Step 5 (Option 1): Drop in and Meet with a Live Tutor

Welcome to Net Tutor

Your estimated wait time is under 5 minutes.

We are here to help.

You will be directed to the first available tutor, usually within a few minutes. **Keep this window open while you are waiting.**

When it is your turn, you will hear a bell and be brought to a room where you can collaborate with your tutor. Be sure to turn up the volume on your computer so you can hear when it is your turn.

Your tutoring session will be private. When it is over, you can review the material you covered in your session by visiting your locker.

It is difficult to estimate your exact waiting time because we believe each student deserves a full, helpful session and their tutor's undivided attention. This will be the level of support you receive too!

While you are waiting, here are some study tips you can try

○ ○ ●

- Once the “Drop in and Meet with a Live Tutor” option is selected, the user is either connected to a live tutor or placed in a waiting line. Remember to check how long it may take to reach a live tutor.
- If the wait time is too long, there is an option to ask a small question to be addressed later (which may take up to 48 hours). The reply will be in the “Your *** Locker” option.

- Once connected with a tutor, type in a question to begin the session. It is recommended to have one ready before entering the session. Net Tutor uses a white board interface called Pisces. The online tutors can help navigate this platform, so please don't hesitate to ask questions.

Step 5 (Option 2): Drop off a Paper

Basic Information Format File

Paper Name

Give your paper a title so you can refer to it later.

100 characters remaining
The paper name field is required.

Tell us about your assignment and how we can help

Describe your paper and any special instructions for the tutor.

300 characters remaining

- This is an asynchronous tutoring option that is suitable for essays. This is an alternative way to get feedback when unable to meet live with a tutor.
- Note: This can take up to 48 hours for a reply, and it will be retrieved in the “Your *** Locker” section. It is recommended to use this early and in multiple intervals.
- In the “Basic Information” part, type in the title of your essay and a description of the assignment. Please notice that there are character limits to each section, so it is best to summarize.
- In the “Format” section, select two items for feedback, the citation style (APA, MLA, etc.) if applicable, paper type (narrative, essay, etc.), and number of pages. Be as specific as possible to get the feedback desired. o Note: If the essay is submitted early enough, multiple revised drafts can be resubmitted to get more feedback on other aspects.

- The “Drop off your Paper” is the final part of the process. Simply drag and drop your file from the computer into the green “Drop Your File Here” box, or click below it to “Choose A File.” If done successfully, the “Drop Off Your Paper” button on the bottom right will turn dark green. Press it to submit the file.
- To get the paper with tutor feedback (which can take up to 48 hours), go into the “Locker” section of the subject, which is further explained at the “Step 6: Your *** Locker” section at the end.

Step 5 (Option 3): Drop off a Question

- When the “Drop off a Question” option is selected, a prompt will come up in a green box (see image below). This option is useful for simple inquiries, clarifications, or guidance about the subject.

Drop off a Question

If there is no live tutor available or you cannot spend time with a live tutor, drop off your question for feedback.

After you enter a title, you will be given space to enter your question. Be sure to share as much detail as you can about where you need help.

Give your question a title to refer to later

[Proceed To Question Entry](#) [Cancel](#)

- Note that the title of your question has a 30-character limit, so make it as concise as possible. This option can also take up to 48 hours, so use this function early.

Step 6: Locker

- The “Your ***Locker” option is organized per subject. In order to access the correct “Locker,” return to the subject tutoring options page.

- In the locker will be a record of the “Live Tutoring Session,” which can be reviewed after meeting with a tutor. The “Paper Feedback” for submitted essays and answers to submitted “Questions” will also be found in this section (within 48 hours). These items will remain here for the semester.
