

# Oxnard College A.A. in General Studies with an emphasis in Society, Human Behavior, and Culture 2025-2026

Student's Name \_\_\_\_\_ Date: \_\_\_\_\_ Counselor: \_\_\_\_\_ Student ID: \_\_\_\_\_ Catalog Year: \_\_\_\_\_

The Associate in Arts in **General Studies with an emphasis in Society, Human Behavior, and Culture** degree is designed to provide an interdisciplinary perspective on human behavior, individually and as members of organizations, cultural groups, and society. The courses in this major introduce students who are undecided about a major to a wide variety of majors offered by the College, helping them to narrow their focus and choose either an Associate in Arts (AA) or Associate in Science (AS) in a specific major or choose an Associate Degree for Transfer (ADT). For students pursuing transfer to a California State University (CSU), an ADT is usually the preferred major, particularly for the following majors: Anthropology, Business Administration, Communication Studies, Economics, Geography, Global Studies, History, Political Science, Psychology, and Sociology. Students seeking transfer to universities in majors for which there is no aligned ADT or to universities that do not accept the ADT as similar to the student's intended major, may also use this degree to design a major that prepares them for transfer.
