ART R108C: ADVANCED OIL PAINTING

Originator
cmorla

College
Oxnard College

Discipline (CB01A)
ART - Art

Course Number (CB01B)
R108C

Course Title (CB02)
Advanced Oil Painting

Banner/Short Title
Advanced Oil Painting

Credit Type
Credit

Start Term
Fall 2021

Catalog Course Description
This course explores the more advanced concepts in painting by examining abstract qualities in contemporary art; understanding philosophical trends and movements in painting and critical analysis of students' work. Each topic will be approached by examining theoretical issues, or historical and contemporary painters' lives and works in order to inform student development.

Taxonomy of Programs (TOP) Code (CB03)
1002.10 - Painting and Drawing

Course Credit Status (CB04)
D (Credit - Degree Applicable)

Course Transfer Status (CB05) (select one only)
A (Transferable to both UC and CSU)

Course Basic Skills Status (CB08)
N - The Course is Not a Basic Skills Course

SAM Priority Code (CB09)
E - Non-Occupational

Course Cooperative Work Experience Education Status (CB10)
N - Is Not Part of a Cooperative Work Experience Education Program

Course Classification Status (CB11)
Y - Credit Course

Educational Assistance Class Instruction (Approved Special Class) (CB13)
N - The Course is Not an Approved Special Class

Course Prior to Transfer Level (CB21)
Y - Not Applicable

Course Noncredit Category (CB22)
Y - Credit Course

Funding Agency Category (CB23)
Y - Not Applicable (Funding Not Used)

Course Program Status (CB24)
1 - Program Applicable

General Education Status (CB25)
Y - Not Applicable

Support Course Status (CB26)
N - Course is not a support course

Field trips
May be required

Grading method
Letter Graded

Does this course require an instructional materials fee?
No

Repeatable for Credit
No

Is this course part of a family?
Yes

Prerequisites
ART R108B

Entrance Skills
Entrance Skills
Show color harmony in a painting.

Prerequisite Course Objectives
ART R108B-Explain Color Theory

Entrance Skills
Create a personal narrative painting.

Prerequisite Course Objectives
ART R108B-Create an individual approach to conceptual and content issues in painting

Entrance Skills
Use underpainting grisaille and glaze painting techniques.

Prerequisite Course Objectives
ART R108B-Demonstrate a thorough knowledge of painting materials and techniques

Requisite Justification
Requisite Type
Prerequisite

Requisite
ART R110B

Requisite Description
Course in a sequence

Level of Scrutiny/Justification
Content review

Student Learning Outcomes (CSLOs)

Upon satisfactory completion of the course, students will be able to:

1	Students will achieve a hands-on experience with creative endeavors and either individually or collaboratively perform the work of others or to create original work applying feedback to improve their performance.
2	Students will either individually or collaboratively create original work, which they then revise and improve upon based on critical feedback.
3	Students will realize a creative expression when they design and implement a hands-on experience through creative thinking.
4	Students will understand and apply the elements of design in various creative contexts.
5	Students will understand the complex blend of personal vision, social-cultural background, ethical values and aesthetic judgement in their own artistic work.
6	Students will use basic geometrical shapes, such as: lines, angles, shapes, and space.

Course Objectives

Upon satisfactory completion of the course, students will be able to:

1	Demonstrate a thorough knowledge of oil painting materials and techniques
2	Demonstrate a growth in skill level
3	Explain color theory
4	Formulate an individual approach to conceptual and content issues in painting
5	Formulate an appreciation for painting and express that appreciation through writing about art history
6	Combine technical and theoretical concerns into a personal aesthetic

Course Content

Lecture/Course Content
1. Composition
    a. Negative and positive space shapes of work more complicated than addressed in previous course
    b. Balance and harmony of work more complicated than addressed in previous course
2. Light and Space
    a. Tonal value elements in more challenging compositions than in prior course
    b. Value patterns in complex compositions
    c. Volume and form in space
3. Color Mixture
    a. Hue, value, saturation addressing the continued development of the student
    b. Color schemes appropriate to intermediate painting challenges
4. Painting Materials as a more advanced element than in previous class
    a. Materials additional to what is covered in the previous course such as structures, mediums, oil paint extenders and specialty brushes
    b. Techniques additional to what is covered in the previous course such as scumbling, dry brush and impasto
    c. Use of traditional and non-traditional painting styles
5. Developing a Body of Art Work
    a. Choosing a theme and materials to develop a focused body of work
    b. Understanding the principles of craftsmanship and presentation aesthetics

Laboratory or Activity Content
- Experiment with a variety of materials such as acrylic paint, acrylic mediums, brushes, palette knife, canvas, panels and paper
- Create various color and tonal scales
- Painting techniques including grisaille, glazing, scumbling, alla prima, smooth blending, impasto and palette knife painting
- Components of color: hue, value and saturation
- Underpainting variations
- Compositional techniques
- Explore art elements and principles such as space, form, texture, value, variation and harmony
- Create 3-dimensional illusion on a 2-dimensional plane
- Write a gallery report
- Group and one-to-one critiques
- Research art historical and contemporary art

Methods of Evaluation

Which of these methods will students use to demonstrate proficiency in the subject matter of this course? (Check all that apply):
Skills demonstrations

Methods of Evaluation may include, but are not limited to, the following typical classroom assessment techniques/required assignments (check as many as are deemed appropriate):
Individual projects
Laboratory activities
Oral analysis/critiques
Oral presentations
Projects
Problem-Solving Assignments
Portfolios
Reports/papers
Skills demonstrations

Instructional Methodology

Specify the methods of instruction that may be employed in this course
Audio-visual presentations
Computer-aided presentations
Class activities
Class discussions
Distance Education
Demonstrations
Field trips
Group discussions
Guest speakers
Instructor-guided interpretation and analysis
Instructor-guided use of technology
Internet research
Laboratory activities
Lecture

Describe specific examples of the methods the instructor will use:
1. Instructor will give demonstration on how to document paintings and organize a professional portfolio.
2. Instructor will give PowerPoint slide presentations of contemporary art examples related to projects including the work of social activist painter, Kerry James Marshall.
3. Guided in-class problem solving assignments followed by group critiques.

Representative Course Assignments

Writing Assignments
Written self-analysis of painting projects and gallery reports.

Critical Thinking Assignments
1. Solving abstract painting problems.
2. Conceptualizing and executing visual problems.
3. Create paintings that demonstrate personal expression, involving aesthetic and practical solutions.
4. Individual and group critiques.

Reading Assignments

Reading of instructor produced handouts on painting techniques and historical examples

Skills Demonstrations
1. Ability to create complex color harmonies.
2. Use of painting techniques including scumbling, glazing and alla prima
3. Development of personal expression.

Other assignments (if applicable)
1. Homework exercises on painting experimentation and completion of projects.
2. Field trips to on campus gallery or off campus art venues.

Outside Assignments

Representative Outside Assignments
1. Written self-analysis of painting projects and gallery reports.
2. Reading of text from *Art Now* and historical examples, typically twice a month.
3. Homework exercises on painting techniques and completion of projects.
4. Field trips to on campus gallery or off campus art venues.

Distance Education Addendum

Definitions

Distance Education Modalities

Hybrid (51%–99% online)
Hybrid (1%–50% online)
100% online

Faculty Certifications

Faculty assigned to teach Hybrid or Fully Online sections of this course will receive training in how to satisfy the Federal and state regulations governing regular effective/substantive contact for distance education. The training will include common elements in the district-supported learning management system (LMS), online teaching methods, regular effective/substantive contact, and best practices.

Yes

Faculty assigned to teach Hybrid or Fully Online sections of this course will meet with the EAC Alternate Media Specialist to ensure that the course content meets the required Federal and state accessibility standards for access by students with disabilities. Common areas for discussion include accessibility of PDF files, images, captioning of videos, Power Point presentations, math and scientific notation, and ensuring the use of style mark-up in Word documents.

Yes

Regular Effective/Substantive Contact

Hybrid (1%–50% online) Modality:

Method of Instruction	Document typical activities or assignments for each method of instruction
Asynchronous Dialog (e.g., discussion board)	Asynchronous discussion boards will be used to encourage interaction between students. Students will post images of their projects and provide constructive and supportive feedback on other students' work. Professor will also provide opportunities to compare and contrast contemporary paintings on discussion boards.
Face to Face (by student request; cannot be required)	Face to face class meetings will provide opportunities for students to ask questions, receive feedback and discuss topics related to course material and learning objectives.
Video Conferencing	Professor will give technical demonstrations via live ConferZoom meetings. Video conferencing will also be used to conduct critiques and encourage student to student interaction.

Hybrid (51%–99% online) Modality:

Method of Instruction	Document typical activities or assignments for each method of instruction
Asynchronous Dialog (e.g., discussion board)	Regular use of asynchronous discussion boards encourages various types of interaction and critical thinking skills among all course participants. Questions and topics posed will allow students to discuss, compare and contrast, identify, and analyze elements of the course outcomes. Students will be required to respond to one another with substantive comments with the intent of creating a dialog. Other discussion boards may be used for Q&A and general class discussion by students and instructor to facilitate student success and strengthen student learning outcomes.
E-mail	E-mail, class announcements and various learning management system tools such as "Message Students Who" and "Assignment Comments", will be used to regularly communicate with all students on matters such as clarification of class content, reminders of upcoming assignments and/or course responsibilities, to provide prompt feedback to students on coursework to facilitate student learning outcomes, or to increase the role of an individual educator in the academic lives of a student. Students will be given multiple ways to email instructor through both the learning management system inbox and faculty provided email accounts.
Face to Face (by student request; cannot be required)	The instructor will hold weekly, scheduled office hours either in person or via-web conferencing, for students to be able to meet and discuss course materials or individual progress. Students can request additional in-person or web conferencing meetings with faculty member as needed. Faculty may encourage online students to form "study groups" in person or online.
Other DE (e.g., recorded lectures)	Faculty will use a variety of ADA compliant tools and media integrated within the learning management system to help students reach SLO competency. Tools may include: • Recorded Lectures, Narrated Slides, Screencasts • Instructor created content • OC Online Library Resources • Canvas Peer Review Tool • Canvas Student Groups (Assignments, Discussions) • 3rd Party (Publisher) Tools (MyOpenMath) • Websites and Blogs • Multimedia (YouTube, Films on Demand, 3CMedia, Khan Academy, etc.)
Synchronous Dialog (e.g., online chat)	Instructor will provide a set time each week where they will be available for synchronous chat and be available in the discussion board and can answer questions in live time.
Video Conferencing	Video tools such as ConferZoom can be used to provide live synchronous or asynchronous sessions with students. ADA compliance will be upheld with Closed Captioning during the session or of the recorded session. Recordings of all live sessions will be made available within the LMS. Video Conferences will be used to facilitate SLOs and student-to-student group meetings will also be encouraged.
Telephone	Students can request for instructor to call or vice versa in order to answer one-on-one questions about course material or student progress.

100% online Modality:

Method of Instruction	Document typical activities or assignments for each method of instruction
Asynchronous Dialog (e.g., discussion board)	Asynchronous discussion boards will be used to encourage interaction between students. Students will post images of their projects and provide constructive and supportive feedback on other students' work. Professor will also provide opportunities to compare and contrast contemporary paintings on discussion boards.
Synchronous Dialog (e.g., online chat)	Professor will set regular hours where they will be available in the discussion board to chat with students and answer questions related to course material and learning objectives.

| Video Conferencing | Professor will give technical demonstrations via live ConferZoom meetings. Video conferencing will also be used to conduct critiques and encourage student to student interaction. |
