OC 50TH Anniversary and All College Day Celebration

We're proud to mark 50 years of serving Ventura County! Since opening our doors in 1975, Oxnard College has been a place of opportunity for immigrant, working-class, and military families. Our story is built on the vision and dedication of educators, students, and community members who shaped the college into what it is today. Their impact continues to inspire us as we look ahead to the next half-century of growth and excellence. This milestone is not just a celebration—it's a tribute to our history and a promise to our future.
