations, manuscript typing; permits students to achieve a minimum speed of 45 gross words a minute for five minutes.
OT 13 - 2 units
Typing: Speed and Accuracy Development
Prerequisite: Knowledge of keyboard and ability to type at least 20 wpm.
1 hour lecture, 3 hours lab weekly
Course designed to improve speed and accuracy in using the electric typewriter through
development of proper techniques, for students who know the keyboard but are not skilled
enough to enter an intermediate typing class; drills for speed development and
accuracy used on a self-pacing concept.

OT 14 - 3 units
Advanced Typewriting
Prerequisite: OT 12 with a grade of C,
or one year of high school typing.
2 hours lecture, 3 hours lab weekly
Develops speed and accuracy in typing and provides training
in letter placement, manuscript typing, and tabulation. Special
units include correspondence for general, accounting, legal,
medical, and technical offices. Students should attain a
minimum of 50 wpm.

OT 15 - 3 units
Production Typing
Prerequisite: OT 14 or equivalent and
typing speed of 50 wpm.
2 hours lecture, 3 hours lab weekly
Student applies typing skills to
advanced typing projects using
modern methods, equipment,
materials, and business forms.
Students should attain a
minimum speed of 60 wpm.

OT 20 - 4 units
Beginning Shorthand
Prerequisite: OT 11 or OT 12, or typing
speed of 40 wpm.
3 hours lecture, 3 hours lab weekly
Basic principles of reading and
writing shorthand. Introduces
shorthand theory principles,
develops dictation speeds from
60 to 80 words a minute, and
develops the ability to transcribe shorthand notes
accurately.

OT 21 - 4 units
Intermediate Shorthand
Prerequisite: OT 20 or 1 year of high school shorthand.
3 hours lecture, 3 hours lab weekly
Reviews shorthand theory, develops dictation speeds from
80 to 110 words a minute for
three minutes, and develops
mailable copy transcription
skills; extensive dictation of
new material requiring
transcription.

OT 22 - 4 units
Advanced Shorthand
Prerequisite: OT 21 with grade of C or
better and typing speed of 50 wpm.
3 hours lecture, 3 hours lab weekly
Continuation of shorthand study to improve transcription, develop speed in dictation, and
enlarge shorthand vocabulary. Development of speed and
accuracy requisite for employ-
ment; correlation of grammar,
spelling, punctuation, and
typing. Introduction to office-
style dictation is included.

OT 23 - 4 units
Speed Building and
Transcription
Prerequisite: OT 22 with grade of C or
better and typing speed of 50 wpm.
3 hours lecture, 3 hours lab weekly
Specialized dictation and
transcription and an intensive
review of shorthand principles.
Various techniques used in
mastery of technical vocabu-
laries and speed in reading and
writing shorthand from dicta-
tion are included, as well as
intensive use of office-style
dictation.
OT 24 - 2 units
Shorthand Review
Prerequisite: Previous training in shorthand
1 hour lecture, 3 hours lab weekly
Course is designed as a quick yet thorough review of shorthand theory for those who have previously studied a system. Designed for students who need basic theory review and speed building practice.

OT 25 - 2 units
ABC Shorthand
Prerequisite: None (typing ability recommended)
1 hour lecture, 3 hours lab weekly
ABC Shorthand is a phonetic system of shorthand based on learning easy rules, presented in the first few lessons; remainder of semester is spent taking dictation. A speed of 80 wpm can be attained with comparatively little effort, while a speed of 100 wpm is attainable by earnest study.

OT 26 - 4 units
Machine Shorthand I
Prerequisite: OT 11 or 12 or typing speed of 40 wpm
3 hours lecture, 3 hours lab weekly
Introduction of keyboard and theory, plus speed development to 60 wpm. Machine shorthand applies shorthand theory to a compact (22 keys) keyboard. Dictation of practice material.

OT 27 - 4 units
Machine Shorthand II
Prerequisite: OT 26 and typing speed of at least 40 wpm
3 hours lecture, 3 hours lab weekly
Develops dictation rate from 80 to 120 words per minute and transcription rate of 60 percent of typing rate with 95 percent accuracy.

OT 30 - 2 units
Filing
Prerequisite: None. Ability to type recommended
2 hours lecture weekly
Course offers practical filing experience in major systems; students learn filing rules, modern filing supplies and equipment, and introductory records management.

OT 32 - 2 units
Copy Processing
Prerequisite: Typing speed of at least 40 wpm
1 hour lecture, 3 hours lab weekly
Offers instruction and practical experience in the use of mimeoscope, mimeograph, fluid process, and photocopy.

OT 33 - 2 units
Beginning Machine Transcription
Prerequisite: OT 12 or equivalent and typing speed of at least 40 wpm
1 hour lecture, 3 hours lab weekly
Transcription of dictation from belts and/or cassettes to achieve mailable letters at an acceptable production rate.

OT 34 - 2 units
Office Procedures
Prerequisite: OT 12 or equivalent or typing speed of 40 wpm or better
1 hour lecture, 3 hours lab weekly
Course offers instruction and practical application in office techniques and procedures, including receptionist duties,
telephone techniques, fundamentals of filing, and office correspondence.

OT 35A-L - 1-10 units  
Secretarial Skills Refresher
Prerequisite: None  
Lab hours as required by unit formula
One-unit courses designed to refresh skills in one or more of ten areas: (a) alphabetical filing, (b) 10-key calculating machines, (c) vocational spelling, (d) typewriting review, (e) duplicating machines, (f) following directions, (g) effective listening, (h) composing at the typewriter, (i) punctuation review, (j) business arithmetic review, (k) proofreading skills, (l) telephone techniques.

OT 36 - 1 unit  
Job Search Techniques
Prerequisite: None  
Lecture and/or lab as required by unit formula
A course for secretaries and clerical workers to learn how to write letters of application and resumes, to prepare for interviews, and to take tests; also emphasizes personal adjustment on the job for greater success.

OT 37 - 2 units  
Records Management
Prerequisite: None  
2 hours lecture weekly
Study of the management of business records from the filing step to the actual purchasing of equipment and supplies, including file cabinets, folders, file labels, etc. an up-to-date look at the modern office with slides, films, speakers, and field trips.

OT 38 - 3 units  
Secretarial Procedures
Prerequisite: Minimum typing speed of 50 wpm. Shorthand is highly recommended  
2 hours lecture, 3 hours lab weekly
Course designed to give students the critical skills necessary for the development of competencies for the office. Students use business skills acquired in earlier courses and are introduced to tasks that extend measurably their preparation for entry-level office work. Students are also given a comprehensive view of the modern office.

OT 39 - 3 units  
Secretarial Accounting
Prerequisite: None. Not open to students who have passed Business 101  
2 hours lecture, 3 hours lab weekly
Secretarial accounting for students interested in clerical or bookkeeping work; provides fundamentals of double-entry bookkeeping theory and application.

OT 50 - 3 units  
Medical Terminology
Prerequisite: Typing speed of at least 30 wpm  
3 hours lecture weekly
Teaches spelling, definition, and pronunciation of medical terms with emphasis on prefixes, suffixes, and roots of medical terms.

OT 51 - 3 units  
Advanced Medical Terminology
Prerequisite: OT 50  
3 hours lecture weekly
Develops advanced knowledge of medical vocabulary by providing intensive training in
spelling, pronunciation, and definitions of medical terminology with emphasis on body systems.

OT 52 - 3 units
Medical Office Procedures
Prerequisite: OT 14 or typing speed of at least 50 wpm
2 hours lecture, 3 hours lab weekly
Practice is given in typing a variety of medical forms and in machine transcription of medical dictation. Career opportunities in medical, dental, and related paramedical fields are emphasized.

OT 53 - 3 units
Medical Insurance
Prerequisite: None
3 hours lecture weekly
Develops an understanding of the leading types of medical insurance with intensive instruction and drill in completing medical insurance forms for Blue Cross, Blue Shield, Workmen's Compensation, State Disability, Medi-Cal, Medicare, etc.

OT 54 - 2 units
Medical Machine Transcription
Prerequisite: Typing speed of at least 40 wpm
1 hour lecture, 3 hours lab weekly
Transcription of dictation from belts and/or cassettes to achieve mailable letters and reports at an acceptable production rate. Includes case histories, surgical lab and reports with review of specialized medical vocabulary.

OT 61 - 3 units
Legal Office Procedures
Prerequisite: Typing speed of at least 40 wpm
2 hours lecture, 3 hours lab weekly
Develops legal vocabulary.

Provides training in techniques of completing legal forms and handling law office procedures such as court filing, necessary progress of cases, and preparing legal documents.

OT 62 - 2 units
Legal Machine Transcription
Prerequisite: Typing speed of at least 40 wpm
1 hour lecture, 3 hours lab weekly
Transcription of dictation from belts and/or cassettes to achieve mailable letters and reports at an acceptable production rate. Legal documents and communications are emphasized as well as legal terminology.

OT 70 - 3 units
Introduction to Word Processing
Prerequisite: None
3 hours lecture weekly
Course studies the effect automatic keyboards have on the office. Four phases (origination, processing, reproducing, and distribution) of word processing investigated. Roles of management and secretary and career paths resulting from automated equipment are also studied in detail.

OT 71 - 3 units
Memory Typewriter
Prerequisite: OT 12 or equivalent and typing speed of at least 50 wpm
2 hours lecture, 3 hours lab weekly
Provides training on IBM Memory Typewriter; students given basic operational instruction to learn to type documents for updating, revising, and storing.
OT 72 - 3 units
Word Processing: Machine Transcription
Prerequisite: OT 12 or equivalent and typing speed of at least 50 wpm; satisfactory score on punctuation and spelling test.
Practice in using transcribing machines and the art of listening; English usage and business procedures are emphasized. Student will be given extensive practice in spelling and punctuating business letters and forms.

OT 73 - 3 units
Magnetic Card II
Prerequisite: OT 12 or equivalent and typing speed of at least 50 wpm
2 hours lecture, 3 hours lab weekly
Training on IBM Magnetic Card typewriter; basic machine operation and practical experience on the machine for various office-related jobs.

OT 74 - 3 units
Text Editors
Prerequisite: OT 12 or equivalent and typing speed of at least 50 wpm
2 hours lecture, 3 hours lab weekly
Training on various text editing machines provided in this course. Students may repeat course according to equipment availability.

OT 75 - 3 units
Text Editing Projects
Prerequisite: OT 73 or 74
2 hours lecture, 3 hours lab weekly
Thorough review of basic machine operation with major emphasis on applications pertaining to business office communications. New techniques will be learned involving re- vision refinements. Students will learn to take a job (using work submitted from college personnel) from the first stage, set it up, type the materials using the text editors, and then deliver it to the appropriate office. Course may be repeated once for credit.

OT 76 - 3 units
Word Processing: Administrative Support
Prerequisite: OT 70 and at least one of the following: OT 71, 72, 73, 74
3 hours lecture weekly
Course will develop the duties and responsibilities of the Word Processing administrative assistant and support personnel. Topics to be covered are: arguments for and against the implementation of word processing into the office; working with management; centralized and decentralized systems; WP specialists; screening and selection; and dictation practices/procedures.

OT 77 - 3 units
Word Processing: Office Management and Supervision
Prerequisite: OT 70, 76, and at least one of the following: OT 71, 72, 73, 74
3 hours lecture weekly
Course is designed to train students to be office managers for Word Processing Centers. Students will be presented with fundamental principles and successful practices used in getting office work accomplished. The managerial viewpoint is stressed; encompassed in this approach are the ability to recognize a situation requiring managerial action, determining alternate actions that might be taken, deciding upon particular action to follow, and putting the decision into effect.
OT 89 - 1-12 units
Multi-Clerical Skills Program
Prerequisite: None
30 hours weekly
For students with little or no previous business training who have immediate job goals in mind. Course offers training in various clerical skills (typing, writing, machines, filing, spelling, English and math review, transcription, job search techniques) necessary for employment as office clerk, clerk typist, or account clerk. Program is individualized and self-paced and operates on an open-entry, open-exit enrollment plan, graded on a credit-no credit basis. Meets 30 hours per week.

Credit may be awarded for courses within the Office Technology program successfully completed. May be repeated for credit to a maximum of 24 units. Contact Admissions Office for vacancy information.

OT 98 - ½-10 units
Short Courses in Office Technology
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in various disciplines within the field of Office Technology. Unit credit determined by length of course.
Outboard Motorboat Mechanics

OMM 1 - 4 units
Introduction to Motorboat Mechanics
Prerequisite: None
3 hours lecture, 3 hours lab weekly
Selection, maintenance, and troubleshooting of common outboard motors; functions of outboard motor systems; their adjustment and repair. Emphasis on practical application of course material as it applies to the outboard motor repair industry.

OMM 2 - 4 units
Advanced Motorboat Mechanics
Prerequisite: OMM 1
3 hours lecture, 3 hours lab weekly
Continuation of OMM 1; emphasis on repair and rebuilding of outboard engines.

Personal Growth

The Personal Growth course offerings provide an assortment of courses which enable people to better understand themselves, the institution, and the work world, with a professional counselor as instructor, advisor, and/or facilitator.

PG 1ABC - ½-1-1½ units
All About Oxnard College
Prerequisite: None
Lecture hours as required by unit formula
Everything you want to know about academic information, study skills, college activities and clubs, financial aid, library skills and tutoring, vocational programs, transfer programs, and basic college survival hints.

PG 2 - 3 units
Job Development
Prerequisite: None
3 hours lecture weekly
Specialized workshops designed to upgrade student abilities in the area of job-seeking techniques, resume preparation, and interviewing methods; practical experiences in resume writing processes as well as personal interviewing practice.

PG 3 - 1½ units
Academic Assessment
Prerequisite: None
1½ hours lecture weekly
To assist students in assessing their past, present, and future academic objectives; by reviewing their past academic performance, students will be able to determine whether their
present academic objectives are realistic.

**PG 4 - 3 units**
**Peer Advisor Training**
Prerequisite: None
3 hours lecture weekly
Familiarizes students with philosophy, goals, program, course offerings and services of community colleges, and techniques and skills designed to develop and improve students' ability to relate to and help fellow students. Successful participation in this course is recommended for campus peer advisor positions.

**PG 98A-Z - ½-10 units**
**Short Courses in Personal Growth**
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various areas within Personal Growth.

**PG 101A - 3 units**
**Career Development and Life Planning I**
Prerequisite: None
3 hours lecture weekly
Assists students systematically to examine components of career choice; focuses on career awareness, personal awareness, and educational awareness as they relate to the process of career choice. Planning skills and self-assessment instruments will help identify tentative career possibilities.

**PG 101B - 3 units**
**Career Development and Life Planning II**
Prerequisite: PG 101A
3 hours lecture weekly
Provides in-depth methods of self-assessment and increases personal knowledge and awareness for developing effective career decision-making strategies.

**PG 102 - 1½ units**
**How to Succeed in the Academic and Work Worlds**
Prerequisite: None
1½ hours lecture weekly
Several skills have been developed in the last 10 years to enhance personal power in our everyday world, academic world, and work-a-day world. Course analyzes power structures in one's life and helps students learn to deal with and use them.
Philosophy

Phil 1 - 3 units
Thinking Straight?
Prerequisite: None
3 hours lecture weekly
Course deals with ways in which illogical argumentation is used either by accident or to fool the audience. Fallacies in politics, statistics, selling, managing news, procedures of indoctrination, and propaganda are analyzed, and sound principles of reasoning are discussed.

Phil 101 - 3 units
Introduction to Philosophy
Prerequisite: None
3 hours lecture weekly
Course attempts to clarify nature of the philosophic enterprise and place of philosophy in intelligent living. At least two of the following areas are surveyed: metaphysics (study of reality), epistemology (nature of knowledge), political philosophy, aesthetics, philosophy of science, and philosophy of religion. An effort is made to relate the thoughts of the philosopher directly to experiences and vital concerns of beginning student.

Phil 102 - 3 units
Introduction to Ethics
Prerequisite: None
3 hours lecture weekly
Introduction to the nature and main types of ethical theory developed in the West; problems involved in the continuing quest for a more nearly adequate ethical theory for contemporary man together with suggestions for progress toward this goal.

Phil 104 - 3 units
Survey of World Religions: East
Prerequisite: None
3 hours lecture weekly
Origin and historical development of major ideas of the world’s Eastern religious traditions including Hinduism, Buddhism, Taoism, Confucianism, and Zen.

Phil 104 - 3 units
Survey of World Religions: West
Prerequisite: None
3 hours lecture weekly
Origin and historical development of major ideas of the world’s Western religious traditions including Hinduism, Buddhism, Taoism, Confucianism, and Zen.

Phil 105 - 3 units
The Great Philosophers I
Prerequisite: None
3 hours lecture weekly
Introduction to philosophy from a historical perspective; considers ideas which have had a dominant impact on Western Civilization, their logical development, and their influence on contemporary society. Begins with the birth of science and philosophy in ancient Greece and continues to the development of Christian philosophy through the Middle Ages. Special emphasis given to Socrates, Plato, and Aristotle.

Phil 106 - 3 units
The Great Philosophers II
Prerequisite: None
3 hours lecture weekly
Introduction to philosophy from
an historical perspective; considers the ideas which have had a dominant impact on Western civilization, their logical development, and their influence on contemporary society. Begins with the birth of the modern mind and rise of science in the Renaissance and continues to present day. Special emphasis given to the schools of rationalism, empiricism, critical philosophy, and existentialism.

**Phil 107 - 3 units**  
**Logic**  
Prerequisite: None  
3 hours lecture weekly  
Logic is the science and the art of correct thinking. Logic answers the question: "What causes correct thinking?" Course considers ideas, definitions, propositions, forms of reasoning, and fallacies.

**Phil 108 - 3 units**  
**Mythology**  
Prerequisite: None  
3 hours lecture weekly  
Survey and comparative study of global myths concerning origin of world, nature of universe and humankind, processes of change and transformation, and connections between spiritual and mundane worlds; also examines philosophical and social functions of myths and symbols.

**Phil 109 - 3 units**  
**Modern Religious Movements in America**  
Prerequisite: None  
3 hours lecture weekly  
Survey of modern and often highly unusual religious movements in America, including variants of Christianity and non-Christian religions — Zen and Tibetan movements, Vedanta, Transcendental Meditation, Krishna Consciousness, spiritualism, and Satanism — as well as a discussion of the history of religious movements and causes underlying current religious variations.

**Phil 110 - 3 units**  
**Philosophy of Religion**  
Prerequisite: None  
3 hours lecture weekly  
The philosophy of religion investigates empirical, logical, and rational basis for 1) proving existence of God, 2) understanding nature of God, 3) understanding God's relation to natural reality, and 4) understanding the impact of this philosophical study upon religions.

**Phil 112 - 3 units**  
**Symbolic Logic and Set Theory**  
Prerequisite: Phil 107 or Math 111 or equivalents  
3 hours lecture weekly  
Introduction to symbolic logic and set theory; includes investigation of truth and validity, formal proof and symbolizing relations, truth sets, truth tables and boolean algebras, and a description of axiomatic systems. (Co-numbered with Math 112.)

**Phil 114 - 3 units**  
**Social Philosophy**  
Prerequisite: None  
3 hours lecture weekly  
Social philosophy studies man in society from the standpoint of metaphysical and ethical principles and presuppositions of human nature. Course highlights major historical and contemporary perspectives in
the history of philosophy and takes one prominent social philosopher for detailed study. Questions concerning legal and social relationships, purpose in social order, and ethical values in human institutions explored. (Co-numbered with Soc 114.)

**Phil 199AB - 1-3/1-3 units**

**Directed Studies in Philosophy**

Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of philosophy on an independent study basis; assignments will include library research, written work, and discussion with instructor. Maximum of 6 units.

---

**Physical Education**

**Graduation Requirements for the Associate in Arts Degree**

Physical Education is not a requirement for enrollment in the college. However, students who wish to earn an Associate in Arts degree must successfully complete two courses chosen from Health Science or Physical Education activity courses, without exemption.

Summer school Physical Education classes may count toward fulfilling requirements for Associate in Arts degree.

**Repetition for Credit** — The college policy for repeating for credit applies to all beginning physical education activity courses. Students may repeat all intermediate and advanced courses along with varsity sports for additional course credit. Students are encouraged to enroll in a variety of activities which have carry-over value.

**Uniform Requirements** — The uniform or costume appropriate for the course is required of all students.

**BEGINNING ACTIVITIES**

**PE 101AB - 1 unit**

**Beginning Team Sports**

Prerequisite: None
3 hours activity weekly
Techniques, strategies, rules of team sport in season, with opportunity to participate in intramural program.

PE 101A - Fall semester: flag football, volleyball, basketball.
PE 101B - spring semester: basketball, soccer, rugby, softball

PE 102 - 1½ units
Beginning Wrestling
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Introduction to wrestling as an educational medium which gives students opportunity for self-expression; takedowns, rides, escapes, and falls are taught.

PE 103 - 1½ units
Beginning Rugby
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of skill in playing rugby; course covers rules and fundamental skills of passing, running, kicking, and tackling, and offensive and defensive strategy.

PE 104 - 1½ units
Beginning Soccer
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of skills in playing soccer, including rules, techniques, and strategy.

PE 105 - 1½ units
Bicycle Riding
Prerequisite: Access to a lightweight bicycle
1 hour lecture, 2 hours activity weekly
Introduction to cycling as a lifetime sport, to make the student aware of the physiological benefits derived from bicycling.

PE 106 - 1½ units
Swimming for Fitness
Prerequisite: Basic swimming ability
1 hour lecture, 2 hours activity weekly
Course is designed to improve swimming techniques; emphasis on endurance training for improved cardiovascular fitness and weight control.

Attention also given to survival techniques and emergency procedures.

PE 107 - 2 units
Backpacking and Outdoor Survival
Prerequisite: Physical fitness level for mountain hiking and adequate backpacking equipment for participation. 1 hour lecture, 3 hours activity weekly
Introduction to backpacking, equipment, clothing, food and recipes, menus and food lists, cooking, safety and survival on the trail, in camp, ecology; preparation and participation in backpacking trips required.

PE 108 - 1 unit
Co-Ed Softball
Prerequisite: Good health
3 hours activity weekly
Co-educational instruction and participation in basic skills and strategy of slow pitch softball.

PE 109 - 1½ units
Introduction to Karate
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Course designed to teach the basic art of self-defense and insight into the meaning and origin of Karate.

PE 110 - 1½ units
Archery
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of skill in archery, including rules, etiquette, safety factors, and techniques.

PE 111 - 1½ units
Beginning Badminton
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of skill in playing badminton, including rules, etiquette, techniques.
PE 112 - 1 unit
Bowling
Prerequisite: None
3 hours activity weekly
Development of skill in bowling, including rules, etiquette, safety features, and techniques; class is conducted off campus.

PE 113 - 1½ units
Golf
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of skill in playing golf, including etiquette, rules, and techniques.

PE 114 - 1½ units
Tennis
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of skill in playing tennis, including beginning skills, etiquette, rules, and techniques of play.

PE 115 - 1½ units
Sailing
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Introduction to the theory and techniques involved in sailing small sloop rigged boats; introduction to racing rules and tactics included.

PE 116 - 1½ units
Beginning Modern Dance
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of proficiency in modern dance technique, skills, and development of understanding and appreciation of modern dance as an art form.

PE 117AB - 1½-1½ units
Folk and Square Dance — Ethnic Dance
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of ethnic dance skill, understanding, and appreciation. Experiences in folk, square, and round dancing.

PE 118 - 1 unit
Adaptive Physical Education
Prerequisite: None
3 hours activity weekly
Special course designed to meet needs of students unable to participate in regular physical activity classes. Students will be classified by the college physician as to the type of physical activity in which they may participate. Each student is given individual attention in terms of adapted and recreational activities suited to his or her needs. May be repeated for credit.

PE 119 - 1½ units
Beginning Ballet
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Introduction to basic ballet techniques, including exercise at the barre to develop flexibility, strength, control, and resilience and center practice of simple Port des Bras, Adage, and Allegra combinations.

PE 120 - 1½ units
Beginning Volleyball
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of basic skills in playing volleyball including rules, techniques of playing power volleyball.

PE 121 - 1½ units
Beginning Modern Jazz
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of proficiency in jazz technique and skills and development of an understand-
knowledge and understanding of use of the body in its defense; also involves principles of fitness and body movements and development and maintenance of a high level of efficiency.

**PE 126 - 1½ units**
**Tumbling—Floor Exercise**
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Development of proficiency in elementary skills of tumbling and gymnastics with principles of fitness and development and maintenance of a high level of efficiency. Emphasis on development of proficiency in elementary skills of apparatus.

**PE 127 - 1 unit**
**Beginning Team Sports for Women**
Prerequisite: None
3 hours activity weekly
Techniques, strategies, rules of team sports in season, with opportunity to participate in the intramural program. Emphasis on flag football, volleyball, and basketball.

**PE 128 - 3 units**
**Varsity Volleyball for Women**
Prerequisite: None
1 hour lecture, 9 hours activity weekly
Open to women interested in competitive volleyball and competing in a junior college league. Instruction given in techniques, strategies, and rules.

**PE 129 - 1 unit**
**Beginning Racquetball**
Prerequisite: None
3 hours activity weekly
Instruction and practice in basic skills of racquetball. Emphasis is on the techniques of serving, forehand and backhand play.
A thorough understanding of rules and strategy, along with competition in singles and doubles, is provided. Students will be expected to furnish own equipment.

INTERMEDIATE ACTIVITIES

PE 130 - 1½ units
Intermediate Bicycle Riding
Prerequisite: PE 105 and access to a lightweight bicycle
1 hour lecture, 2 hours activity weekly
Advanced presentation of benefits derived from cycling as a lifetime sport, to make students more aware of the physiological benefits acquired from bicycling.

PE 131 - 2 units
Intermediate Backpacking and Outdoor Survival
Prerequisite: PE 107 and physical fitness level for mountain hiking and adequate backpacking equipment for participation
1 hour lecture, 3 hours activity weekly
More advanced participation in backpacking activities to include equipment, clothing, food and recipes, menus and food list, cooking, safety and survival on the trail, in camp, ecology; preparation and participation in backpacking trips required.

PE 132 - 1½ units
Intermediate Body Conditioning (Co-Ed)
Prerequisite: PE 101
1 hour lecture, 2 hours activity weekly
Advanced techniques and skills and principles of fitness and development and maintenance of a high level of efficiency.

PE 133 - 1½ units
Intermediate Badminton
Prerequisite: PE 111 or intermediate skills test
1 hour lecture, 2 hours activity weekly
Advanced techniques and strategies of badminton including participation in competitive tournaments and ladders.

PE 134 - 2 units
Intermediate Golf
Prerequisite: PE 113 or equivalent
1 hour lecture, 3 hours activity weekly
Advanced techniques and skills development with special emphasis on links play. Students are assigned play on local courses at their own expense. NOTE: The evening sections of golf meet only 2 hours and receive ½ unit.

PE 135 - 2 units
Intermediate Tennis
Prerequisite: PE 114 or equivalent
1 hour lecture, 3 hours activity weekly
Development of higher proficiency and performance of tennis skills with special emphasis on game strategy and techniques.

PE 136 - 2 units
Advanced Tennis
Prerequisite: Beginning and intermediate tennis or equivalent
1 hour lecture, 3 hours activity weekly
Advanced techniques and theory of playing tennis — strategy of tournament playing.

PE 137 - 2 units
Intermediate Modern Dance
Prerequisite: PE 116 or equivalent
1 hour lecture, 3 hours activity weekly
Continuing study of modern dance technique with emphasis upon combination of basic skills. Study of the dance phrase integrating elements of
rhythm, design, dynamics, and motivation change.

PE 138 - 1½ units
Intermediate Track
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Advanced technique and strategies in track and field; continuing development of high degree of skill is emphasized in preparation for a competitive season. Special attention to research of skills needed for proficiency in the sport. A requirement for varsity track candidates.

PE 139 - 1½ units
Intermediate Volleyball
Prerequisite: Playing ability in volleyball
1 hour lecture, 2 hours activity weekly
Advanced techniques and strategies in playing power volleyball at the six, four, and two person levels; continuing development of high skills is emphasized.

PE 140 - 1½ units
Intermediate Karate
Prerequisite: PE 109 or equivalent
1 hour lecture, 2 hours activity weekly
Development of skill in advanced fundamentals and techniques of Karate.

PE 141 - 1½ units
Intermediate Soccer
Prerequisite: PE 104
1 hour lecture, 2 hours activity weekly
Advanced techniques and skills in the game of soccer.

PE 142 - 1 unit
Intermediate Jogging
Prerequisite: PE 22
3 hours activity weekly
Course develops one's cardiovascular system and takes a closer examination of training methods.

PE 143 - 1½ units
Intermediate Rugby
Prerequisite: PE 103
1 hour lecture, 2 hours activity weekly
Advanced development of the skills of playing rugby; covers advanced skills in passing, kicking, and offensive and defensive strategy.

PE 144 - 1½ units
Intermediate Archery
Prerequisite: PE 110
1 hour lecture, 2 hours activity weekly
Continuing study of archery with technique emphasis upon advanced skills.

PE 145 - 1 unit
Intermediate Bowling
Prerequisite: PE 112
3 hours activity weekly
Advanced techniques and strategies of bowling and participation in competitive events.

PE 146 - 2 units
Intermediate Baseball
Prerequisite: PE 100 or equivalent
1 hour lecture, 3 hours activity weekly
Development of higher proficiency and performance of baseball skills with special emphasis on game strategy and techniques.

PE 160 - 3 units
Varsity Cross-Country
PE 161 - 3 units
Varsity Golf
PE 162 - 3 units
Varsity Tennis
PE 163 - 3 units
Varsity Track
PE 164 - 3 units
Varsity Basketball
PE 165 - 3 units
Varsity Soccer
PE 166 - 3 units
Varsity Baseball
Prerequisite: Meet the requirement for athletic eligibility in the Western State Conference
1 hour lecture, 9 hours activity weekly
Varsity sports are highly competitive and require an advanced degree of skill.
Students engaged in varsity sports should expect to compete against other institutions, travel, and put in additional hours beyond the normal activity load. Varsity sports meet the PE activity requirement.

PE 170 - 2 units
Men's Professional Activities I
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development of skills, safety habits, appreciation and knowledge of rules, strategy, and background of the following activities: rugby, soccer, speedball, tumbling, and wrestling.

PE 171 - 2 units
Women's Professional Activities I
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development of skills, safety habits, appreciation and knowledge of rules, strategy, and background of the following activities: body mechanics, calisthenics, and tumbling.

PE 172 - 2 units
Men's Professional Activities II
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development of skills, safety habits, appreciation and knowledge of rules, strategy, and background of the following activities: archery, badminton, basketball, golf, lead-up games, volleyball.

PE 173 - 2 units
Women's Professional Activities II
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development in skills, appreciation, and knowledge of modern dance and basic dance forms including background information.

PE 174 - 2 units
Men's Professional Activities III
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development of skills, safety habits, appreciation and knowledge of rules, strategy, and background of the following activities: baseball, football, softball, tennis, and track and field.

PE 175 - 2 units
Women's Professional Activities III
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development of skills, safety habits, appreciation and knowledge of rules, strategy and background of the following activities: marching, tennis, badminton, archery, and track and field.

PE 176 - 2 units
Women's Professional Activities IV
Prerequisite: Enrolled in PE major/minor program
1 hour lecture, 3 hours lab weekly
Development of skills, safety habits, appreciation and knowledge of rules, strategy, and background of the following activities: volleyball, softball, soccer, and field hockey.
PE 180AB - 1-2 units  
**Dance Production**  
Prerequisite: Beginning and Intermediate Dance or equivalent  
1 hour lecture, 1-3 hours lab weekly  
Practical experience in the many phases of dance concert and demonstration, i.e., choreography, staging, make-up, costuming, set designing and construction, lighting, and publicity.

PE 181 - 2 units  
**Introduction to Physical Education**  
Prerequisite: None  
2 hours lecture weekly  
General survey of the field of Physical Education; exploration of aims, objectives, scope, and contemporary values of Physical Education; project and field work required.

PE 182AB - 2½-2½ units  
**Men's Sports Officiating**  
Prerequisite: None  
2 hours lecture, 1 hour lab weekly  
Instruction and lab experience in sports officiating. Proficiency ratings required to successfully complete the course PE 182A during the fall semester — football, basketball, soccer, wrestling, PE 182B during the spring semester — track, baseball, rugby, volleyball.

PE 183AB - 2½-2½ units  
**Women's Sports Officiating**  
Prerequisite: None  
2 hours lecture, 1 hour lab weekly  
Instruction and lab experience in sports officiating. Officiating of individual sports featured in 183A, team sports in 183B.

PE 184 - 2 units  
**Basketball Theory**  
Prerequisite: Advanced basketball ability  
1 hour lecture, 3 hours activity weekly  
Development of advanced skills in basketball and theory behind different styles of play; includes study of films, drills, rules, and techniques of coaching.

PE 185 - 2 units  
**Football Theory**  
Prerequisite: Advanced football ability  
1 hour lecture, 3 hours activity weekly  
Development of advanced skills in football and theory behind different styles of play; includes study of films, drills, rules, and techniques of coaching.
PE 186 - 2 units
Baseball Theory
Prerequisite: Advanced baseball ability
1 hour lecture, 3 hours activity weekly
Development of advanced skills in baseball and theory behind methods and styles of play. Class members will participate in summer baseball program with lab assignments and will have weekly lectures including films and guest lecturers to facilitate instruction.

PE 187 - 3 units
Creative Movement Activities for Children
Prerequisite: None
2 hours lecture, 3 hours activity weekly
Presentation of methods and materials which parents and teachers of pre-school and early elementary-aged children can utilize in encouraging and directing creative movement experiences in the school, home, or various organizations.

PE 188 - 1½ units
Disco Dance
Prerequisite: None
1 hour lecture, 2 hours activity weekly
Fundamentals of disco dance technique will be taught. Students will be exposed to a variety of popular dances for individuals and couples, and given the opportunity to compose their own dances; a final dance contest will be held at the end of the semester.

PE 198AB - 1-3/1-3 units
Directed Studies in PE
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for selected students interested in furthering their knowledge of physical education on an independent study basis; assigned problems will involve library, lab, and field work. Maximum of 6 units.
**Physical Science**

**Phys Sci 1 - 3 units**
Practical Science
Prerequisite: None
3 hours lecture weekly
Basic course in the scientific problem-solving approach; emphasis is on application of fundamental skills in measurement, graphing, unit analysis, simple statistics. Also included is discussion on classification models, and lab report writing.

**Phys Sci 98A-Z - ½-10 units**
Short Courses in Physical Science
Prerequisite: None
Lecture and/or lab as required by unit formula
Workshops cover specialized, specific topics in science not covered in detail in other science courses. (Some topics to be offered are: The Metric System and Alternate Energy Sources.)

**Phys Sci 101 - 3 units**
Introduction to Physical Science
Prerequisite: Math 11, 11R, or equivalent
Experimental approach to the nature of the physical world, emphasizing basic principles of chemistry and physics and ways in which these principles affect matter. Representative topics to be investigated include properties of matter, mixtures and their separations, radioactivity, atomic and molecular theories, and energy.

**Physics**

**Ph 1AB - 5-5 units**
Technical Physics
Prerequisite: Math 14 or equivalent with minimum grade of C or better
4 hours lecture, 3 hours lab weekly
Mechanics, heat, electricity, magnetism, sound, light, and atomic energy with emphasis on technical applications in industry. A rigorous but non-calculus course in basic applied physics. Required of all technical majors.

**Ph 101 - 5 units**
General Physics
Prerequisite: High School mathematics through trigonometry is required; Math 114 may be taken concurrently. Phys Sci 1 is recommended for students with limited science backgrounds.
4 hours lecture, 3 hours lab weekly
Introduction to motion, relativity, energy, heat, gases and molecular motion, electricity, and magnetism. A descriptive course with some quantitative work; demonstration lectures and solution of problems. Course designed to meet needs of medical, dental, optometry, and liberal arts students. Role of the lab is defined and basic arts of planning, execution, analysis, and synthesis in experimentation are practiced.

**Ph 102 - 5 units**
General Physics
Prerequisite: Ph 101
4 hours lecture, 3 hours lab weekly
Introduction to electromagnetic induction, wave motion (light and sound), duality of nature, quantum theory of atomic structure. Last six weeks are reserved for special projects and
oral reports on such topics as alternate energy sources, basic weather principles, effects of radiation on the human body, computer programming, and other projects selected by students.

Ph 110 - 3 units
Descriptive Physics
Prerequisite: Math 11, 11R, or equivalent
3 hours lecture weekly (3 hours lab recommended, but not required)
Primarily a description of basic principles of physics using discussions, lecture-demonstrations, oral and written reports, and some problem solving.

Ph 111 - 5 units
Mechanics of Solids and Fluids
Prerequisite: Ph 110 or equivalent; Math 121 or equivalent; or concurrent enrollment
4 hours lecture, 3 hours lab weekly
Introduction to study of statics and dynamics of particle, rigid bodies, plus an introduction to hydrostatics and hydrodynamics; course uses calculus and vector analysis and is intended for majors in physics, engineering, chemistry, or mathematics.

Ph 112 - 5 units
Electricity and Magnetism
Prerequisite: Ph 111, Math 121; corequisite, Math 122
4 hours lecture, 3 hours lab weekly
Introduction to electricity and magnetism; emphasis on understanding of field theory and applications of calculus. Topics include gravitational, electric, and magnetic field; Coulomb's Law; Gauss' Law; Faraday's Law; Amperes Law; Biot-Savart Law; Ohms Law; AC and DC circuits; and introductory electronics.

Ph 113 - 5 units
Heat, Sound, Optics, and Modern Physics
Prerequisite: Ph 111, Math 121, 122
4 hours lecture, 3 hours lab weekly
Introduction to geometrical optics, wave motion (sound and light), physical optics, thermodynamics; selected topics in quantum mechanics and special relativity at an elementary level. Solution of problems in vector calculus and differential equations demonstrated.

Ph 199AB - 1-3/1-3 units
Directed Studies in Physics
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of physics on an independent study basis; assigned problems will involve library, lab, and field work. Maximum of 6 units.
PSc 101 - 3 units
Basic Political Ideas
Prerequisite: None
3 hours lecture weekly
Course introduces students to basic political ideas which have been and are now used in struggling with recurring political problems, including concepts of freedom, democracy, political justice, political authority, socialism, Marxism, and equality. Fulfills state requirements in American Institutions.

PSc 102 - 3 units
Varieties of Political Experience
Prerequisite: None
3 hours lecture weekly
Course examines political life and institutions of a number of foreign countries to identify both similarities and differences in people’s attempts to grapple with government problems throughout the world.

PSc 103 - 3 units
Ideas and Politics of the American People
Prerequisite: None
3 hours lecture weekly
Course surveys and analyzes main political ideas, institutions, and people at work in the United States today, in their state, national, local, and foreign activities. Fulfills state requirements in American Institutions.

PSc 104 - 3 units
World Political Relations
Prerequisite: None
3 hours lecture weekly
Course explores official and unofficial connections between governments and peoples of the world and traditions, policies, and institutions which bind them together or hold them apart, with particular reference to problems of war, peace, and change.

PSc 105 - 3 units
Current Issues in Domestic and Foreign Politics
Prerequisite: None
3 hours lecture weekly
Course blends elements of political theory with the world of political problems and action at individual, state, national, and international levels.

PSc 106 - 3 units
Political Aspects of Economic Problems
Prerequisite: None
3 hours lecture weekly
Course surveys areas where the impact of economics upon political life is considerable, so that students may better understand the political world.

PSc 107 - 3 units
Politics and Administration of State and Local Government
Prerequisite: None
3 hours lecture weekly
Course studies state and local governments and programs they administer and students attend meetings and consult with officials. Politics of communities, role of civil service, aims and efforts of public programs, and relationship of state and local to national government considered.
PSc 108 - 3 units
Law, Society, and the Citizen
Prerequisite: None
3 hours lecture weekly
Study of basic principles of constitutional law established by courts and of the judicial process which interprets and enforces that law. Special attention to rights and obligations of citizens and to problems of law enforcement in contemporary society.

PSc 199AB - 1-3/1-3 units
Directed Studies in Political Science
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of political science on an independent study basis; assigned problems will involve library, lab, and field work. Maximum of 6 units.

Psychology

Psych 10 - 2 units
Creative Listening
Prerequisite: None
1½ hours lecture, 1½ hours lab weekly
Course designed to expose students to various theories and techniques of listening. Exercises and examples discussed and practiced as part of classroom experience.

Psych 98A-Z - ½-10 units
Short Courses in Psychology
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various disciplines within Psychology.

Psych 101 - 3 units
General Psychology
Prerequisite: None
3 hours lecture weekly
Introduction to subject matter of psychology, including philosophy of science, biology of behavior, conditioning and learning, intelligence, motivation, personality, mental health, and therapy.

Psych 102AB - 3 units
Interpersonal Relations
Prerequisite: None
3 hours lecture weekly
Class provides exploration of personal awareness and interaction. Students will learn to apply psychological principles of human behavior, explore ways of knowing themselves, and learn how they are perceived by others. A combination of experimental and theoretical approaches is used to
increase awareness, clarify values, and aid in decision-making.

**Psych 103 - 3 units**  
**Beginning Statistics for Behavioral Science**  
Prerequisite: Basic math and algebra background  
3 hours lecture weekly  
Designed for students majoring in psychology, sociology, and anthropology; emphasis on use of statistics in behavioral science research. Topics covered are procedures in hypothesis testing, descriptive, inferential, and correlational statistics.

**Psych 104 - 3 units**  
**Introduction to Experimental Psychology**  
Prerequisite: Psych 101 and 103 or concurrent enrollment in Psych 103  
3 hours lecture weekly  
Designed for prospective psychology majors or minors; emphasis on designing, conducting, and writing experimental research in human and animal behavior. Recommended as a third course for psychology majors.

**Psych 105 - 3 units**  
**Introduction to Physiological Psychology**  
Prerequisite: Psych 101; Psych 103 recommended, but not required  
3 hours lecture weekly  
Course provides exploration of physiological basis of behavior. Some topics are neural impulses and sensory processes, neural basis of reinforcement, electrical stimulation of the brain, memory, learning, emotion, biofeedback, split brain studies, and research on right and left hemispheres; emphasis is on current research findings and philosophical-moral implications.

**Psych 106 - 3 units**  
**Social Psychology**  
Prerequisite: Psych 101 recommended  
3 hours lecture weekly  
Study of human social relationships to help students understand effects of groups on their personalities and increase their effectiveness as members of groups. Topics include personal interaction, perceiving others, social attraction, status, power and influence, leadership, attitude formation and change, communication, propaganda, prejudice, and social change.

**Psych 107 - 3 units**  
**Sex Roles**  
Prerequisite: Psych 101 recommended  
3 hours lecture weekly  
Class explores sex role development and how roles can be changed, role conflicts, common stereotypes of males and females, women as a minority group, aspects of sexuality, and psychological implications of the liberation movement; psychological aspects of both sex roles are emphasized. (Co-numbered with Soc 104.)

**Psych 108 - 3 units**  
**Developmental Psychology**  
Prerequisite: Psych 101  
3 hours lecture weekly  
Course explores path of human development from beginning of life through death; emphasis placed on normal developmental patterns using current information; child-rearing practices and their efforts on later development critically examined.
Psych 109 - 3 units
Loss, Grief, and Death
Prerequisite: None
3 hours lecture weekly
Examination of personal feelings and behaviors associated with loss, grief, and death. Combination of psychological theory, current trends and research findings, and personal explorations used; emphasis on dealing with this very personal area in a realistic and positive manner.

Psych 110 - 3 units
Human Sexuality
Prerequisite: None
3 hours lecture weekly
Biological, psychological, and sociological aspects of sexuality. Emphasis is placed on the individual's personal sexuality in the present time; past and future trends are also considered.

Psych 111 - 3 units
The Exceptional Child
Prerequisite: None
3 hours lecture weekly
Characteristics and problems of the mentally retarded, socially handicapped, and/or emotionally handicapped child will include discussion and study of issues and research problems encountered in these specific areas as well as the intellectually gifted child. Co-numbered with CD 108.

Psych 112 - 3 units
Parent-Child Interaction
Prerequisite: None
3 hours lecture weekly
This course will explore the challenging role of being a parent. Focus will be on theories of effective parent-child relationships, identifying typical problem areas, and exploring ways to make interactions into positive growth experiences for both the parent and child.

Psych 113 - 3 units
Psychology of Maturity and Aging
Prerequisite: None
3 hours lecture weekly
Psychological factors of human development from middle life through older years. Emphasis placed on aging as a normal process. Topics include older individual and his/her adjustment to life changes; study of current issues in aging.

Psych 120 - 3 units
Animal Behavior
Prerequisite: None
3 hours lecture weekly
Introduction to comparative psychology and ethology. Emphasis on behavior of familiar mammals, reptiles, and birds. Topics include learning, social behavior, communication, aggression, behavior of pets, and abnormal animal behavior.

Psych 130 - 3 units
Introduction to Humanistic Psychology
Prerequisite: Psych 101 suggested
3 hours lecture weekly
Course explores humanistic movement in psychology. Theories of both Eastern and Western thought as applicable to the concepts of such prominent humanistic psychologists as Maslow, May, Rogers, and others studied from both a theoretical and practical "everyday life" point of view. Historical perspective of humanistic movement against background of psychoanalytic behavioral schools emphasized.
**Psych 189A-Z - 1½ units**
**Current Topics in Psychology**
Prerequisite: A previous course in psychology
3 hours lecture weekly for 9 weeks
Courses considering specialized, specific topics in psychology which are not covered in great detail in the general Psychology course offerings.
Topics to be offered from time-to-time include adolescence, abnormal psychology, aging, parapsychology, mental retardation, modern therapies, human sexuality, behavior modification, hypnosis, humanistic psychology, sex roles and socialization, death and dying, biological feedback, aggression and violence, childhood disorders.

**Psych 199AB - 1-3/1-3 units**
**Directed Studies in Psychology**
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of psychology on an independent study basis; assigned problems will involve library, lab, and field work.
Maximum 6 units.

---

**Public Services**

**PS 98A-Z - ½-10 units**
**Short Courses in Public Services**
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized workshops designed to update public services personnel as required for in-service training requirements in specific subject matter areas. Unit credit determined by length of instruction of the workshop as defined by current credit standards; total workshop credit limited to 10 units.

---

**Reading**

Reading courses are listed under Essential Skills.
property valuation; methods and techniques for determining value for loan and insurance purposes; case study situations and actual field work.

RE 5 - 3 units
Real Estate Appraisal II
Prerequisite: RE 4 or equivalent
3 hours lecture weekly
Development of skill and judgment in selection and use of all methods and mechanics of the income approach to valuation of income-producing properties: apartments, commercial, industrial, and special use properties; land. Acquisition of ability to analyze major types of real estate investments and rate their feasibility.

RE 6 - 3 units
Real Estate Finance
Prerequisite: RE 1 or equivalent
3 hours lecture weekly
Practical study and analysis of money markets, interest rates, and real estate financing, with actual case illustrations demonstrating lending policies, problems, and rules involved in financing real property, including residential, multi-family, commercial, and special purpose properties.

RE 7 - 3 units
Real Estate Economics
Prerequisite: RE 1 or equivalent
3 hours lecture weekly
Economic trends in real estate and land use; dynamic factors which create values in real estate; background for more specialized courses in real estate operation and techniques.

*Equivalence to RE 1 can be possession of a California Real Estate Sales License or ability to take the broker’s examination.
RE 8 - 3 units
Escrow I: Fundamentals
Prerequisite: None
3 hours lecture weekly
Covers the function, principles, and methods of escrows involving title to real and personal property; introduces escrow terminology, forms, and procedures.

RE 9 - 3 units
Escrow II: Procedures
Prerequisite: RE 8 or equivalent
3 hours lecture weekly
Advanced escrow course covering more unusual and complex types of escrows and evaluating possible solutions; emphasis on real estate transactions, with some personal property and bulk sales also analyzed.

RE 10 - 3 units
Escrow III: Problems
Prerequisite: RE 8 and 9 or equivalent
3 hours lecture weekly
Teaches in detail some of the more difficult and unusual types of escrows. Discusses and evaluates actual cases involving conflicts and disputes in escrows. Also includes court cases involving legal aspects of escrow.

RE 98 - 1/2-10 units
Short Courses in Real Estate
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized workshops designed to update real estate personnel as required for in-service training requirements in specific subject matter areas. Unit credit determined by length of instruction of the workshop as defined by current credit standards; total workshop credit limited to 10 units.

RE 99ABCD - 1-2-3-4 units
Real Estate Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.
Lab hours as required by unit formula
Supervised off-campus placement for practical work experience related to the student's major; an opportunity to integrate classroom study with practical on-the-job experience relevant to the student's academic program and vocational goals.
Recreation

Recreation Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.
Lab hours as required by unit formula
Supervised off-campus placement for practical work experience related to the student's major; an opportunity to integrate classroom study with practical on-the-job experience relevant to the student's academic program and vocational goals.

Social Recreation
Prerequisite: None
3 hours lab lecture weekly
Theory and activity course designed to allow students social development and integration through participation in social recreation activities. Low organized games for all ages will be emphasized. One off-campus activity presentation may be required.

Outdoor Recreation
Prerequisite: None
3 hours lecture weekly
Course includes work in forestry, ecology, conservation, outdoor skills, and leadership techniques in outdoor recreation agencies. An overnight field trip is required.

Recreational Performing Arts
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Instruction will focus on organization and supervision aspects rather than performance aspects of rhythms, puppetry, pageantry, cultural activities, storytelling, and singing.

Recreation Field Experience
Prerequisite: None
1 hour lecture, 6 hours lab weekly
Students gain practical experience in an agency appropriate to the student's career interest.

Introduction to Recreation and Leisure
Prerequisite: None
3 hours lecture weekly
Introduction to the broad field of recreation and leisure activities, emphasizing influence on contemporary American life; basic historical and philosophical foundations and an orientation into the profession offered.

Recreation Program Planning
Prerequisite: None
3 hours lecture weekly
Theory and methodology of planning and conducting organized recreation programs in public and private agencies; several agency visitations may be required.
**Rec 107 - 3 units**
Recreation Leadership
Prerequisite: Enrollment in Recreation as major/minor program
2 hours lecture, 3 hours lab weekly
Principles of human dynamics as they apply to effective face-to-face and group leadership; emphasis on leadership techniques, application to various situations, and evaluation. Lab work consists of program observation and leadership.

**Rec 199AB - 1-3/1-3 units**
Directed Studies in Recreation
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of the recreation field on an independent study basis; assigned problems will involve library, lab, and field work. Maximum of 6 units.

---

**Sign Language**

**SL 1 - 3 units**
Beginning American Sign Language, ASL
Prerequisite: None
3 hours lecture weekly
Course presents American Sign Language, native language of the deaf, to beginning students. Syntax, tense indicators, idioms, fingspelling, and the use of gestures, facial expressions, and pantomime combined in a course of instruction which covers fundamentals of grammar, vocabulary needed for simple communication with the deaf.

**SL 2 - 3 units**
Intermediate American Sign Language
Prerequisite: A previous course in sign language at the college or high school level or demonstrated proficiency in sign language skills.
3 hours lecture weekly
Course presents more advanced instructions in American Sign Language in areas of vocabulary, practice in expressive and receptive manual skills, general knowledge of studies and research concerning deafness, and further instructions on language structure and idioms.

**SL 50 - 2 units**
English Grammar for the Deaf
Prerequisite: Student must be accepted into the Special Education Program
2 hours lecture weekly
A special class designed to teach deaf students basic English grammar with practice in writing and grammatical analysis of sentences. The class
is taught in American Sign Language and intended for hearing impaired students who are sufficiently proficient in the use of sign language and who are enrolled in the Special Education Program. (Co-numbered with ES 50.)

**SL 98 - ½-10 units**
**Short Courses in Sign Language**
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in sign language.

**SL 198 - ½-10 units**
**Topics in Sign Language**
Prerequisite: None
Lecture and/or lab as required by unit formula
Designed to meet specific needs of college and community, as required and requested by persons whose needs in this area are not met by present course offerings.

**SL 199AB - 1-3/1-3 units**
**Directed Studies in Sign Language**
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for selected students interested in furthering their knowledge of sign language on an independent basis. Assigned problems will involve library, lab, and field work. Maximum of 6 units.
Sociology

Soc 101 - 3 units
Introduction to Sociology
Prerequisite: None
3 hours lecture weekly
Analysis of historical development of sociology and recent trends in the field; studying the relationship between social systems and human behavior; emphasis on such basic factors as socialization, culture, class, race, and social change.

Soc 102 - 3 units
Social Problems
Prerequisite: None
3 hours lecture weekly
Study of contemporary social problems from a theoretical framework, emphasizing social conditions causing social problems and examining existing programs aimed at their solution.

Soc 103 - 3 units
Racial and Ethnic Group Relations
Prerequisite: None
3 hours lecture weekly
Analysis of racism and prejudice in the US, discussing similarities and differences in racial and ethnic group experiences; emphasis on majority-minority group relations among major racial and cultural groups.

Soc 104 - 3 units
Sex Roles
Prerequisite: None
3 hours lecture weekly
Sociological survey of sexual roles in US society covering the socialization process that creates such roles, current importance of sexual status in major institutions, and implications of the present social movement on future structure of urban society. (Co-numbered with Psych 107.)

Soc 105 - 3 units
Aging in the United States
Prerequisite: None
3 hours lecture weekly
An introduction to gerontology; a survey of cultural values and social organization that affect the status and treatment of aging people in the US. Emphasis upon interrelationships between social attitudes, economic system, and political system on lifestyle of the aged.

Soc 106 - 3 units
Marriage and the Family
Prerequisite: None
3 hours lecture weekly
Study of the institution of marriage as a significant social unit throughout the world; sexuality, dating, mate selection, courtship, engagement, marriage, marital conflicts (sources and resolution of), and parenthood analyzed functionally and transculturally.

Soc 107 - 3 units
Sociology of the Black Community
Prerequisite: None
3 hours lecture weekly
Analysis of values, mores, norms, and interaction patterns within the Black community; emphasis on socialization process of community members and effects of racism within the community. Role of family, political, economic, religious, and educational institutions will be analyzed.
Soc 108 - 3 units
Sociology of the Chicano Community
Prerequisite: None
3 hours lecture weekly
Socio-cultural analysis of familial, political, economic, religious, and educational institutions within Chicano community; emphasis on social stratification and socialization process of community members. Specific consideration given to the concept of colonialism and its effects on the Chicano community.

Soc 109 3 units
Futurology
Prerequisite: None
3 hours lecture weekly
Analysis of problems, possibilities, and prospects for societies of the future in terms of presuppositions and methods of contemporary sociology. Discussion of the work of current and prominent futurologists and critical examination of their approaches.

Soc 114 - 3 units
Social Philosophy
Prerequisite: None
3 hours lecture weekly
Social philosophy studies man in society from the standpoint of metaphysical and ethical principles and presuppositions of human nature. Course highlights major historical and contemporary perspectives in the history of philosophy and takes on a prominent social philosopher for detailed study. Questions concerning legal and social relationships, purpose in social order, and ethical values in human institutions explored. (Co-numbered with Phil 114.)

Soc 199AB - 1-3/1-3 units
Directed Studies in Sociology
Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of sociology on an independent study basis; assigned problems will involve library, lab, and field work. Maximum of 6 units.
Spanish

Spn 1 - 3 units
Conversational Spanish
Prerequisite: None
3 hours lecture weekly
Introductory course for non-native speakers of Spanish. Emphasis on basic vocabulary and structures necessary for daily conversation. Elementary principles of grammar and usage presented as needed. Designed for students who wish to use Spanish in practical situations; preliminary course for transfer students who have no language background.

Spn 2 - 3 units
Conversational Spanish
Prerequisite: Spn 1 or equivalent
3 hours lecture weekly
Second semester course for non-native speakers of Spanish designed for students who have some basic conversational Spanish but who wish to continue work in this area; emphasis on vocabulary building and greater oral fluency with grammar principles introduced as needed.

Spn 3 - 3 units
Conversational Spanish
Prerequisite: Spn 2 or equivalent
3 hours lecture weekly
Third semester course emphasizes correct oral communication in Spanish with oral presentations and discussions on a variety of topics. Students should be able to maintain a conversation in Spanish with a native speaker; emphasis on vocabulary and more complicated usage.

Spn 4 - 3 units
Conversational Spanish
Prerequisite: Spanish-speaking background
3 hours lecture weekly
Practice in oral communication skills for students with a Spanish-speaking background; emphasis on correct usage and pronunciation and enrichment of vocabulary. A method of keeping the cultural heritage more alive.

Spn 5AB - 3-3 units
Spanish for Teachers and Teacher Aides
Prerequisite: None
3 hours lecture weekly
Study of communication skills in Spanish for teachers who teach in a bilingual situation or need to use practical Spanish in classroom situations; emphasis on classroom vocabulary, practical expressions, basic grammar, basic math, basic reading, or short stories for children in Spanish. Special attention will be given to the needs of teachers.

Spn 6AB - 3-3 units
Spanish for Medical Personnel
Prerequisite: None for Spanish 6A; Spn 6A for 6B
3 hours lecture weekly
A study of basic communication skills in Spanish for medical personnel who deal with Spanish-speaking patients. Emphasis on acquired medical vocabulary that can be systematically learned without prior knowledge of the language. Practical informal Spanish for effective communication. Special needs will be given special consideration.
Spn 50 - 3 units
Situational Spanish
Prerequisite: Spn 4 or equivalent fluency
3 hours lecture weekly
Situational Spanish will afford the opportunity to speak Spanish at an everyday level, for students who have taken previous courses and desire to reinforce and expand their skills. Topics are presented and discussed in class.

Spn 98A-Z - ½-10 units
Short Courses in Spanish
Prerequisite: None
Lecture and/or lab as required by unit formula
Special topics designed to inform or update interested persons in the various disciplines within Spanish.

Spn 101-102 - 4-4 units
Elementary Spanish
Prerequisite: None for Spn 101; Spn 101 for Spn 102 or 2 years of high school Spanish with grades of C or better
4 hours lecture weekly
Introduction to language and culture of the Spanish-speaking world designed for students who have had no formal training in Spanish; emphasis on oral communication and then on reading and writing. Basic vocabulary and grammar are studied as well as various aspects of the Spanish culture.

Spn 103-104 - 4-4 units
Intermediate Spanish
Prerequisite: Spn 102 for 103, or three years of high school Spanish with grades of C or better; Spn 103 for 104, or 4 years of high school Spanish.
4 hours lecture weekly
Further study of language and culture through reading and listening to a variety of works; discussion of these works and other topics will give continued practice and development of oral skills. Vocabulary growth stressed as well as review and refinement of grammar principles.

Spn 105-106 - 4-4 units
Spanish for the Spanish Speaking
Prerequisite: A speaking knowledge of the Spanish language
4 hours lecture weekly
Study of communication skills in Spanish for students who are from Spanish speaking backgrounds; emphasis on vocabulary building and correct usage in speaking and writing; a study of basic principles of grammar is included. Both semesters increase proficiency in understanding, speaking, reading, and writing Spanish. Special attention given to needs of native speakers.

Spn 107 - 3 units
Hispanic Culture and Civilization
Prerequisite: 1 year college Spanish or a reading ability in Spanish
3 hours lecture weekly
Reading and discussion in Spanish of civilization and culture of Spanish speaking countries; designed to maintain communication skills and to give a background in art, history, music, literature, customs, and traditions of Spanish-speaking people.

Spn 108 - 3 units
Spanish Grammar and Composition
Prerequisite: Spn 104 or equivalent fluency
3 hours lecture weekly
To present the systematical and logical sequence of Spanish syntax and afford the advanced...
student of Spanish some acquaintance with contemporary grammar and terminology, particularly where such acquaintance will promote heightened insight and sensitivity regarding the problems of Spanish grammar and the contrasts and relationships between English and Spanish. To provide the advanced student of Spanish with heavy emphasis on the written style.

**Spn 117 - 3 units**  
**Mexican Literature in Translation**  
Prerequisite: None, Engl 101 or 102 recommended  
3 hours lecture weekly  
One semester survey of Mexican literature in translation; novel, short story, essay, poem, and song covered from Pre-Columbian times to present with emphasis on the period from 1910 to present. Course taught in English, will not meet foreign language requirements. (Co-numbered with Engl 117.)

**Spn 199AB - 1-3/1-3 units**  
**Directed Studies in Spanish**  
Prerequisite: A course in the specific field  
Lecture and/or lab as required by unit formula  
Designed for students interested in furthering their knowledge of Spanish on an independent study basis; assigned problems may involve library and field work with consultation and review in Spanish with the supervising instructor. Maximum of 6 units.

---

**Speech**

**Spch 1 - 2 units**  
**Basic Speech**  
Prerequisite: None  
2 hours lecture weekly  
Development of ability to communicate thought-feeling messages and to perceive, interpret, and appropriately respond to thinking and feeling of others. Activities — field trips, role-playing, participating in discussion groups, using parliamentary procedures, presenting reports and speeches, reading aloud, and critical listening and evaluation — are oriented to problems and roles likely to be encountered by active participants in today’s society.

**Spch 101 - 3 units**  
**Introduction to Oral Communication**  
Prerequisite: None  
3 hours lecture weekly  
Training and practice in basic principles of effective oral communication through participation in public speaking, group discussion, and oral reading; emphasis on being at ease in front of, and with, a group, and on developing constructive attitudes, organized thinking, proper use of voice and body, and discriminative listening.

**Spch 102 - 3 units**  
**Advanced Oral Communication**  
Prerequisite: Spch 101  
3 hours lecture weekly  
Experience in various types of persuasive rhetoric; reporting,
exposing, arguing, debating, working in parliamentary procedure, and oratory. Study of rhetorical theories and history of public address; investigation of stylistic devices, emphasis on audience analysis, utilization of motives, and speech purposes. Emphasis on completeness and validity of support through planned research of speech topics.

**Spch 103 - 3 units**  
**Process of Communication**  
Prerequisite: None  
3 hours lecture weekly  
Lectures, discussion, and dialogues which proceed through analysis of contemporary views of scope and purposes of human communication within groups; factors and problems involved in the process of communication, and role of spoken language and body language in human behavior; emphasis on process of interpersonal communication.

**Spch 104 - 3 units**  
**Voice and Diction**  
Prerequisite: None  
3 hours lecture weekly  
Designed to give students a basic introduction to nature and principles of voice production and speech sounds; individual speech improvement instruction and practice in correct breathing, voice control, and diction; study of correct pronunciation and enunciation, including study of dialects, foreign and regional. Designed for students in drama, forensics, broadcasting, and self-improvement. (Co-numbered with ThA 104.)

**Spch 105 - 3 units**  
**Oral Interpretation of Literature**  
Prerequisite: Spch 101  
3 hours lecture weekly  
Principles and techniques of oral reading of prose and poetry with understanding and appreciation; evaluation of literature selected for reading.

**Spch 106 - 3 units**  
**Critical Analysis of Speeches**  
Prerequisite: Spch 101  
3 hours lecture weekly  
Introduction to process of rhetorical criticism and analysis of speech texts; practice in writing speech criticisms from tapes, records, and daily newspapers.

**Spch 107 - 3 units**  
**Argumentation and Debate**  
Prerequisite: Spch 101  
3 hours lecture weekly  
Principles of rhetorical arguments: using evidence, detecting fallacies in arguments, preparing briefs, and delivering persuasive arguments. Extensive research is expected for effective formulation and critical analysis of persuasive discourse. Tournament participation is provided.

**Spch 108 - 3 units**  
**Introductory Speech - Bilingual Mode**  
Prerequisite: Native language other than English  
3 hours lecture weekly  
For students with foreign language background stressing speaking of English, pronunciation, idiomatic expression, intonation, phraseology, inflection, grammar, vocabulary building, oral composition, and some emphasis on US customs. Tape recordings may
be made as an aid to correction of foreign dialects.

Spch 109 - 3 units
Readers' Theatre
Prerequisite: None
3 hours lecture weekly
Concepts and techniques of cooperative group work in oral interpretation of literature, including children's stories, poetry, prose, and dramatic literature; supervised activities in performing Readers' Theatre before community and college audiences. (Co-numbered with ThA 109.)

Spch 110 - 2 units
The Deliberative Process
Prerequisite: None
2 hours lecture weekly
Nature and function of deliberative speaking in public meetings; parliamentary law based upon Robert's Rules of Order; practical application of parliamentary procedure in groups; understanding of procedures of conducting meetings in a democratic society. Especially applicable to business majors, speech majors, officers of student government, and members of community service clubs.

Spch 111 - 3 units
Introduction to Mass Media
Prerequisite: Eligibility for Engl 101
3 hours lecture weekly
Concern with understanding the media; history, governmental and social controls. Critical analysis of mass media. Course will not help student to qualify for an FCC license.

Spch 112ABCD - 1-1-1-1 units
Forensics: Tournament Speaking
Prerequisite: None
1 hour lecture weekly
Students may receive credit for their work in any college tournament events: Expository Speaking; Persuasive Speaking; Impromptu Speaking; Extemporaneous Speaking; Readers' Theatre; Oral Communication of Literature; Rhetorical Criticism and Analysis; Debating, and any other event that may be offered at a given tournament. Students are expected to participate in tournaments which take place on weekends throughout the college year.

Spch 198 - ½-10 units
Short Courses: Special Projects in Community Communication
Prerequisite: None
Lecture and/or lab as required by unit formula
Designed to meet specific needs of college and community, as required and requested by persons whose needs in this area are not met by present course offerings.
Supervision

Sup 1 - 3 units
Basic Psychology for Supervisors
Prerequisite: Sup 101
3 hours lecture weekly
Practical psychology course designed to give insight into employee and supervisory behavior; emphasis on perception, motivation, learning processes, emotions, and attitudes.

Sup 2 - 3 units
Human Relations (Developing Supervisory Leadership)
Prerequisite: Sup 101 and 1
3 hours lecture weekly
Techniques of effectively dealing with others — especially in the work situation; emphasis is on developing sensitivity toward others and in application of management principles of interpersonal relationships.

Sup 3 - 3 units
Supervisor's Responsibility for Management of Personnel
Prerequisite: Sup 101 and 1
3 hours lecture weekly
Advanced techniques and principles of recruitment, testing, selection, placement, orientation, training, merit promotion, appraisal of performance, and counseling.

Sup 4 - 3 units
Labor Management Relations
Prerequisite: Sup 101
3 hours lecture weekly
Practical course in employee-management relations includ-

ing supervisor's responsibilities in dealing with employee groups; discussion of development of modern labor organizations and related legislation.

Sup 5 - 3 units
Work Simplification
Prerequisite: Sup 101
3 hours lecture weekly
Supervisor's responsibility for job methods improvement; basic principles of work simplification administration and problems involved; motion study fundamentals for supervisors; time study techniques.

Sup 6 - 3 units
Cost Control for Supervisors
Prerequisite: None
3 hours lecture weekly
Determination of costs in industry; cost control and related factors — materials, waste, salvage, quality control, quantity, control of time; supervisor's responsibility for costs.

Sup 7 - 3 units
Job Analysis for Wage Administration
Prerequisite: Sup 101
3 hours lecture weekly
History of wages, inequalities in rates of pay; management and union movement toward a fair wage plan; supervisor and job descriptions, job evaluation and job classifications; wage plan devised by Department of Labor; Federal Employment Service; wage administration and line organization.
Sup 8 - 3 units
Safety Training and Fire Prevention
Prerequisite: None
3 hours lecture weekly
Problems of accidents and fire industry; management and supervisory responsibility for fire and accident prevention; accident reports and supervisor; fire prevention; machine guarding and personnel protective equipment; State Industrial Accident Code and Fire Regulations; first aid department and the line supervisor’s responsibility; job instruction and safety carriers and the Insurance Rating Bureau; advertising and promoting a safety and fire prevention program.

Sup 9 - 3 units
Developing Employees through Training
Prerequisite: Sup 101 and 1
3 hours lecture weekly
Intensive course exploring supervisor’s responsibility for training and developing employees; methods and techniques of developing career progression plans and programs; instruction on-the-job; technical and management development needs fulfilled through in-house and outside sources.

Sup 10 - 3 units
Management Controls and the Supervisor
Prerequisite: Sup 101
3 hours lecture weekly
Systems approach to management; basic controls and modern control systems application and theory; some exploration of PERT and GANTT techniques and variations of these methods; relationships and interdependency of input-control-processor-feedback-filters-and-output.

Sup 11 - 1 unit
Reading Improvement
Prerequisite: None
1 hour lecture weekly
Techniques to increase reading rate and effectiveness.

Sup 12 - 3 units
Oral Communications
Prerequisite: None
3 hours lecture weekly
Effective speaking and listening; kinds of supervisory communications; accuracy in expressing ideas; understanding what is communicated; intent and effect; planning a meeting; the agenda; conference-leading techniques.

Sup 13 - 3 units
Communication Writing for Supervisors
Prerequisite: Sup 12
3 hours lecture weekly
Review of grammar, punctuation, sentence structure, paragraphing; writing of business letters, reports, memos, bulletins, manuals; format, content, structure of written materials.

Sup 98A-Z - ½-10 units
Short Courses in Supervision
Prerequisite: Fulfilling or anticipating supervisory position
Lecture and/or lab as required by unit formula
Specialized workshops designed to update supervisors or those anticipating promotion as required for in-service training
requirements in subject matter areas such as, but not restricted to, motivation, employee development, management by objectives, performance appraisal, etc. Unit credit determined by length of instruction of workshop as defined by current credit standards; total workshop credit limited to 10 units.

Sup 99ABCD - 1-2-3-4 units
Supervision Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.
Lab hours as required by unit formula.
Supervised off-campus placement for practical work experience related to student's major; an opportunity to integrate classroom study with practical on-the-job experience relevant to student's academic program and vocational goals.

Sup 101 - 3 units
Elements of Supervision
Prerequisite: None
3 hours lecture weekly
Basic introductory course covering in general terms total responsibilities of a supervisor, such as organization, duties and responsibilities, human relations, grievances, training, rating, promotion, quality and quantity control, management and employee relations, safety, etc.

Sup 102 - 3 units
Organization and Management
Prerequisite: Sup 101
3 hours lecture weekly
In-depth exploration of effective methods and techniques of organization and utilization of modern management tools such as charts, graphs, manuals, procedures, and job descriptions.

Theatre Arts

ThA 98A-Z - 1/2-10 units
Short Courses in Theatre Arts
Prerequisite: None
Lecture and/or lab as required by unit formula
Specialized topics designed to inform or update interested persons in the various disciplines within Theatre Arts.

ThA 101 - 3 units
Introduction to Theatre
Prerequisite: None
3 hours lecture weekly
Introduces drama or theatre as a literary art form — including the history of dramatic development, types of drama, how plays relate to production problems, critical analysis of plays, and related production elements for the playwright. Emphasis placed upon appreciation of the theatre — past and present. (Co-numbered with Engl 119.)

ThA 102AB - 3-3 units
Fundamentals of Acting
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Introduction to techniques of acting and development of characterization; exercises in pantomime, improvisation, body movement, voice and usage, and rhythm. Practical exercises in acting in scenes or one-act plays.

ThA 103AB - 3-3 units
History of the Theatre
Prerequisite: None
3 hours lecture weekly
History of man's theatrical development from primitive to present; first semester covers periods from early Greek
through English Renaissance, second semester covers from Restoration through today, including Eastern Theatre. A look at literature, acting, and technical and physical theatres.

**ThA 104 - 3 units**
**Voice and Diction**
Prerequisite: None
3 hours lecture weekly
Designed to give students a basic introduction to nature and principles of voice production and speech sounds; individual speech improvement instruction and practice in correct breathing, voice control, and diction; study of correct pronunciation and enunciation, including study of dialects, foreign and regional. Designed for students in drama, forensics, broadcasting, and self-improvement. (Co-numbered with Speech 104.)

**ThA 109 - 3 units**
**Readers' Theatre**
Prerequisite: None
3 hours lecture weekly
Concepts and techniques of cooperative group work in oral interpretation of literature, including children's stories, poetry, prose, and dramatic literature; supervised activities in performing Readers' Theatre before community and college audiences. (Co-numbered with Spch 109.)

**ThA 110ABCD - 1-2 units**
**Rehearsal and Performance**
Prerequisite: Cast or staff assignment in current theatre arts production.
3 to 8 hours lab weekly
Supervised acting in performance of college-sponsored drama productions; experience in all activities related to theatre productions.

**ThA 112 - 3 units**
**Chicano Teatro**
Prerequisite: Reasonable fluency in Spanish language
2 hours lecture, 3 hours lab weekly
Course treats technical and organizational practices of theatrical productions, writing for the Chicano Teatro and presenting productions in barrios and at the college.

**ThA 113 - 3 units**
**Summer Theatre - Technical Work**
Prerequisite: None
9 hours lab weekly
Participation in course includes design and construction of stage sets and properties; operation of lighting and sound equipment; design and construction of costumes; working with stage make-up; and house management.

**ThA 114 - 3 units**
**Summer Theatre - Acting**
Prerequisite: None
9 hours lab weekly
Participation as a performer in summer theatre productions.

**ThA 115 - 3 units**
**Directing for the Stage**
Prerequisite: ThA 102A
2 hours lecture, 3 hours lab weekly
Study of history of stage directing; concentration placed on art and craft of directing for stage with emphasis on techniques. Practical experience in directing scenes from plays.

**ThA 117 - 3 units**
**Children's Theatre and Creative Dramatics**
Prerequisite: None
2 hours lecture, 3 hours lab weekly
Practical course in techniques of producing Children's Theatre, plus utilizing tech-
Techniques of conducting classes in creative dramatics for children. Class will write, produce, and present its own program illustrating its class work.

**ThA 120AB - 3-3 units**
*Stage Production*

Prerequisite: None
2 hours lecture, 3 hours lab weekly
120A — Lectures and demonstrations in stage lighting, sound, and stage costuming, including practical lab experience as members of crews for department productions.
120B — Lectures and demonstrations in scene design, stagecraft, make-up, and theatre management, including practical lab experience as members of crews for department productions.

**ThA 127 - 3 units**
*Black Experience in the Theatre Arts*

Prerequisite: None
3 hours lecture weekly
One semester survey of Blacks' involvement in the history of Theatre Arts, utilizing dramatic literature and biographies of Black playwrights and performers.

**ThA 199AB - ½-3/½-3 units**
*Directed Studies in Theatre Arts*

Prerequisite: A course in the specific field
Lecture and/or lab as required by unit formula
Designed for students interested in furthering their knowledge of Theatre Arts on an independent study basis. Assigned problems will involve library, lab, and field work. Maximum of 6 units.
Traffic and Transportation

T&T 1 - 3 units
Introduction to Transportation
Prerequisite: None
3 hours lecture weekly
Course introduces various transportation modes. Students will study air, water, trucking, pipeline, and rail forms of transportation. Career employment potential explored.

T&T 2 - 3 units
Fundamentals of Shipping and Receiving
Prerequisite: None
3 hours lecture weekly
Course explains fundamental terminology, technical and legal aspects of Shipping and Receiving. Training will provide students with background necessary in processing and accounting for all objects or assets entering or leaving the premises.

T&T 4 - 3 units
Law of Freight Loss and Damage Claims
Prerequisite: None
3 hours lecture weekly
Course instructs students in laws of freight loss and damage claims and basic principles underlying the regulation, administration, and application of such laws and principles to land, water, and air transportation.

T&T 5 - 3 units
Freight Rates and Tariff Practices
Prerequisite: None
3 hours lecture weekly
Unit of study for traffic persons preparing for increased responsibilities. Subject matter provides practical basis for underlying principles of traffic law. Most subjects analyzed from legal viewpoint.

T&T 6 - 3 units
Interstate Commerce Principles and Practice
Prerequisite: None
3 hours lecture weekly
Provides interpretation of Interstate Commerce Act principles and practice as traffic persons must know and use it. Course also provides insight into Interstate Commerce and practice before Interstate Commerce Commission.

T&T 7 - 3 units
Economics of Transportation and Logistics
Prerequisite: None
3 hours lecture weekly
Course provides instruction about economic significance of transportation on national, state, and local economies. Economics of transportation services and rates related to various logistics systems. Special emphasis on effective management and importance of public policy in transportation.

T&T 8 - 3 units
Warehousing and Physical Distribution
Prerequisite: None
3 hours lecture weekly
Course identifies basic terminology and explores technical, practical, and legal aspects of warehousing and physical distribution. Course includes requirements in layout guides, planning, operational efficiencies, equipment
selection, maintenance, and accountability procedures.

**T&T 10 - 1 unit**  
**Introduction to Air Freight**  
Prerequisite: None  
1 hour lecture weekly  
Course provides students with basic knowledge of domestic and international air freight. Material includes history of air freight, basic terminology, and operational functions as performed by a domestic or international air freight agent.

**T&T 11 - 1 unit**  
**Export and Import Trade**  
Prerequisite: None  
1 hour lecture weekly  
Course presents detailed examination of essential basic fundamentals, planning factors, and techniques employed in exporting and importing goods from and to the United States.

**T&T 99ABCD - 1-4 units**  
**Transportation and Traffic Management Work Experience**  
Prerequisite: None  
99A = 1 unit; 99B = 2 units; 99C = 3 units; 99D = 4 units. May be repeated in any combination to a total of 16 units.  
Lecture hours as required by unit formula.  
Supervised off-campus placement for practical work experience related to the student’s major. An opportunity to integrate classroom study with practical on-the-job experience relevant to the student’s academic program and vocational goals.

---

**Truck Driving and Transporting**

**TDT 1 - 3 units**  
**Introduction to Professional Truck Driving**  
Prerequisite: None  
3 hours lecture weekly  
Fundamentals of truck driving including driver courtesy, safety procedures, and pertinent sections of California Vehicle Code leading to a C-1 or C-2 License. Students learn federal regulations, use of daily logs and recaps as well as inspection and pre-trip preparation. Field trips required.

**TDT 2 - 3 units**  
**Truck Driving: Basic Operating Techniques**  
Prerequisite: TDT 1  
1 hour lecture, 6 hours lab weekly  
Basic knowledge every driver should know about equipment presented in both classroom and vehicle. Preventive maintenance stressed; actual operation of vehicle stressing proper use of clutch, transmission, accelerator, and brakes in both forward and backward movement practiced. Both diesel and gasoline trucks used. Field trips required.

**TDT 3 - 3 units**  
**Twin Trailer or Doubles Operation**  
Prerequisite: TDT 2  
1 hour lecture, 6 hours lab weekly  
Skills necessary to drive a "twin trailer" combination including pre-trip inspection, coupling and uncoupling, maneuvering, and proficiency of operation.
Maintenance and trouble shooting stressed. At completion of course, student will be ready for DMV testing or C-1 or C-2 license. Field trips required.

**TDT 4 - 3 units**  
**Testing and Management Preparation**  
Prerequisite: TDT 3  
1 hour lecture, 6 hours lab weekly  
Practical application of professional truck driving including both closed course skill testing and road tests in traffic. Weight distribution, loading and unloading, records, and bill of lading stressed.

**TDT 5 - 3 units**  
**Long Distance Moving/Storage Business Organization**  
Prerequisite: None  
3 hours lecture weekly  
Analysis of business organization as it relates to the household goods industry. Emphasis placed upon ownership, operation, legal constraints, and personnel. Field trips required.

**TDT 6 - 3 units**  
**Long Distance Moving/Storage Record Keeping**  
Prerequisite: TDT 5  
3 hours lecture weekly  
Bookkeeping principles and procedures as they relate to the household goods industry. Bookkeeping controls, industrial and federal forms are discussed and applied under simulated conditions.

**TDT 7 - 3 units**  
**Moving Household Goods - Claim Prevention**  
Prerequisite: None  
2 hours lecture, 3 hours lab weekly  
Practical application of techniques used in packing, wrapping of household goods for semi-van loading. Organizational surveys and inventory controls are simulated.

**TDT 89 - 1-12 units**  
**Truck Driving/Transportation Cluster**  
Prerequisite: None  
30 hours weekly  
For students who have immediate job goals in mind, program is a full-time, all-day, 30 hours per week offering. Topics covered may include basic operating techniques, twin trailer operation, weight distribution, loading and unloading, coupling, pre-trip inspection, maintenance and troubleshooting. Credit may be awarded for courses within Truck Driving/Transporting program successfully completed. Course operated on continuous enrollment plan, graded on credit-no credit basis. Contact Admissions Office for vacancy information. May be repeated to a maximum of 24 units.

**TDT 98 - ½-10 units**  
**Short Courses in Truck Driving and Transportation**  
Prerequisite: None  
Lecture and/or lab as required by unit formula  
Specialized topics designed to inform or update interested persons in various disciplines within the Truck Driving and Transporting industry. Length of course determines unit credit.
TDT 99ABCD - 1-4 units
Truck Driving/Transporting
Work Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units;
99D = 4 units. May be repeated in any
combination to a total of 16 units.
Lab hours as required by unit formula.
Supervised off-campus
placement for practical work
experience related to the
student’s major. An opportunity
to integrate classroom study
with practical on-the-job
experience relevant to the
student’s academic program
and vocational goals.

Urban Studies

Urban 98A-Z - ½-10 units
Short Courses in Urban
Studies
Prerequisite: None
Lecture and/or lab as required by unit
formula.
Specialized workshops to
update those employed in the
urban studies field; content
designed specifically for
participants. Total workshop
credit limited to 10 units.

Urban 99ABCD - 1-2-3-4 units
Urban Studies Work
Experience
Prerequisite: None
99A = 1 unit; 99B = 2 units; 99C = 3 units;
99D = 4 units. May be repeated in any
combination to a total of 16 units.
Lab hours as required by unit formula.
Supervised off-campus
placement for practical work
experience related to the
student’s major; an opportunity
to integrate classroom study
with practical on-the-job
experience relevant to the
student’s academic program
and vocational goals.

Urban 106 - 3 units
Contemporary Urban Issues
Prerequisite: None
2 hours lecture, 3 hours lab weekly.
Interdisciplinary course
focusing on a variety of
current issues related to the
urban setting, such as housing,
education, law enforcement,
racial conflict, pollution, land
use and open space, urban
renewal, and the government
structure and financing
necessary to meet needs of
people in the urban setting.
Emphasis will be placed on
field research in addition to lectures and library study. (Co-numbered with GM 106.)

**Urban 107 - 3 units**  
**Introduction to the Human Services**  
Prerequisite: None  
3 hours lecture weekly  
Introductory course identifying and examining multi-fold programs and activities of public and voluntary social welfare agencies and helping services; key roles of these organizations in modern society studied in depth. Students give oral and/or written reports on functions of various agencies and services, the many facets of their operations, and effects they produce on individuals and groups. (Co-numbered with GM 107.)

**Urban 108 - 3 units**  
**Human Development in the Social Environment**  
Prerequisite: None  
3 hours lecture weekly  
Analysis of developmental behaviors associated with each stage in human development, and the way social environment helps or impedes this development; examines examples of disruptive influence on human development and means evolved by human service agencies to minimize these disruptive influences. Agencies and groups whose purpose is to combat various kinds of disruptive effects at different stages of human development visited for observation. (Co-numbered with GM 108.)

**Urban 109 - 3 units**  
**Urban Planning Practices**  
Prerequisite: None  
3 hours lecture weekly  
Introduces students to the functions of a planning agency, to nature and development of general plan, and to elements needed to implement general plan (circulation, housing, open spaces, land use, conservation, public buildings), and to tools for general plan implementation which affect land use. Includes a review of operation and problems of urban renewal. Provides working knowledge of planning techniques for an individual intending to work at a paraprofessional level in planning; recommended for students intending to work in engineering, public administration, public works, or utilities. (Co-numbered with GM 109.)
Appendix I

Privacy Rights Governing Student Records

The colleges in this district establish and maintain information on students relevant to admission, registration, academic history, career, student benefits or services, extra-curricular activities, counseling and guidance, discipline or matters related to student conduct, and shall establish and maintain such information required by law.

Right of Access
Any currently enrolled or former student has a right to access to any or all student records relating to the student maintained by this district. The editing or withholding of such records is prohibited except as provided by law.

Requests for access shall be in writing, addressed to the Dean of Student Services at the college of attendance. Requests by students to inspect and review records shall be granted no later than 15 days following the date of request. The inspections and review shall occur during regular school hours. The Dean of Student Services shall notify the student of the location of all official records which have been requested and provide personnel to interpret records where appropriate.

Student records are maintained in a manner to insure privacy of all such records and the colleges in this district shall not, except as authorized, permit any access to or release of any information therein.

Access to student records may be permitted to any person for whom the student has executed written consent specifying the records to be released and identifying the party to whom the records may be released. Information concerning a student shall be furnished in compliance with a court order. The college shall make a reasonable effort to notify the student in advance of such compliance if lawfully possible within the requirements of the judicial order.

Students may request copies of records for review. A fee of $1 will be charged per page per copy.

Directory Information
The colleges in this district maintain directory information which may be released: student's name, address, telephone number, and date and place of birth, major field of study, class schedule, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, the most recent previous public and private school attended by the student.

Students may indicate that directory information which shall not be released providing written notification is given the Dean of Student Services at the college of attendance at the time of enrollment or earlier if
the activity occurs prior to the opening of school.

**Challenge**

Any student may file a written request with the president of the college or designee to remove student records which the student alleges to be: (1) inaccurate, (2) an unsubstantiated conclusion of inference, (3) a conclusion or inference outside of the observer’s areas of competence, (4) not based on personal observations of the named person with the time and place of the observation noted. Allegations which are sustained shall be expunged, and the record removed and destroyed.

Students filing a written request shall be provided a hearing and receive, in writing, a decision either sustaining or denying the allegations. Allegations which have been denied by the college may be further appealed to the Superintendent of the Ventura County Community College District and designee, the Assistant to the Superintendent on Student Services. Allegations which have been denied by the Superintendent may be further appealed to the governing board of the Ventura County Community College District who shall meet with the student, within 30 days of receipt of such appeal, to determine whether to sustain or deny the allegations. All decisions of the governing board shall be final.

---

**Appendix II**

**Student Conduct and Grievance Proceedings**

A. Preliminary Action

1. The Dean of Student Services shall receive and may issue any charge of alleged misconduct made against a student by another student, or by a member of the college staff. Such person shall sign and submit a written statement specifying the tie, place, and nature of the alleged misconduct.

2. The Dean shall confer with the student to advise of the charge, and the sanctions therein. The Dean shall explain to that person the individual rights and privileges guaranteed by college regulations and state laws.

3. The Dean may also procure information relating to the charge from the student and other persons. Whenever appropriate, the Dean shall assess, or cause to have assessed, damage to property and injury to persons, or other forms of misconduct.

4. At this point, the Dean may take any of the following actions:
   a. Dismiss the charge for lack of merit.
   b. Issue a verbal warning or a registered letter of reprimand.
c. Place the student on probation, temporary exclusion, or suspension.
d. Recommend expulsion to the College President, the Superintendent, and the Board of Trustees.
e. Remand the case to a formal hearing.

5. The Dean shall file an incident report to the College President.

6. The student will notify the Dean of intentions to:
a. Abide by the Dean’s decision.
b. Initiate a formal hearing.

7. If the student wishes a formal hearing, the Dean shall arrange for a meeting of the Student Conduct Hearing Committee within 72 hours, or as soon as practicable, to consider:
a. An appeal of the charges of alleged misconduct.
b. An appeal of the sanctions imposed by the Dean.

B. Formal Hearing
1. The Student Conduct Hearing Committee, hereafter referred to as the Hearing Committee, shall be set up as follows:
a. One student appointed by the Associated Students’ President.
b. One faculty member appointed by the Academic Senate President.
c. One administrator appointed by the College President.
d. The Dean will serve as a non-voting chairperson and recorder for the Hearing Committee.

e. Upon notification of the Committee composition, each party is allowed one preemptory challenge. The appointing authority shall appoint a replacement.

2. The Hearing Committee shall conduct its proceedings according to the procedural standards specified in the Statement of Academic Due Process (following).

C. Final Action
1. Upon the conclusion of the findings and the recommendations of the Hearing Committee, the Chairperson shall transmit them to both parties and submit a report to the President of the college.

2. The President of the college may:
a. Concur with the Committee’s decision.
b. Render a new decision.

3. If either party is dissatisfied with the President’s decision, it may be appealed to the Superintendent, and to the Board of Trustees, for final disposition.

Statement of Academic Due Process

A. All issues will be processed in the sequence of preliminary action, informal
conciliation, formal hearing, and final action, within a reasonable time schedule.

B. The committee responsible for the formal hearing on the issue shall conduct its proceedings as follows, unless otherwise provided for:

1. The committee shall receive a signed written charge specifying the time, place, and nature of the charge, and transmit a copy to each party with due notification of rights and responsibilities in the procedure for disposing the charge.

2. The Chairperson of the committee shall state the charge. The Hearing Committee shall hear testimony, examine witnesses, and receive all available evidence pertaining to the charge.

3. Both parties shall have the right to present statements, testimony, evidence, and witnesses. Each party shall have the right to be presented by counsel and to question witnesses and testimony.

4. The accused person may be present at the hearing and be represented by an individual chosen by the accused.

5. The person making the charge shall assume the burden of proof.

6. The hearing shall be closed to the public.

7. The committee shall judge the relevancy and weight of testimony and evidence. It shall make its findings of fact, limiting its investigation to the formal

charge. It may also make recommendations for disposition of the charge.

8. A transcript of the proceeding shall be kept in a confidential file and shall be available at all times to the accused person.
Appendix III

Standards of Student Conduct

As a general rule, all persons are reminded that any kind of misconduct is subject to a reprimand or suspension or, if serious enough, to expulsion. The following rules are to be noted. Violation of the following will be cause for disciplinary action by the Dean of Students.

1. Physical or verbal abuse of any person, or the threat of such physical abuse is forbidden. (ED Code 10602, Penal Code 415)

2. Use or possession of alcoholic, narcotics, or other dangerous drugs; or participation in gambling on campus is forbidden. (ED Code 10603, Business and Professions Code 25603)

3. Willful damage to or theft of college property, or property of faculty, guests, or of students is forbidden. (ED Code 10606, Penal Code 594, 488)

4. Willful obstruction or disruption of instructional activities, administrative procedures, or service functions is forbidden. (ED Code 16675, Penal Code 415.5)

5. Cheating or plagerism in connection with an academic program is forbidden. (Board Policy 4.06f)

6. Failure to meet or maintain required class standards may result in dismissal from class. (Board Policy 7.08c)

7. Failure to comply with directions of college officials acting in the performance of their duties when the person’s action is interfering with the educational process. (Penal Code 626.5)

8. Any person not a student, a college employee, nor one transacting lawful business at the college is enjoined from being on the college campus after being ordered by the college president or his designee. (Penal Code 626.6)

9. All grades given by a teacher, in the absence of error, fraud, bad faith, or incompetency, shall be final. (ED Code 10753)

10. Possession, while on the college campus or off campus center, or at any college-sponsored function, of any weapon, as described in the Penal Code Section 626, or any item intended for use to commit bodily injury, as described in Penal Code Section 245, shall be prohibited (except persons exempt by the Penal Code).

11. Unauthorized entry to or use of the college facilities is forbidden.

12. Forgery, alteration, or misuse of college document, records, or identification is forbidden.
13. Disorderly, lewd, indecent, obscene, or offensive conduct or expression which interferes with the college's primary educational responsibility is forbidden. (Penal Code 650.5)

14. No animals are permitted on campus except under special circumstances with permission of the Dean of Students.

15. Violation of college and district regulations is forbidden. (ED Code 10604)

Appendix IV

Interdistrict Permits

Students whose legal residence is in the Ventura County Community College District must present permits for attendance before completing registration for classes in the college districts listed below:

Students whose legal residence is in a community college district listed below must present permits for attendance before completing registration for classes listed in the Ventura County Community College District.

The purpose of this list is to meet the requirements of Education Code 25505.5.

Admission, Probation, Dismissal, and Readmission Policies

Admission, probation, dismissal, and readmission principles and policies are designed to assist students to make progress toward realistic educational, vocational, and personal goals. Each student who chooses to enroll should be encouraged to take advantage of the opportunity to realize his or her full potential. Limitations regarding programs, courses, and unit loads are consistent with the philosophy of providing an opportunity to succeed. The following principles and policies are consistent with the provisions of the Education Code and Title V of the California Administrative Code.

Principles Governing the Administration of Admission, Probation, Dismissal, and Readmission Policies

1. High school graduates or persons 18 years of age or older who are capable of profiting from the instruction offered or who hold a high school certificate of proficiency shall be admitted by the colleges of the district.

2. High school graduates under 18 years of age shall provide an official transcript verifying their graduation or its equivalent.

3. Non-high school graduates under 18 years of age (advanced placement students) may be admitted in accordance with law.

4. The admissions officer at each college shall have the responsibility of administering admission, probation, dismissal, and readmission policies.

5. Admission, probation, dismissal, and readmission policies, as applied to individual students, are to be administered in such a manner as to respect the integrity and privacy of the student.

6. A dismissed student who applies for readmission must make a written statement supporting readmission. A student who is readmitted must, with the assistance of a counselor, undertake a thorough reassessment of any educational and vocational goals which shall be made a matter of record.

7. A student transferring to Oxnard College from another college is subject to the same admission, probation, dismissal, and readmission policies as Ventura County Community College District students.

8. Admission to special programs, as identified by each college, is conditional until complete transcripts have been received from previous colleges attended.

9. A student subject to dismissal has the right of appeal and/or review.

Policies Governing Academic Probation

1. A student placed on probation shall, as a
condition of continuing enrollment, receive individual counseling and guidance services, including the regulation of his/her program according to the student’s aptitude and achievements.

2. A student on probation must have counselor approval prior to registration for any semester following publication of the student’s name on a probation list.

3. A student shall be placed on probation when the cumulative or semester grade average falls below 2.0. Computations will be based on all college graded work attempted. W’s and INC’s will not be included in the computations.

4. When the student has taken at least 12 units on a “credit-no credit” basis, a student will be placed on probation when he/she has accumulated “no credit” grades in at least one-half but not three-fourths of units attempted.

5. A student dismissed under the above rules shall not be reinstated until a minimum of one semester has elapsed after the dismissal.

**Exception to Dismissal**

1. An exception to dismissal may be made in the event of extreme and unusual circumstances that can be supported by evidence provided by the student.

2. At each college of the district, a committee shall be established representing admissions, counseling, and instruction to rule on exceptions in the application of dismissal policies.

**Readmission**

A student excluded because of low scholarship must submit a written request to the appropriate college authority in applying for readmission. The request shall explain what circumstances or conditions would justify readmission.

**Cheating or Plagiarism**

In keeping with the philosophy that students are entitled to the
best education that the district's colleges can make available to them and that all instructors and students share responsibility for seeing that this education is honestly attained, each student is expected to exert an entirely honest effort toward attaining an education. Instructors have the responsibility and authority for dealing with such instances of cheating or plagiarism as may occur in their classes. It is the policy of the district that the instructor may dismiss a student involved in such dishonest behavior from class with a permanent grade of F. In addition, the faculty member or administration may direct the matter to an officially constituted committee which may recommend further disciplinary action. Students affected by this policy ruling may appeal to the appropriate college committee.
